There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use.

We are renewing our application for catering/retail/activation units around the ring road of the Etihad stadium, as well as in the City Square area to the North of the stadium.
This is an updated version of the consent given in 2017.
Generally, we are allowing for each unit to be typically 7.5m long, 2.6m deep and 2.8m high (though they do fluctuate), but for the purposes of the application we are applying for zones to be approved, for our units to be located in and giving us the flexibility to move them around site within these zones as and when. This is where it skews the data being inputted on this application, as i am not calculating the entire area of each zone, more looking for approval for the zones for the units to operate within.

There are a total 34 separate units we are proposing are used across the site, within the various zones denoted on the drawing, though some of these will come and go according to the event at hand.

Has the work or change of use already started?

☐ Yes ☒ No

6. Existing Use

Please describe the current use of the site

It is currently used as per the 2017 application, as a forecourt for the stadium with a mix of units already n situ as per the previous consent.
Areas denoted are a mixture of MCFC leasehold and MCC freehold. I have drawn a blue line to show the MCFC leasehold areas within
