With regards to your enquiry, it is considered that the principle of development of the erection of a single dwellinghouse would be acceptable in this instance. Consideration however should be given to the proposed materials including boundary treatment and fenestration.

Furthermore, should you wish to submit a planning application you should also complete the city councils waste management proforma via the following link https://www.manchester.gov.uk/downloads/download/6048/waste_management_strategy and indicate how waste will be stored and moved to the highway on collection day.

As part of an application, we would also require a ground conditions report as well as indication of secure cycle parking within the curtilage.
