This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address:

Mining Information

The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Please read the Standing Advice from the Coal Authority in Appendix A.

Any requirements for licensing, hoarding / scaffolding, skips and any associated temporary traffic management arrangements will need discussion and agreement with the council's Highway Applications and Network Resilience teams via Contact Manchester 0161 234 5004.

Any new glazing in external doors, ground floor or easily accessible windows should include at least one pane of laminated glass rated as P4A under EN 356.

We would recommend that any existing CCTV coverage is reviewed to ensure that proposed new canopy at the entrance does not impede the view of CCTV around the front of the building

The existing metalwork that is to be removed from the front elevation of the building (above the main entrance to King Street) shall be retained on site and preferably utilised within the interior of the building. The metalwork should be kept in good condition with a view to be reinstated in the future.
