Product details

Length: 2400 mm	Suitable for: Structural carcassing	Certifications Met: FSC® certified
Thickness: 45 mm	Treatment: Pressure treated	Type: Treated regularised kiln dried C16
Width: 95 mm	Material: Spruce	Brand Name: Wickes
Thickness Imperial: 1 3/4in	Grade: C16 - EN14081	
Width Imperial: 3 3/4in	Pack Quantity: 1	

Features & benefits

- Pressure treated with preservatives to enhance resistance to rot and insect attack
 - Regularised to consistent widths for working more accurately and easy handling
 - Stress graded to C16 specification for structural applications
 - Kiln dried before pressure treatment to help improve stability
 - Protect from direct contact with moisture with a suitable woodcare treatment
 - Not suitable for use in direct ground contact
- All sizes are approximate
 - Always seal cut ends with a suitable preservative to maintain all-round protection
 - Nominal size 47 x 100mm
 - FSC certified so you know that our timber is sourced in an environmentally responsible manner

What's the point of calling it kiln dried if it was then soaked in water? The kiln dried wood is green wood, they are full of moisture. They grow mould on them standing in Wickes.

3

Warped wood

Can't fault the delivered cost and timing aspect but the wood itself was quite warped. It made it difficult to make the desired structure but I got there in the end.
