WARNING

Significant hazards relative to the architectural design shown on this drawing have been assessed and highlighted with reasonable skill and care using a hazard triangle system.

This drawing is to be read in conjunction with all other hazardsinks which have been identified and recorded within contract this phases H&S plan.

It is assumed that all works as this drawing will be carried out by a competent contractor using safe working practices, to an agreed method statement.

Significant hazards are defined as:

- Those not likely to be obvious to a competent contractor or other designer.
- Those of an unusual nature.
- Those likely to be difficult to manage effectively.
