G11	5	Mix	Path	RCP		Cut back to 2m from the MOSI building
G11/1	1	Rowan	Path	RET		Fell, decay at base
Lower Byrom Street						
G12	12	Mix	Road side	LCP	RCP	Whitebeam, maple, hornbeam, plane, ash, robinia and a blossom tree, lift and reduce from pavement 3m, highway 6m and property 2m, deadwood the robinia
Tree no	No./ Qty	Species	Location	Action 1	Action 2	Comments

Culvercliffe Walk						
G13	5	Whitebeam	Grass plot	LCP RCP	COC	Lift and reduce from pavement 3m and the property by 2m and clean out crowns
G14	6	Ornamental	Path side			
Internal trees						
Rozel Square and Porchfield Square						Various works including tying in a sprawling cypress tree, felling a cryptomeria and lifting and reducing a cherry tree, this and some other bits and pieces should be able to make a day up for a team
Culvercliffe Walk - inside						Birch and 3 planes to lift, reduce, clean out crowns etc
I'm sure we could spend a week on the internal vegetation and trees. The large cedar in Rozel Square offers no visual amenity in my opinion and would be better replaced with another, the cedar crisis is often encountered, plant it and then 15-20 years later it is too big for the location, so prune it into an amorphous blob, wring your hands for a few years and then cut it down and plant another one to enjoy for another 15-20 years to repeat the above. I was keeping out of the debate! I can't remember the cryptomeria but its distinctive foliage should give it away. All works are subject to consent from the local authority.
