

Construction (Design and Management) Regulations 2015
Designer Considerations
LDM Surveys' rely on the projects team's "Design" as defined by Regulation 9,
and have avoided foreseeable risks to those involved in the construction and future use of the
structure and it is being intended to be used in its intended purpose, taking account of
other design considerations and relevant risks associated with these hazards.
The Designer has provided adequate information about any significant risks associated with the
design and to enable the work to be done in order to improve the way in which risks are
managed and controlled.
The associated risks are considered to be or project specific risks and as such are not considered
as a complete and that list of all hazards that may arise
