Details of the pre-application advice received

The previous design was for a building to replace the building that had burnt down after many conversations Mr lawless had let us know that the site would lend itself better to a pair of semi-detached houses.

"Mr Poonawala,

There is no objection in principle in redeveloping the site for residential purposes. However, as with the previous refusal (109750/FO/2015/S1), it is still considered that the number of units proposed constitutes overdevelopment and for that reason can not be supported. In addition, the windows in the northwest elevation would overlook the side garden of the dwelling on Whiteholme Avenue and this could prove to be an issue. I acknowledge that the site will not be a straightforward one to development but a proposal of this scale will not be supported. A smaller scheme (semi-detached houses?) may work better and offer sufficient space for off-street parking and refuse storage, as well as sufficient private amenity space. The design of the proposal is also a cause for concern and while I appreciate that these drawings might not be the "finished article" more work on the proposed building needs to be undertaken to reduce the scale and massing of the proposal to minimise any impact on the streetscene."

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
