RUFFORD.PDF;

Further to my original email dated 25.11.21 which read,

"Good afternoon,
We wish to serve Notice of Intent to cut back 2 lime trees which are bearing onto the garage roof causing damage and to fell a 60 foot cherry tree to rear of property which is too close to the property and adjacent to the main drain. Also to remove self-seeded young trees and saplings adjacent to front entrance causing a security problem, all at the above property."

I now attach a sketch of the proposed works as requested by Mr Kelsey.
