

The Trilogy Travel Plan

Travel Plan Coordinator: Eric-Olivier Kowac & Sheridan Douglas (Residential Service Advisors)

The Trilogy Main entrance is located on Ellesmere Street, which is one-way within the vicinity of the site in the southbound direction. A designated on-street cycle lane is provided on the western side of the road, marked for cyclists travelling in the northbound direction. Footways and street lighting are provided on both sides. The road serves a number of local amenities, commercial and residential units.

Travel Plans for residents/Travel Information Leaflet

The Trilogy is located a three minute walk away from *Cornbrook Metrolink station*, an interchange station connecting residents to all tram routes within the city, and surrounding zones of Greater Manchester. The City Centre is also within 25-minute walking distance, greatly diminishing the need for a car. With the target demographic being young professionals, we hope to promote an environmentally friendly, modern way of living that reduces the need for car ownership; if not an option, we hope to create a community where residents engage and work together to lower car use.

Please find information on all of Manchester's available transport methods:

Buses & Free Bus

The Trilogy is conveniently located within walking distance of all major bus & metro links, far reaching to the outskirts of Greater Manchester.

The nearest bus stops are located on the A56 Chester Road, 250m from The Trilogy immediately to the east of the Chester Road/Hulme Hall Road priority junction. There are continuous footways linking the site to the stop, which operates the **84**, **255** and **X50** Services.

Manchester is also the first city to offer free buses that interlinks all main routes within the City Centre. This economic and cost efficient alternative offers our residents free inner city transport (see route map below) across two routes whilst operating some of the most innovative and environmentally friendly bus models on the market to date.

The buses run from 6:30am to 10:00pm Monday to Saturday, with the closest stop to the Trilogy being Deansgate on route two.

Visual announcements relating to various aspects of the journey are displayed and audio described on interactive boards.

Peak only
Monday to Friday:
6:30 – 9:10am
and 4 – 6:30pm

① ② Two routes around the city

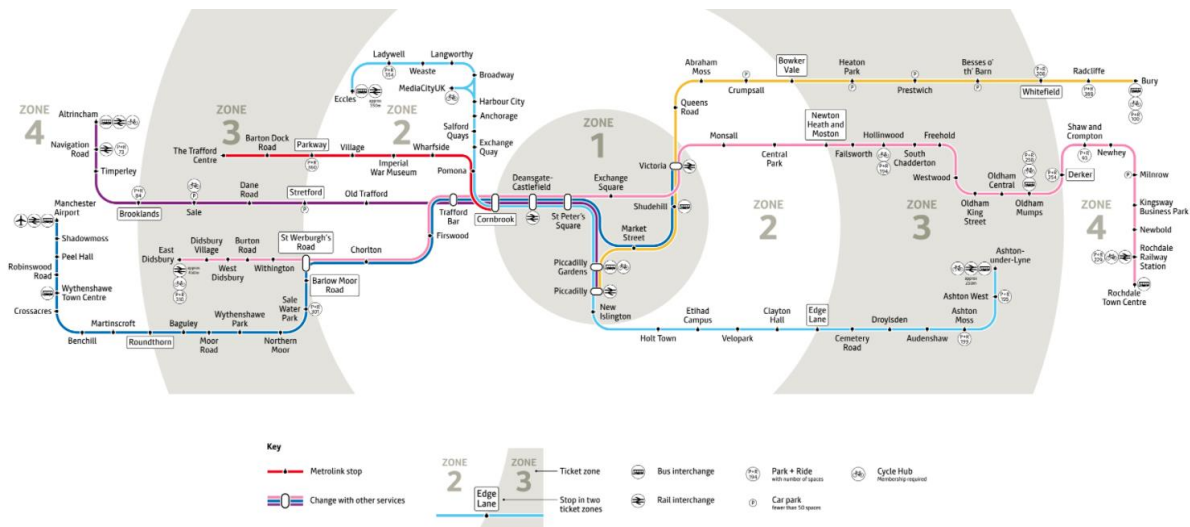

Running until 10pm Mon to Sat

Every 10 minutes
(every 15 minutes after 6:30pm
and every 12 minutes on Sundays
and public holidays)

Metrolink

Cornbrook Metrolink Station is the nearest station to the site located approximately 350m (6-minute walk) to the west of the, site off Cornbrook Road. The Station connects every metro link in Manchester and Greater Manchester with the exception of the Blue Line (Bury to Etihad Campus).

Private hire Taxi

Although we are aware Uber is the taxi firm of choice, should that ever fail, we have collaborated with both *Street Cars Manchester* & *New Moon Taxis*, who can be used by residents to order a taxi directly from the entrance, their card and numbers can be found at The Reception. There will be a designated lay-by on the Ellesmere Street entrance of the building, which will be used for drop-off and pickups, to ensure the safety of residents, giving them the option of waiting inside the lobby until their taxi arrives.

Trains

If you commute to work outside of Manchester or you enjoy a city break on weekends, you will be pleased to know you're nearest station is Deansgate, conveniently located approximately 1.7km to the east of the site on Whitworth Street West. The Station provides services to Liverpool, Preston, Southport, and other local destinations. National routes are available through connections from local stations, namely Manchester Piccadilly, Victoria and Oxford road station. The journey time from Manchester Piccadilly to London is just over two hours. Both Piccadilly and Victoria can be reached directly from Cornbrook Metrolink station in under twelve minutes. Railcards are available to purchase online or at any station with an information desk. You can benefit from saving up to a third of your railway cost on each journey and in addition to the 16-25 railcards there is also a new scheme for 26-30 railcards to make commutes more affordable.

Walking and Cycling

The site benefits from good pedestrian and cycle links. The majority of local roads are well-lit and have a maximum speed restriction of 30mph. Cycle lanes are available on both Ellesmere Street and Chester Road. The majority of pedestrian crossing points have dropped kerbs with tactile paving.

The Trilogy has 232 individual bike slots located in the secure basement car park which equates to one slot per apartment. We as a community will be promoting cycling by creating a community group who can communicate with each other to arrange organised cycles around the city, which will help the resident health and wellbeing.

Due to the recent Coronavirus outbreak, and the need for us all to stay within safe distance of one another and reduce our personal carbon footprint, cycling has seen a tremendous increase as more and more people are opting for this as their preferred mode of transportation.

The *Bridgewater Way* (pictured above) is one of 10 cycle ways in and around Manchester (ranging from one to 16 miles). For additional maps, please click [here](#) to access the TFGM website.

Car Sharing

We understand you may still need or even just want your own car, which is why The Trilogy has 75 secure car parking spaces which are available to residents for an additional monthly charge. The Car Park is on basement level and the entrance is located on Ellesmere Street with secured access. There will also be a permit issued to all residents that have purchased a space which will be monitored by our on site management team.

As residents of the trilogy you are surrounded by a large varied group of individuals and neighbours which is why we would encourage you to explore car sharing options via the bulletin board on your Trilogy Manchester App. We have a large demographic of residents who have moved here from neighbouring cities so this is a great opportunity to meet your neighbours and split travel expenses I.E petrol or parking costs. If you are interested in car sharing whether you're the car owner or the commuter please don't hesitate to utilise your Trilogy App to communicate to one and other. This will be organised amongst yourselves and will not be the responsibility of the trilogy staff to set up, implement or enforce.

**Note: This option must be voluntarily offered by the resident willing to host a car share opportunity and mutually agreed between all parties involved. Any exchange of monies will be at the discretion and agreement of the residents involved and will not be determined by The Trilogy team. Car sharing times or opportunities will not be for the team at The Trilogy to enforce or hold anyone accountable to. It will be solely on the resident at their discretion to decide as to who/when they accept. No responsibility or obligation will be held by either the resident or The Trilogy team and can be discontinued by the resident at any given time without consequence or reason.*
