comment:**

Comments:

I am sending this email in response to a planning application made for 77 Averill Street, application no 128901/FU/2020. this house is to be converted into a house of multiple occupancy (5 bedroomed house with installation of roof lights).

[REDACTED] I was

shocked to learn that 77 Averill street is being made into a house of multi-occupancy. i am also unhappy about the fact that a person who doest even live in the area can consider this. There is a very high demand for family homes in the area and feel that a family home for the address will have a negative impact on the supply of family homes where there is a high demand. There will be increased levels of activity (what kind of people will the rooms be rented out to?). there will be increased levels of noise, this is a quiet neighbourhood. There Will be a lot of problems with waste where there are already problems with people dumping rubbish which will create a problem with rats in the area which I have a problem with this due to dumping of rubbish on a regular basis.

There is also a big problem with parking on the street and who knows where we will park our car if the planning for no 77 gets accepted. i feel that this will have a detrimental impact of the residents in the area and i feel that the proposal will have a negative impact on the social and environmental conditions of the area'

There are also roof lights being put on the property, don't understand why this needs to be done [REDACTED]

[REDACTED] no 77 Averill Street is already adequately lit by a street lamp and

I hope you give this planning application a very careful consideration as I feel that this would have a very negative impact on our family life and our house and community and therefore object to the planning of the multi-occupancy house.
