Description of site/building

The property that is the subject of this application is a large detached property identified as 27 Netherwood Road in the Northenden ward of the City. It has a driveway to the frontage and a landscaped garden which forms the setting for the property. both the vehicular and pedestrian access is taken off Netherwood Road.

The garden to the rear is large, and the property itself currently has a conservatory and a single storey extension on the south eastern elevation. Both these are to be demolished to facilitate the proposed single storey extension.

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

Description of area

The area is predominantly residential and is in close proximity to Northenden District Centre.

Description of development

The proposal is for the erection of a single storey rear extension that would occupy the full width of the property. It would have a flat roof which would sit lower than both the existing conservatory and outrigger roof line and give a contemporary addition. It would have a central glazed lantern feature. The proposed extension would project 5 metres from the rear of the property. and would provide additional accommodation in the form of an open plan kitchen and dining room. There would be 2 sets of windows on the rear, with a set of bi fold doors that would open out over the applicants' own garden.

Consultations & Notification Responses

Local Residents -were informed no representations have been received.

Issues

Policy and Issues

The following policies are considered relevant in the consideration of this application.

- o Unitary Development Plan (UDP) - The UDP has been superseded by the Core Strategy Development Plan.
- o Policy DC1 for Residential Extensions is still considered of relevance, in particular policy DC1.5 - The Council will consider on their merits exemptions to the above policies in the case of applications from disabled people who may require particular adaptations to their homes.
- o The Manchester Core Strategy Development Plan Document 2012-2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012.
- o Policy DM 1 - Development Management
- o Policy SP1 - Spatial Principles
- o Policy EN1 - Design Principles
- o Policy EN 19 - Waste Management
- o The National Planning Policy Framework (NPPF)

For reasons to be outlined below, it is considered the proposal accords with the principles of this policy document.

Principle

The principle of allowing residents to extend their homes to provide enlarged or improved accommodation is generally acceptable provided that there is no overriding, undue impact upon either the character of the property or upon the residential and visual amenity of nearby residential occupiers.

In this instance the principle of the proposal is considered acceptable and it is not believed that there are any factors of sufficient weight in amenity terms that would warrant refusal of the application.

On balance, the proposed extension is deemed to accord with saved policy DC1 of the UDP and policies DM1 and SP1 of the Manchester Core Strategy.

History

There are two previous planning application relating to this site as follows:

Planning reference number 113750/FH/2016 - for Erection of a single storey side and rear extension to form additional living accommodation. This application was approved on 19th October 2016

Planning reference number 127121/FH/2020 for the erection of a single storey side and rear extension to form additional living accommodation. This application was approved on 17th August 2020

Residential Amenity

The application seeks to introduce a contemporary single storey rear extension to the property to provide additional living accommodation.

The site comprises of a two storey detached property bounded by similar type houses with good sized front and rear gardens. The property sits within its own plot with a larger than average rear garden. It has the benefit of tall established boundary hedges to both sides of the property. Due to these boundary treatments the proposed extension would only be visible from the first floor of the neighbouring properties.

The applicant proposes to project off the rear wall by 5.0m extending across the rear wall of the house taking the proposed extension no closer to the neighbouring properties than the existing footprint of the host property.

The roof of the extension would be a flat roof with the addition of a raised roof light. Bifold doors and 2 windows are proposed on the rear. No windows are proposed on the side. Whilst the rearward projection is 5 metres there have been no objections to the proposal, and the footprint is less than could be constructed under the larger homes extension. Given the proportions of the proposed extension when viewed against built form to garden area it is considered an acceptable and proportionate addition to the property. There is no issue with regards to overlooking, or loss of light given the reduced height, lack of windows in the side elevations, and the dense established hedge.

Given the size of the rear garden there is sufficient private amenity space be retained in the front and rear garden area.

Overall, it is considered that the proposal would not conflict with UDP saved policy DC1 for residential extensions and Core Strategy policies SP1 and DM1.

Scale and Massing

The height and the location of the extension has been sited and designed to ensure that it retains subservience to the original dwelling house, is not excessively large or bulky and is therefore considered to accord with the principles for residential extensions set out in saved UDP policy DC1 and DM1 of the Core Strategy.

Design and Appearance

The application proposes a design that fits the aesthetic of the original dwelling utilising the space available at the rear of the property. It is proposed that where possible materials shall match the existing dwelling house with bricks and roof tiles. A materials condition has been attached to ensure that the materials are adhered to as stated in the application forms.

For the reasons stated above it is considered that the extension would be in keeping with the character of the original dwelling.

Car Parking

The retention of a car parking would still be available on the existing front driveway.

Disabled access

Not affected by this proposal

Bins

There is still sufficient space to the side of the property for the movement of refuse bins for collection.

Conclusion

The proposal would not be visible from the public highway and therefore would not be a feature within the street scene. The proposal has been sited and designed to ensure that it is in keeping with the existing property and is considered acceptable in this location, in terms of design, scale and massing, allowing the occupiers to adapt their home to meet their needs, without unduly detrimentally affecting the amenities of the occupiers of surrounding properties, or the character and appearance of the surrounding street scene is acceptable and there are no material considerations of sufficient weight to indicate otherwise.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Positive and proactive working - Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. No significant problems have arisen during the consideration of this application.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

PL01- Location Plan

PL02- Existing and Proposed Floor Plan

PL03- Existing and Proposed Rear Elevations

PL04 -Existing and Proposed Side Elevations

All received 31st August 2021

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy.

3) The materials to be used on the external surfaces hereby permitted shall match those as specified on the application form/drawings in type, size, colour and texture.

Reason - To ensure the appearance of the building to be extended is not adversely affected by the materials to be used in the construction of the structure, pursuant to policy DM1 of the Manchester Core Strategy.

4) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Order with or without modification) no windows or doors shall be inserted into the elevations of the extension hereby approved other than those shown on the approved plans.

Reason - In the interests of residential amenity pursuant to saved policies DC1 of the Unitary Development Plan for the City of Manchester and Policy DM1 and SP1 of Manchester's Local Development Framework: The Manchester Core Strategy policy SP1 and DM1 Core Strategy for the City of Manchester.
