Job No J326108

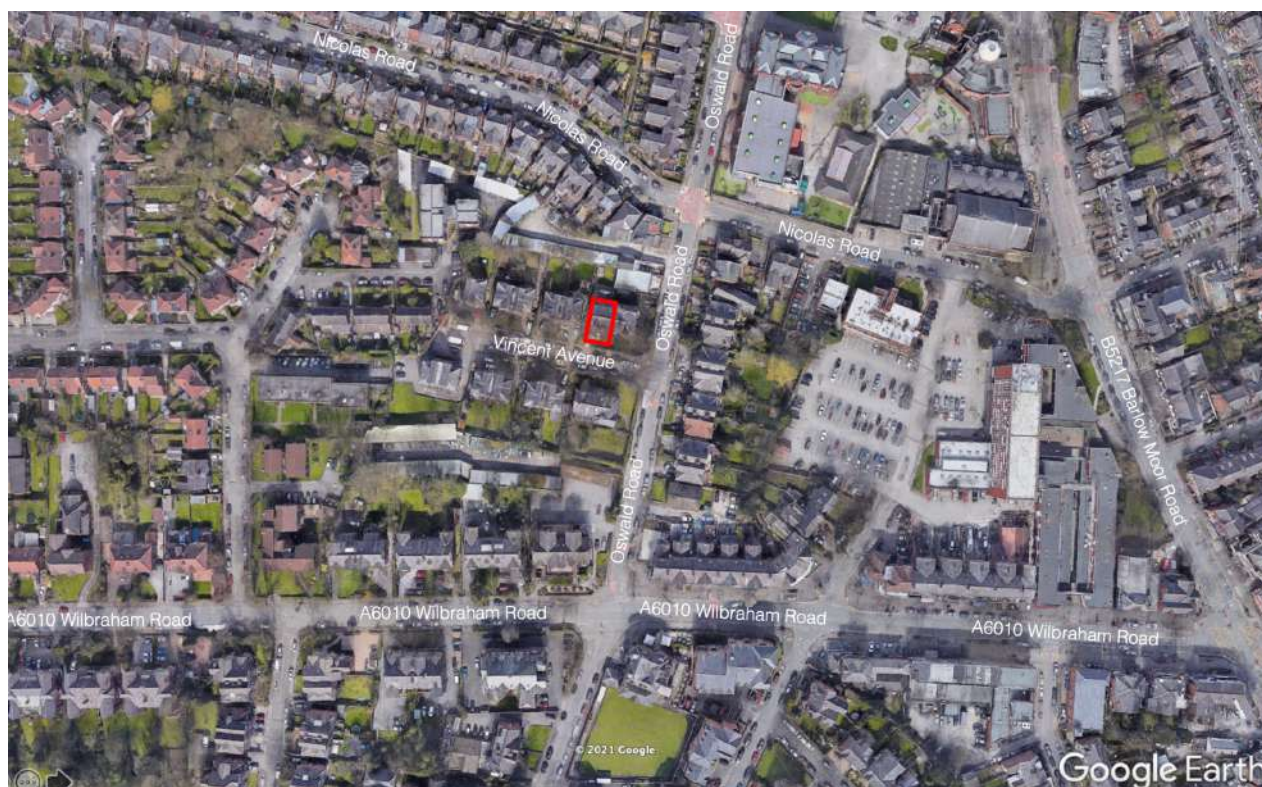

Approved by: ME

1. Introduction

1.1.1 Mode Transport Planning ('Mode') has been appointed by Appledale Croft Ltd (the 'Applicant') to provide transport planning and highways advice in relation to a residential development at 2 Vincent Avenue in Chorlton, Manchester (hereinafter referred to as the 'Site').

1.1.2 The site location is shown in [Figure 1.1](#).

Figure 1.1 : Site Location (source: Google Earth)

- 1.1.3 The property currently comprises 6no. flats. The development proposals will convert the basement to create a further 2-bedroom flat and extend an existing ground floor studio to create a 2-bedroom duplex. In total the property will provide 7no. flats including an enlarged existing flat. The proposals do not include any additional off-street car parking provision. The proposed site layout plans are attached in [Appendix A](#).
- 1.1.4 This note has been prepared to assess the development proposals, with particular consideration to the car parking provision and on-street parking availability, expected trip generation and accessibility by sustainable modes of travel.

2. Existing Conditions

2.1 Local Highway Network

Vincent Avenue

- 2.1.1 The site is located on Vincent Avenue, a residential cul-de-sac providing direct highway access to 13no. residential units, all of which benefit from off-street parking on private driveways. From observations on site, it appears that a number of the existing units have been separated into individual flats or operate as houses of multiple occupancy (HMO).
- 2.1.2 Vincent Avenue consists of a c.6m wide two-way single carriageway, with c.2.0m wide footways on both sides of the road. On-street parking is available along sections of Vincent Avenue which reduces the running lane width to c.2.6m. Vincent Avenue is subject to a 20mph speed limit and benefits from the presence of street lighting columns.
- 2.1.3 Dropped kerbs are present intermittently along Vincent Avenue across the accesses to each residential unit. These are protected by H-Bar markings to prevent on-street parking from blocking driveways.
- 2.1.4 From the site access, Vincent Avenue continues for c.30m to the east before forming the minor arm of a priority junction with Oswald Road. The junction is protected by double yellow line waiting restrictions.

Oswald Road

- 2.1.5 Oswald Road consists of a c.7m wide two-way single carriageway, with c.2.5m wide footways on both sides of the road. On-street parking is available along sections of Oswald Road which reduces the running lane width to c.2.7m wide. Oswald Road is subject to a 20mph speed limit and benefits from the presence of street lighting columns.

- 2.1.6 To the north of Vincent Avenue, Oswald Road continues for c.80m before forming a 4-arm priority junction with Nicolas Road. This section of Oswald Road predominantly serves residential properties, with the exception of Oswald Road Primary School, located c.20m north of its junction with Nicolas Street.
- 2.1.7 To the south of Vincent Avenue, Oswald Road continues for c.90m before forming the minor arm of a priority junction with Wilbraham Road (A6010). The junction is protected by double yellow line waiting restrictions. This section of Oswald Road predominantly serves residential properties, with the exception of the Spread Eagle pub, accessed via Oswald Street which is c.30m north of its junction with Wilbraham Road.
- 2.1.8 The majority of properties accessed of Oswald Street are served by off-street parking; however, unrestricted on-street parking is provided intermittently along the route.
- 2.1.9 To prevent on-street parking across accesses residential units, dropped kerbs are protected by H-Bar road markings.

Wilbraham Road (A6010)

- 2.1.10 Wilbraham Road is the primary route through Chorlton's local centre. A range of high-street amenities benefit from direct frontage onto Wilbraham Road which also provides signalised pedestrian crossings and bus stop waiting facilities.
- 2.1.11 Wilbraham Road has a carriageway width of c.9m, providing one lane in each direction, and is subject to a 30mph speed limit. Footways with widths exceeding 2m are located on either side of Wilbraham Road and the road is well illuminated by a network of street lighting columns. The pedestrian network is of a good quality, providing access for all users and accounting for varying levels and types of disability, including visual impairment.
- 2.1.12 On-street parking on Wilbraham Road is prohibited except in designated bays and is delineated through a combination of double yellow line and zig-zag road markings.

3. Sustainable Accessibility

3.1 Introduction

- 3.1.1 Current Government policy and guidance places significant emphasis on the promotion of sustainable transport modes for all new developments. This forms part of a long-term strategy to reduce the reliance on private car trips.

3.1.2 The National Planning Policy Framework (NPPF), published in July 2021, sets out the Government's planning policies for England and how these are expected to be applied. Chapter 9 of the NPPF, '*Promoting Sustainable Transport*', sets out the important role that transport issues and policies have in facilitating sustainable development.

3.1.3 Paragraph 105 states that: "*Significant development should be focused on locations which are or can be made sustainable, through limiting the need to travel and offering a genuine choice of transport modes. This can help to reduce congestion and emissions and improve air quality and public health. However, opportunities to maximise sustainable transport solutions will vary between urban and rural areas, and this should be considered in both plan-making and decision-making.*"

3.1.4 The subsequent sub-sections consider accessibility via sustainable modes of transport to the proposed development site, including access by public transport, cycle and on foot.

3.2 Walking

3.2.1 Guideline walking distances provided in the Chartered Institution of Highways and Transportation (CIHT) document '*Guidelines for Providing for Journeys on Foot (2000)*', are shown in [Table 3.1](#).

Table 3.1 : CIHT Acceptable Walking Distances

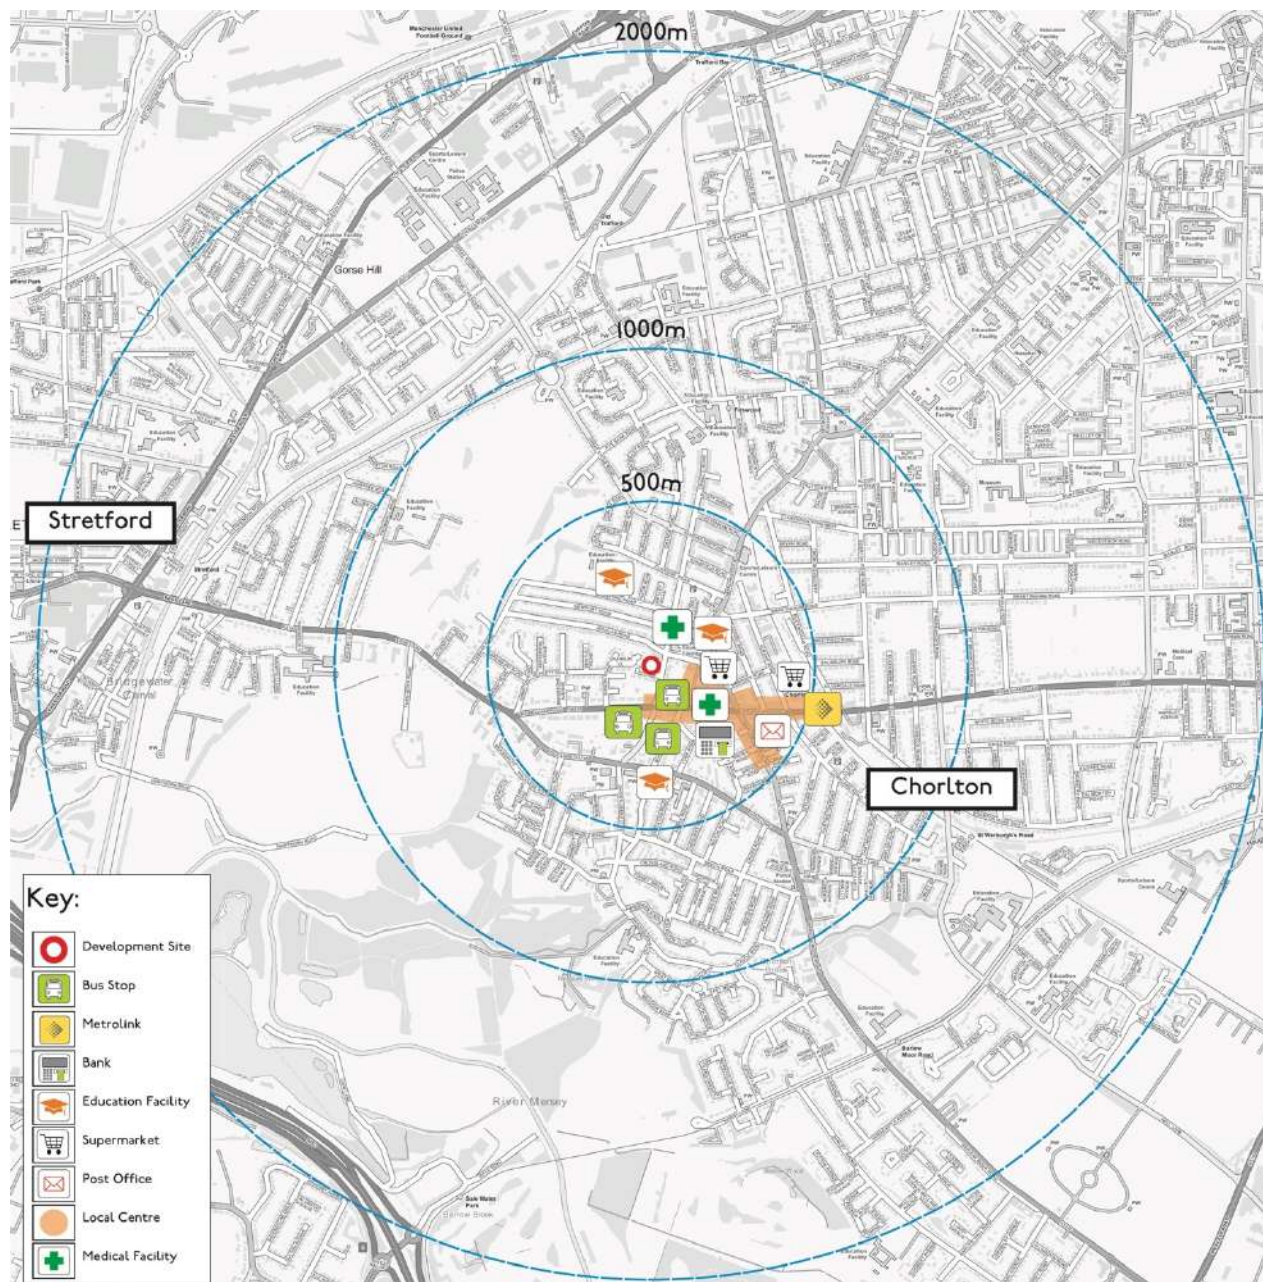

Criteria	Town Centre	Commuting	Elsewhere
Desirable	200m	500m	400m
Acceptable	400m	1,000m	800m
Preferred Maximum	800m	2,000m	1,200m

3.2.2 The CIHT guidelines shown in [Table 3.1](#) suggest that for commuting purposes up to 500m is a desirable walking distance, up to 1,000m is considered an acceptable walking distance and 2,000m is the preferred maximum walking distance.

3.2.3 Appropriate walking distances are dependent upon the location of a specific development. As described previously in this note, this site is located on Vincent Avenue and connects with existing footways on the local highway network. The network of footways provide access to a range of local amenities along Wilbraham Road, as well as other amenities and public transport provision within a short walk of the site.

3.2.4 As shown in [Figure 3.1](#) there are a wide variety of local amenities located within 500m, 1,000m and 2,000m walking catchments from the site.

Figure 3.1 : Walking Catchment Area and Local Amenities

3.2.5 Table 3.2 provides an indication of the distances and approximate walking times to public transport connections and other local amenities. The distances have been measured from the site access; the times are based on an average walking speed of 1.4 metres per second and do not allow for waiting time to cross junctions.

Table 3.2 : Local Amenities and Walking Distances

Amenity	Distance (m)	Average Walking Time
Spread Eagle Pub	80m	1 minute
Oswald Road Primary School	140m	<2 minutes
Wilbraham Road Bus Stop (WB)	180m	2 minutes
Wilbraham Road Bus Stop (EB)	200m	2 minutes
Pharmacy	260m	3 minutes
Local Centre (shops/takeaways/restaurants)	300m	4 minutes
Morrison's Supermarket	600m	7 minutes
Chorlton Metrolink Station	600m	7 minutes

3.2.6 Table 3.2 shows that there are bus stops, a primary school, a pub, pharmacy and a range of other high street amenities located within 300m (<4-minute walk) of the site.

3.2.7 In addition, there is a Metrolink station c.600m (<7-minute walk) from the site which provides sustainable transport access to locations across Manchester.

3.2.8 Based on the site's location, proximity to local public transport services and easy access to a wide range of local amenities, walking can be considered to be a realistic method of travel for commuting, shopping and leisure trips.

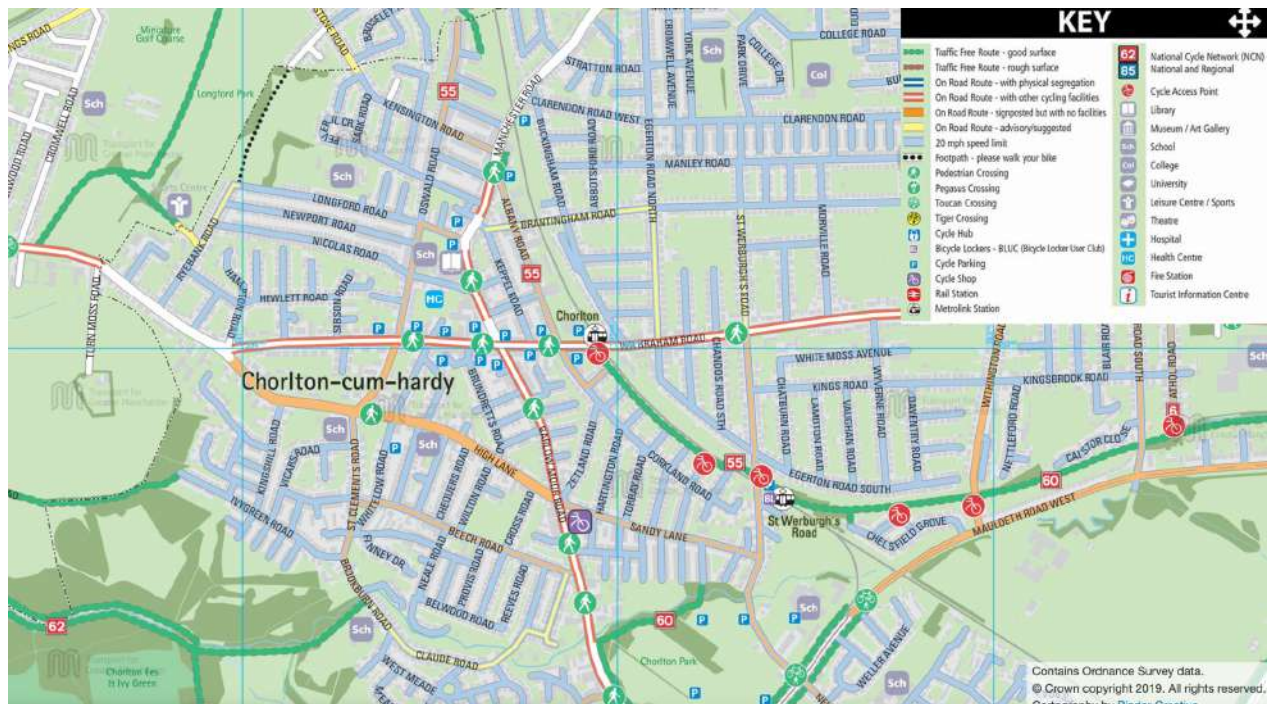

3.3 Cycling

3.3.1 As with pedestrian accessibility, the level of a site's cycle accessibility depends upon a combination of the distance from local amenities and the standard of existing cycle infrastructure. It should, however, be noted that that cycle infrastructure can include facilities shared with vehicles and pedestrians, as well as dedicated cycle infrastructure.

3.3.2 In respect of acceptable cycle distances, 'Local Transport Note 1/20: Cycle Infrastructure Design', published by Department for Transport (DfT), states that *'two out of every three personal trips are less than five miles in length - which is an achievable distance to cycle for most people'*.

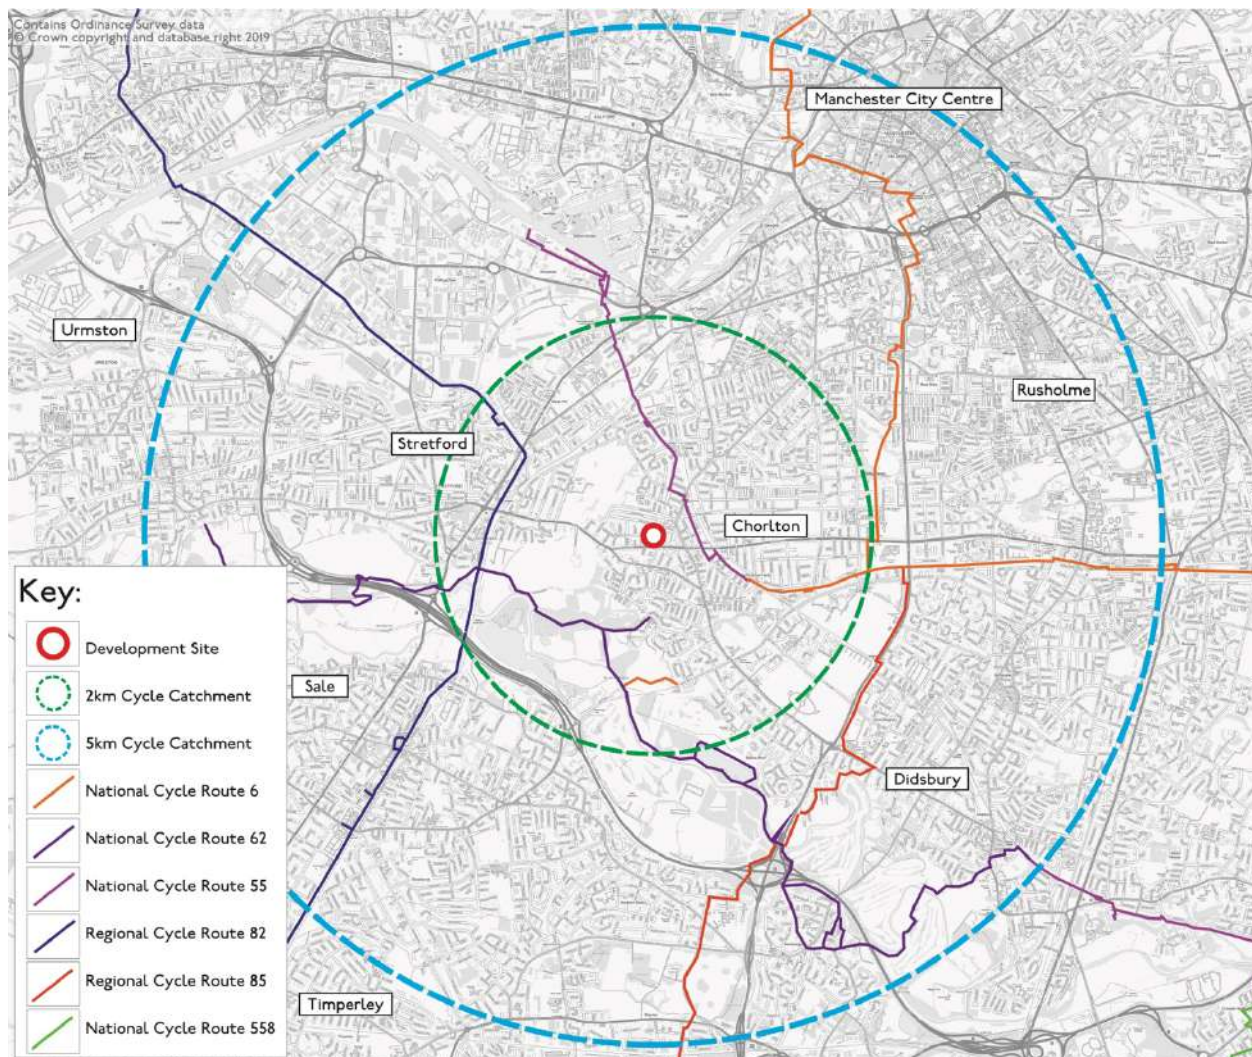

3.3.3 As shown in Figure 3.2, there are a number of national / local cycle routes and infrastructure in the vicinity of the site, including traffic-free routes, advisory cycle routes, on-road routes, cycle parking infrastructure and several access points to the cycle network.

Figure 3.2 : Local Cycle Routes and Infrastructure (source: TfGM)

3.3.4 Strategically, the site is located within accessible cycling distances of several National Cycle Network (NCN) Routes, as shown in Figure 3.3.

Figure 3.3 : Cycle Catchment Area

- 3.3.5 Access to NCN Routes 6, 55, 62, 82 and 85 are all accessible within a 2km catchment of the site. These NCN Routes provide access to Sale, Didsbury and areas of Rusholme within a 5km cycle catchment of the site. Notably, NCN Route 6 is accessed to the east of the site and provides a dedicated cycling connection directly between Chorlton and Manchester City Centre.
- 3.3.6 Access to good quality local cycle infrastructure will encourage cycling for commuting, as well as leisure purposes.

3.4 Public Transport

- 3.4.1 The development site is located within 180m (< 3-minute walk) of the bus stops along Wilbraham Road. Both bus stops provide access to regular high-frequency services to a wide range of local and regional destinations. Additionally, the site is located c.420m (5-minute walk) from further services accessed from stops along Barlow Moor Road.

3.4.2 **Table 3.3** provides a summary of routes and times of local bus services accessible from Wilbraham Road. Full timetables are attached in **Appendix B**.

Table 3.3 : Local Bus Services – Wilbraham Road

Service No.	Route	Approximate Two-Way Frequency				
		AM	Off-Peak	PM	Sat	Sun
23	Trafford Centre / Media City - Stockport	15 mins	15 mins	15 mins	30 mins	30 mins
25	Trafford Centre - Stockport	30mins	30mins	30mins	30 mins	30 mins
85/85A/86	Chorlton - Manchester	5 mins	5 mins	5 mins	10 mins	15 mins
150	Gorton – Trafford Centre	30 mins	30 mins	30 mins	30 mins	60 mins

3.4.3 As summarised in **Table 3.3**, regular bus services are available from bus stops located within a short walk of the site, including high-frequency weekday and weekend services to key destinations such as Manchester City Centre, The Trafford Centre, Media City, Stockport and Gorton.

3.4.4 In addition to bus services, the site is located within 600m (7-minute walk) of Chorlton Metrolink Station. **Table 3.4** provides a summary of Metrolink rail services accessible this station.

Table 3.4 : Metrolink Services – Chorlton Metrolink Station

Service No.	Route	Approximate Two-Way Frequency (buses / hour)			
		Mon-Fri (AM/PM peak)	Mon-Fri (off-peak)	Sat	Sun
Pink Line	Rochdale Town Centre – East Didsbury	10 mins	10 mins	10 mins	15 mins
Navy Line	Manchester Victoria – Manchester Airport	10 mins	10 mins	10 mins	15 mins

3.4.5 **Table 3.4** confirms that there are Metrolink services accessible from Chorlton Metrolink Station, including direct services to Manchester Victoria, Manchester Airport, Rochdale and East Didsbury. This will enable residents of the proposed development to utilise the Metrolink for both commuting and leisure purposes providing a viable alternative to single occupancy car journeys.

3.5 Summary

- 3.5.1 Overall, it has been shown that the site benefits for excellent levels of accessibility by sustainable modes of travel, including walking, cycling and public transport.
- 3.5.2 The site is located within walking distances of well-established integrated transport systems, offering residents multi-modal access to locations across Manchester – thereby offering a realistic alternative to car trips.

4. Car Parking and Travel Behaviour

4.1 Manchester City Council Parking Standards

- 4.1.1 The Manchester Residential Quality Guide states that *'Outside of the City Centre... new apartment development will be expected to provide 100% parking provision as a starting point.... Reduced on-site parking provision may be justified on the basis of...Secure cycle parking provision in excess of 50% provision relative to apartment numbers....Provision of robust research and market evidence to demonstrate that lower levels of car parking demand will be appropriate for a particular scheme.'*
- 4.1.2 The residential development proposals do not include any additional on-site car parking provision. As such any increase in parking demand would need to be accommodated on-street on the immediate highway or within a short walking distance.

4.2 Household Car Availability

- 4.2.1 Evidence to support the lack of increase in off-street parking provision has been derived by analysing car availability data from the 2011 Census for flats / apartments within the 'Chorlton' Ward (E05000695).
- 4.2.2 Household car availability data has been derived from the 2011 Census for the 'Chorlton Ward', which is an area that includes the development site. This data includes both rented and owner-occupied accommodation. The ward area has been selected, rather than the Middle Super Output Area (MSOA), as the car availability data is broken down by accommodation type (i.e. houses and flats).
- 4.2.3 The car availability data for flats in the 'Chorlton' ward is summarised in [Table 4.1](#).

Table 4.1 : Household Car or Van Availability

Accommodation Type	Households	No Car or Van	1 Car or Van	2+ Cars or Vans
Flats and Apartments (Households)	2,237	1,027 (46%)	946 (42%)	264 (12%)

4.2.4 Table 4.1 shows that, in total, 46% of flats / apartments in the ward have no access to a car or van, 54% have access to at one car or van and 12% have access to two or more cars or vans.

4.2.5 To estimate the number of cars (parking demand) associated with the existing and proposed development, the number of households for each scenario have have been multiplied by the proportions shown in Table 4.1. The results are shown below in Table 4.2.

Table 4.2 : Car or Van Availability – Existing and Proposed

Accommodation Type	Households	No Car or Van	1 Car or Van	2+ Cars or Vans	Total Cars
Flats and Apartments Existing	6	3 (0 cars)	2 (2 cars)	1 (2 cars)	4 cars
Flats and Apartments Proposed	7	3 (0 cars)	3 (3 cars)	1 (2 cars)	5 cars

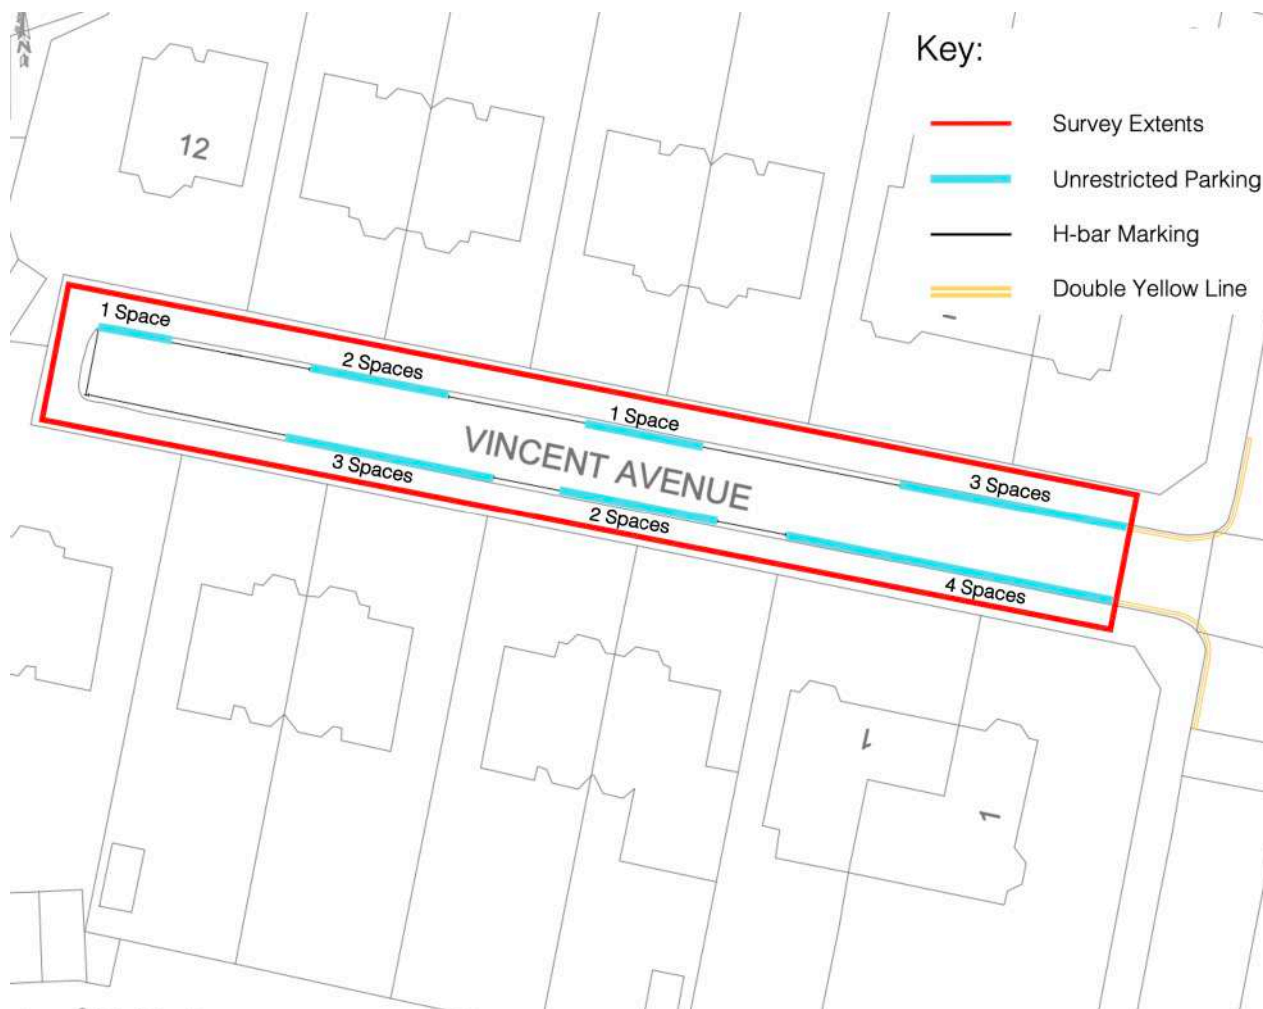

4.2.6 As shown in Table 4.2, the proposed development is expected to generate an increase in car parking demand of 1no. car or van. As no additional off-street parking is proposed, the additional demand is expected to be accommodated on-street on the immediate highway (Vincent Avenue).

4.3 Parking Survey

4.3.1 As no additional on-site car parking is proposed, a parking survey has been undertaken on Vincent Avenue to determine the availability of on-street parking.

4.3.2 Figure 4.1 presents the extents of the parking survey, as well as an indication of the availability and location of on-street parking. These estimates are conservative, ensuring that parking does not block junctions or driveways and limits the impact of parking on the highway network. It has been assumed that c.5m provides 1no. on-street parking space.

Figure 4.1 : Survey Area – Vincent Avenue

- 4.3.3 The parking survey was undertaken on Tuesday 14th September in the AM Peak (7:00-09:00) and PM peak (18:00-20:00). The survey started before the typical AM peak and extended after the typical PM peak in order to assess times when local residents are likely to be home from work and demand for parking is at its highest.
- 4.3.4 The parking survey covered all areas of parking along Vincent Avenue. Supplementary photographs to support the results of the parking survey are attached in [Appendix C](#).
- 4.3.5 The results of the survey also noted the availability of on-street parking along Oswald Road which bounds the western site boundary. However, for the purposes of this assessment and for robustness, it has been assumed that these spaces are unavailable. On this basis, [Table 4.3](#), and [Table 4.4](#) present a summary of the AM and PM survey results and remaining parking availability along Vincent Avenue.

Table 4.3 : Weekday AM (07:00 to 09:00) Parking Survey Summary – Vincent Avenue

Location	Time Period				
	07:00	07:30	08:00	08:30	09:00
Vincent Avenue Occupancy	9	10	11	14	12
Vincent Avenue Capacity	16	16	16	16	16
Available spaces	7	6	5	2	4

4.3.6 In the AM peak, as shown in [Table 4.3](#), the results of the parking survey demonstrate that there will typically be in the region of **4 to 7 spaces** available in unrestricted areas along Vincent Avenue. Unrestricted on-street parking was also available along the adjacent Oswald Road between 0700 and 0800.

4.3.7 As a worst-case, there will only be 2 spaces available for a short period of time. This occurred between 0830 and 0900 when parking capacity was limited along Oswald Road during the school drop-off period. This resulted in parents utilising the available on-street parking along Vincent Street for a short period of time. Typically, residents driving to work would have already left by this time and those who haven't would already occupy a parking space. Therefore, they would be unaffected by school parking demand

Table 4.4 : Weekday PM (18:00 to 20:00) Parking Survey Summary – Vincent Avenue

Location	Time Period				
	18:00	18:30	19:00	19:30	20:00
Vincent Avenue Occupancy	8	8	8	7	7
Vincent Avenue Capacity	16	16	16	16	16
Available spaces	8	8	8	9	9

4.3.8 In the PM peak, as shown in [Table 4.4](#), the results of the parking survey demonstrate that there will typically be in the region of **8 to 9 spaces** available in unrestricted areas along Vincent Avenue. Unrestricted on-street parking was also available along the adjacent Oswald Road during this period.

4.3.9 As highlighted previously, the proposed expansion to the existing residential development, which is currently occupied, would typically utilise a maximum of one additional on-street parking space, therefore, the results of the parking survey show that there would be adequate existing on-street parking provision available on Vincent Avenue to accommodate the additional parking demand, including any demand generated by visitors.

5. Summary and Conclusion

5.1 Summary

- 5.1.1 This Transport Note has been prepared by Mode Transport Planning to consider transport planning and highways matters in relation to a residential development at 2 Vincent Avenue in Chorlton, Manchester.
- 5.1.2 The property currently comprises 6no. flats. The development proposals will convert the basement to create a further 2-bedroom flat and extend an existing ground floor studio to create a 2-bedroom duplex. In total the property will provide 7no. flats including an enlarged existing flat. The proposals do not include any additional off-street car parking provision.
- 5.1.3 This note has been prepared in accordance with current policy, guidance and best practice. The results of the analysis in this note demonstrates that:
- The site has direct access onto a good quality footway network, which provide safe walking routes to local amenities and public transport connections;
 - This site is accessible by a range of sustainable modes of transport, including buses, Metrolink services and cycle routes which can be accessed within an acceptable walking distance of the site. The site can therefore be deemed sustainable in transport and highways terms and is in accordance with the NPPF;
 - Analysis of *'Car / Van Availability by Accommodation Type'* 2011 census data for the 'Chorlton' ward indicates that the proposed development is expected to increase demand for on-street parking along Vincent Avenue by 1no. car or van; and
 - The AM and PM peak parking surveys confirm that there would be adequate existing on-street parking provision available on Vincent Avenue to accommodate the expected parking demand.

5.2 Conclusion

- 5.2.1 In conclusion, based on the evidence and analysis presented in this note, there should be no highways or transportation reasons that prevent this planning application from being approved.

Stagecoach

Additional information

Alternative format

To ask for leaflets to be sent to you, or to request large print, Braille or recorded information phone 0161 244 1000 or visit www.tfgm.com

Easy access on buses

Journeys run with low floor buses have no steps at the entrance, making getting on and off easier. Where shown, low floor buses have a ramp for access and a dedicated space for wheelchairs and pushchairs inside the bus. The bus operator will always try to provide easy access services where these services are scheduled to run.

Using this timetable

Timetables show the direction of travel, bus numbers and the days of the week. Main stops on the route are listed on the left. Where no time is shown against a particular stop, the bus does not stop there on that journey. Check any letters which are shown in the timetable against the key at the bottom of the page.

Where to find information about service changes

www.tfgm.com

Bus station posters

Leaflets from outlets.

Tickets and information

Bus companies offer a range of tickets for use on their own buses. For travel on any service in the County, use System One tickets, including DaySaver. Travelshops provide tickets, information and journey planning advice on buses, trains and trams for work and pleasure.

Using the 24 hour clock

Times are shown in four figures. The first two are the hour and the last two are the minutes.

0753 is 53 minutes past 7am

1953 is 53 minutes past 7pm
