The angle of this folding arm awning can be adjusted, according to customer's habits and angle of sunshine in different season.

-Bigger roller, front bar and support arms, compared with normal type.

-Perfect for shading of windows and balcony doors.

-Full Stainless Aluminium frame and arm makes the awning more sturdy and uneasy to get rusted.

-With double steel cables in the center joint of arms makes it easier to project and retract..

-Side covers on the roller support makes your awning elegant looking.

-Great water resistance and UV protection.

-Retractable, can be opened as much or as little as you like up to the max projection.

-Comes with complete accessories, ready to be fitted.

-Easy to clean with sponge and cloth.

-Come with wall installed brackets and anchors.

-Two years manufacture warranty.
