To Whom It May Concern

I can confirm that during our works on your MMU Institute of Sport Project located at 99 Oxford Rd Manchester that none of the materials we excavated or removed had any contaminated or hazardous materials within it.

The materials we removed from site where in earth and as detailed within your ground investigation report **REF; 071722-CUR-00-XX-RP-GE-001. 11 February 2020**

I will arrange for our waste disposal tickets to be forwarded onto you next week, hope this will be ok.

Any queries please do not hesitate to give me a call.

Kind Regards

John Byrne
Managing Director
