Dear Katie

The advertisement will display static advertisements which are displayed in sequential rotation every 10 seconds. It is proposed that any consent would have operational conditions restricting the rate of change to once every 10 seconds and to prevent any form of motion in the advertisements displayed. We have proposed conditions to this effect in the covering letter. This would be in line with the appeal decision which was allowed in October 2020 for two digital panels on this site.

I trust that this is clear but if you have any further questions please do not hesitate to contact me.

Kind regards

Philip
