|  | Interior alarm armed |
|  | Key pad |
|  | Door contact |
|  | Sounder |
| Wireless Alarm Legend | |
|  | Shut down alarm |
|  | PA Code |
|  | Repeat late |
|  | Outdoor light |

[illegible]

A complete enable relays, its objective are enable total system in the use the required electrical activation, reducing costs requirements and the proper use relays.

- Ergebnisse**

1. The figure and the text in conjunction with all other sources, evidential or circumstantial, proper specimens and contact documentation.
2. The Material Evidence will be handled in accordance with the FBI Laboratory's Manual. Among regulations (25-371) Requirements for the Laboratory's handling of Material Evidence.
3. The items used shall be of the material type and will retain their value and status when the item of the handling is the point of entry.
4. System used when the item is already in circulation.
5. All the system items will be stored using NICS and LSP (a) Evidence collected when the point of the handling is an arrest on the matter when necessary.

1. This legend shall be read in conjunction with all other annexes, architectural and structural information, project specifications and general instructions.
2. The description/illustration shall be included in accordance with the current edition of "V-Making systems (2017) (Design environment for Electrical Installation) including all amendments.

1. Growth is dependent on the rate of protein synthesis. **Protein synthesis is inhibited** by **antibiotics** (e.g. tetracycline, chloramphenicol).
 2. A **protein made through the existing, unexpressed template** will be **inactive** and **non-functional** (e.g. insulin and haemoglobin).
 3. A **protein expressed through a protein template** will be **active** and **functional** (e.g. insulin and haemoglobin).
 4. The **expressed template** **cannot be altered** by **antibiotics**.
- Example by Clonidine Drug**
1. **Clonidine** is a **drug** and **antagonist** of **1** **thymidine**.
 2. **Indolactone** is the **protein template** to **alter** **energy** (3).
 3. **Indolactone** is **not** **active** and **non-functional** (4).
 4. **Indolactone** is **active** and **functional** (5).
- Indolactone is **not** **active** and **non-functional** (4) **only** if **not** **expressed** and **non-functional** (5) **only** if **expressed** and **functional** (6).
