

Location - Circle Square – Plots 2, 3 + 4, Oxford Road, Manchester M60 7HB

Unit – B2

Client – Just Natas

Planning application ref: - 111025/FO/2016/C1

Condition 17 – Hours of operation

Monday – Sunday 7am – 11pm

Condition 27 - Extraction of Fumes & Odours

There are no cook lines and, as such, no requirement for specialist extraction. The ovens to cook the Natas have built in filters which will be maintained as per the manufacturers recommendations.

Condition 30 - Amplified sound

There is no amplified sound to be provided outside the premises.

Condition 33 - Refuse storage and disposal

Copy of the waste management plan for the site produced by Vectos is supplied as is the Site Wide Management Strategy produced by Curtins. 'Just Natas' will fully comply with its requirements, Just Natas has a proven track record of good management from its existing site in Manchester and its sister operation, Federal Café with two branches in Manchester.

Management Approach

• Avoiding over-buying stock. • Storing food correctly. • Stock Rotation. • Temperature control. • Labelling foods correctly. • Keeping a stock inventory. • Monitoring use-by dates. • Inspection of all deliveries against the order specification. • Work with 'Too Good To Go' to sell any surplus food.

Storage of Waste

It is proposed to use Eurobin type refuse containers to store refuse within the approved storage areas shown in the waste management plan by Vectors. Dedicated space for Just Natas has been allocated in the basement of No.1 Circle Square.

Within the unit, separate bins will be provided for recyclable, non-recyclable and food waste. Bins will be constantly monitored.

These bins will be 'bagged', and when full the bags will be sealed and taken to the main waste management facility in the basement of No. 1 Circle Square.

Removal and Collection of Waste.

The sealed bagged waste will be removed to the communal collection point on as and when needed basis by staff.

Daily waste collection is to be provided by Bruntwood following their strategy as detailed in The Circle Square Site Wide Management Strategy - Document 74976-CUR-00-XX-RP-TP-001
