Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.

- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.

- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

Mining Information

The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Please read the Standing Advice from the Coal Authority in Appendix A.

Greater Manchester Police (Design for Security) advise the following:

-Any existing CCTV & intruder alarms should be reviewed to extend cover to the proposed extensions space, or installed if not already in place.

-If any new external fittings are to be installed (i.e. windows or doors) then they should be certified to Secured by Design standards.

-Due to the single storey flat roof being incorporated as part of the extension, it is recommended that the first floor windows are certified to BS PAS 24.
