

KEY

● Double charging point - Project EV 7.3 kW AC Range.

Wall mounted to gable or front elevation as shown, except where driveways are remote from house where a floor stand would be provided (marked on drawing)

This drawing is copyright Bernard Taylor Partnership Ltd and must not be copied or disclosed by or to any unauthorised persons without the prior written consent of Bernard Taylor Partnership Ltd

Do not scale from this drawing. Do not take measurements from the CAD base. Any discrepancies are to be reported to the architect for clarification.

All dimensions are to be checked on site prior to construction, manufacture of any components and ordering of materials and equipment.

All materials and workmanship to be in accordance with the current British Standards and codes of practice.

B	10.05.22	LT	Position of EV charging points on isolated drives amended following clarification with client
