Dear Lauren,

Re: Supply and Installation of 358 mesh fencing and matching swing gates

Please thank Steve for showing me the area and thank you for taking the time to email your instructions to myself.

After carefully looking at your requirements it gives me great pleasure in submitting our quotation in respect of the above project for your consideration.

To manufacture, supply and install as per your requirements 96.1 meters of 2.4m wide and 3 m high 358 mesh in green to match existing and 1 pair of swing gates with slide bolt 1 drop bolt and 4 hinge protectors.

These safety measures are in line with GATE SAFE a pioneering force that addresses the issues of automated gate safety.

Image of gate design

- Fitting 1 pair of manual swing gates.
- Running site line to fit fence panels.
- Fitting fence panels.
- Leave site Clean and Tidy

Gate Safety

Hinge protectors.

Keyed lock and handle

The legal position is that powered gate systems are considered to be “machinery”. This means that, by law, every new powered gate, when it is put into service, must comply with the European Machinery Directive (2006/42/EC), especially the Directive’s Essential Health and Safety Requirements. Serviced every six months in accordance with the above.

GENERAL NOTES:

Should any alterations or additions to the Schedule of Protection be required during the course of the installation, it is in the customer’s interest to ensure that the customer’s insurance company approve of the modifications, where applicable. Any variations to this specification will be quoted on a pro-rata basis. If COMMSEC LTD are summoned to the site by the contractor, any waiting time or time spent on work other than that necessary to carry out the work detailed in this specification, will be charged at extra cost.

The customer is asked to advise a representative of COMMSEC LTD of the location of concealed water, gas, electricity, telephone or other services before work commences. In the absence of such advice COMMSEC LTD cannot accept liability for damage to these services or any consequential damage. The Quotation is based on the understanding that COMMSEC LTD engineers will carry out work between the hours of 0800 and 1700 Monday to Friday and excluding all Public Holidays. Any alterations to the above times will be chargeable.

Access points shall not conflict with fire regulations and shall not restrict exit in such a way as to endanger persons in an emergency.

ADDITIONAL NOTES

The manufacturers Handbooks, appropriate to the user, will be supplied on handover of the system.

The Company is certificated by SSAIB (Security Systems Alarm Inspectorate Board) and works in conjunction with all current European and British Standards in force including BS EN ISO 9001 Quality Assurance in Production, Installation and Servicing covering Intruder Detection, Access Control and CCTV Systems.

We always endeavour to ensure that all costs are covered in the original estimate. However, should subsequent site work or alterations be required, any further charges will be notified to you immediately. All processes are subject to VAT at the current rate and our lead time is approximately six to eight weeks from receiving your order; this quote is valid for 14 days from the above date.

I trust that I have interpreted your instructions correctly however if there are any areas that I have not covered could you please contact me on my direct number 0161 276 0027 to discuss any suitable amendments.

I hope that the above meets with your approval and I am looking forward to hearing from you in due course.

Yours sincerely,

Tony
