Appendix A - Staff Travel Survey Results

1 INTRODUCTION

Introduction

- 1.1 This Full Travel Plan has been prepared by Vectos for The Endeavour Federation, in support of Southern Cross School in Wythenshawe, Manchester (site address: Roundwood Road, M22 4AA). The school is a Social, Emotional and Mental Health (SEMH) facility.
- 1.2 The location of Southern Cross School is shown by the red star in **Figure 1.1**, which illustrates the school's location in the context of the surrounding area.

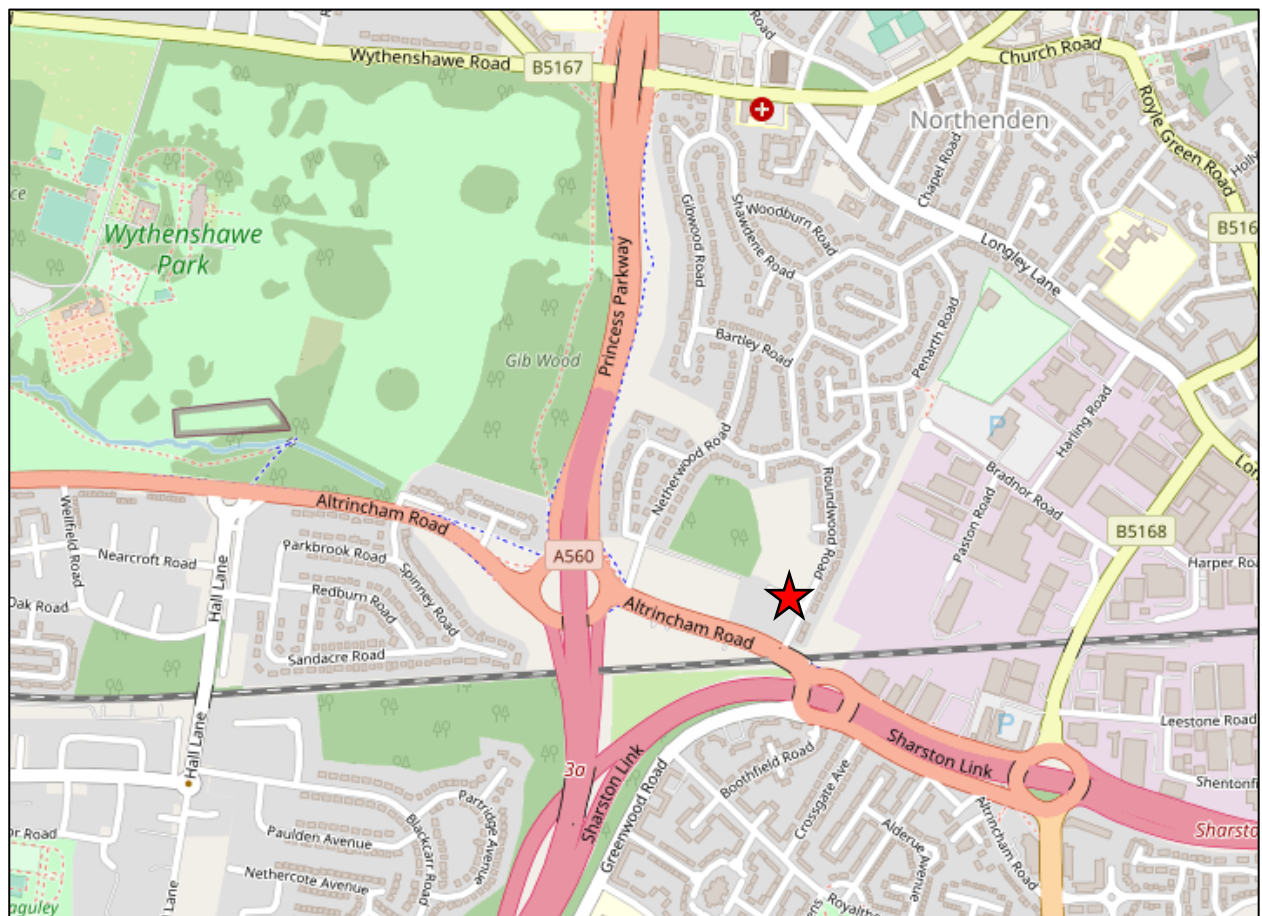

Figure 1.1: Site Location

Southern Cross Specialist School

- 1.3 Southern Cross is a Specialist Support School providing education for young people with social, emotional and mental health difficulties. The school caters for children between the ages of 11-16.
- 1.4 Staff roles at the school include senior leaders, full time teachers, teaching assistants, administration staff, site support staff and lunchtime support staff. Core school hours for pupils are 9am to 2pm. The majority of pupils travel to and from school in organised home-school transport mini-bus or taxi vehicles, with others either transported by parents / carers or travelling independently.

The Travel Planning Process

- 1.5 The planning application for the new Southern Cross School was approved in July 2020 (Manchester City Council planning application reference: 126182/VO/2020), and planning condition 21 stipulates the following:

“Within six months of the first use of the development, a revised Travel Plan which is consistent with the Framework Travel Plan submitted as part of the application and which takes into account the information about travel patterns gathered following the opening of the building shall be submitted to and approved in writing by the City Council as local planning authority. Any Travel Plan which has been approved by the City Council as local planning authority shall be implemented in full at all times when the development hereby approved is in use”.

- 1.6 Southern Cross School does not currently have an implemented Travel Plan, although does record staff and pupil travel modes. The school has been contacted regarding their existing travel characteristics and have been involved in the preparation of the Travel Plan. A Detailed Framework Travel Plan was produced to support the planning application, and this has been used as a basis for developing the Full Travel Plan to be implemented at the site.
- 1.7 This Travel Plan will provide a strategy for managing travel demand at the school, and involves a dynamic process of implementation, monitoring and review to ensure that it is sustainable over the long-term. The underlying aim of any Travel Plan is to minimise the number of single occupancy private car trips generated by a development, by encouraging a shift to more sustainable modes of transport, as a result mitigating the impact of travel upon the surrounding area and promoting healthier outcomes.
- 1.8 A successful Travel Plan needs to follow a four-stage process as shown in **Figure 1.2**.

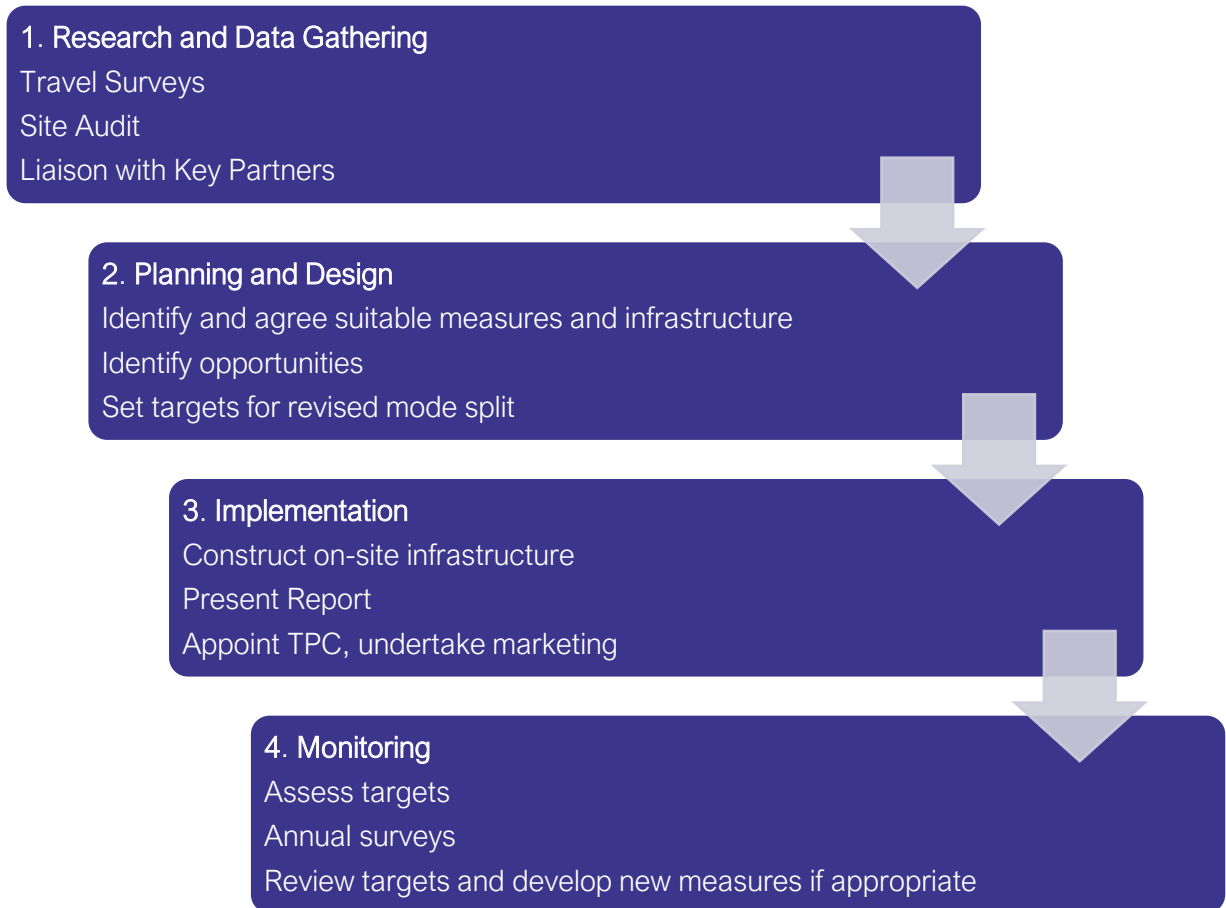

Figure 1.2: Travel Plan Process

- 1.9 This Travel Plan forms stages 1 to 3 of the process, providing the following:
- Details of the provision for pedestrians, cyclists and public transport users;
 - A toolkit of sustainable travel measures;
 - Targets for monitoring the success of the Travel Plan which have been developed from the staff travel surveys; and
 - A strategy for ongoing monitoring and review and outlines the role Travel Plan Co-ordinator (TPC) who has responsibility for progressing and reviewing the uptake of measures.

Report Structure

- 1.10 This report has been set out in the following sections:
- **Section 2** considers the relevant transport policy context to the Travel Plan;
 - **Section 3** provides a review of the existing transport conditions in the vicinity of the site, including the accessibility of the site by sustainable travel modes;
 - **Section 4** provides details and results of a Staff Travel Survey which was conducted;
 - **Section 5** presents the objectives and measures for the site;
 - **Section 6** details the targets for the Travel Plan drawn from the Travel Survey and outlines the process for monitoring and reviewing the Travel Plan; and
 - **Section 7** provides an action plan for achieving the targets of the Travel Plan.

2 POLICY CONTEXT

National Planning Policy Framework

- 2.1 The latest iteration of the National Planning Policy Framework (NPPF) was published by the Ministry for Housing, Communities and Local Government (MHCLG) in July 2021 and provides guidance for English Councils in producing local plans and making decisions on planning applications.
- 2.2 At the heart of the Framework is a presumption in favour of sustainable development, which is to be seen as a golden thread for plan making and decision taking.
- 2.3 The NPPF notes that all developments that will generate significant amounts of movement should be required to provide a travel plan.

Manchester City Council (MCC) Core Strategy

- 2.4 The Core Strategy forms the key document in Manchester's Local Development Framework and was adopted in 2012. It sets out a number of strategic policies that will guide the development of the city. Policy SP1 sets out the spatial principles that will guide development to 2027.
- 2.5 Policy T1 of the Core Strategy concerns sustainable transport. It states that the Council will support proposals that:
 - *'Improve choice by developing alternatives to the private car.*
 - *Take account of the needs of road users according to a broad hierarchy consisting of, in order of priority:*
 - i) *Pedestrians and disabled people,*
 - ii) *Cyclists, public transport,*
 - iii) *Commercial access,*
 - iv) *General off peak traffic,*
 - v) *General peak time traffic.*
- 2.6 The development proposals are in line with these policy objectives, ensuring that the site will be accessible to all users by a range of different transport modes.

Greater Manchester Transport Strategy 2040

- 2.7 Transport for Greater Manchester (TfGM) has developed a 2040 Transport Strategy that sets out ambitions for a radical new approach to planning Manchester's transport system in support of long-term needs and aspirations.

- 2.8 The vision is for Greater Manchester to have ‘*World class connections that support long-term, sustainable economic growth and access to opportunity for all*’. The Transport Vision aims are as follows:
- Supporting Sustainable Economic growth
 - Protecting Our Environment
 - Improving Quality of Life for All
 - Developing an Innovative City Region
- 2.9 The 2040 Vision is supported by policies and proposals for improving the transport network in the medium term up to 2025 structured around spatial themes. A common theme is the need to tackle congestion on Manchester’s transport networks and minimise the negative impacts of traffic on communities.

Summary

- 2.10 The above policy review identifies that Southern Cross School in Wythenshawe, Manchester is compliant with the main objectives and policies outlined within both national and local transport policies.
- 2.11 Southern Cross School satisfies the key objectives within the NPPF as there is a good range and level of transport provision serving the site including the commitment to implement a Travel Plan, thus reducing the reliance on the use of the private car.

3 EXISTING TRANSPORT CONDITIONS & ACCESSIBILITY AUDIT

Site Description

- 3.1 Southern Cross School is located to the west of Roundwood Road in Wythenshawe. It was recently constructed on the site of the former Roundwood School, that closed in 2006 and was demolished in 2012/13. The former Roundwood School was a Community Special School for 11-16-year olds and had up to 230 pupils.
- 3.2 The school is located towards the southern end of Roundwood Road, circa 150m north of the A560 Altrincham Road. It is bound by Roundwood Road to the east, Kenmore Road to the north, Round Wood to the west and Neath Avenue to the south.
- 3.3 The site comprises a new school building, along with car parking areas, cycle parking, an external play area and multi-use games area (MUGA).
- 3.4 Vehicular access to the site is taken from Roundwood Road from two priority T-junctions, and each entrance provides access to separate car parking areas within the site. Dropped kerbs with tactile paving are provided across the vehicle access points to assist safe crossing for pedestrians. Pedestrian access to the site is via two entrance gates on Roundwood Road.

Surrounding Highway Network

Roundwood Road

- 3.5 Roundwood Road is a residential road broadly running north-south linking the A560 Altrincham Road to Longley Road. It provides for two-way movement and provides access to a number of residential side-roads.
- 3.6 In the vicinity of the site, Roundwood Road is subject to a 30mph speed limit and the carriageway is circa 6m in width. There are footways provided along both sides of the road, and street lighting is also present. The footway running along the western side of the road is segregated from the carriageway by grass verge with a small number of trees within the grass verge.

A560 Altrincham Road

- 3.7 Roundwood Road meets the A560 Altrincham Road via a left-in left-out priority junction arrangement, circa 150m to the south of the site. Altrincham Road is a dual carriageway road and runs broadly west-east. It provides a link between the M56 Junction 3A and the Sharston Interchange to the east, providing access to the Sharston Industrial Estate.
- 3.8 In the vicinity of the junction with Roundwood Road, Altrincham Road is subject to a 30mph speed limit and provides two running lanes in each direction, however movements at the junction are restricted to left-turns only, with a central reserve on Altrincham Road in place to enforce this.

Figure 3.1: Roundwood Road / Altrincham Road Junction

- 3.9 To the east of the junction with Roundwood Road, Altrincham Road forms a four-arm roundabout junction with Greenwood Road, and beyond this it provides access to the M56 eastbound / M60 at the Sharston Interchange.

Longley Lane

- 3.10 Roundwood Road links to Longley Lane to the north, via a priority junction arrangement. Longley Lane is a residential distributor road subject to a 30mph speed limit. It provides a connection to Palatine Road and areas to the north such as West Didsbury and Withington. Palatine Road facilitates access onto the A5103 Princess Parkway which is a main radial route into Manchester City Centre.

Pedestrian and Cycle Networks

- 3.11 The site benefits from being within an established residential area with a network of footway connections with street lighting provision linking to surrounding areas. A shared footway / cycleway runs along the northern side of A560 Altrincham Road and there is a controlled crossing facility on Altrincham Road just to the east of the junction with Roundwood Road to facilitate safe crossing for connections to the nearest bus stops on the A560 to the west and Benchill residential area to the south.

3.12 The above facilities comprise a good standard of pedestrian routes and landscaping to connect the school with the bus stops on Altrincham Road which provide shelters with seating. There is also a controlled crossing on Altrincham Road around 170m to the west of Roundwood Road.

3.13 There are a number of amenities accessible within 500m of the site, as detailed in **Table 3.1** and illustrated in **Figure 3.2**.

Table 3.1: Accessible Amenities with 500m

Accessible Amenity	Distance from Site
Cash Machine	450m
Post Office	450m
Appropriate Food Outlet	500m

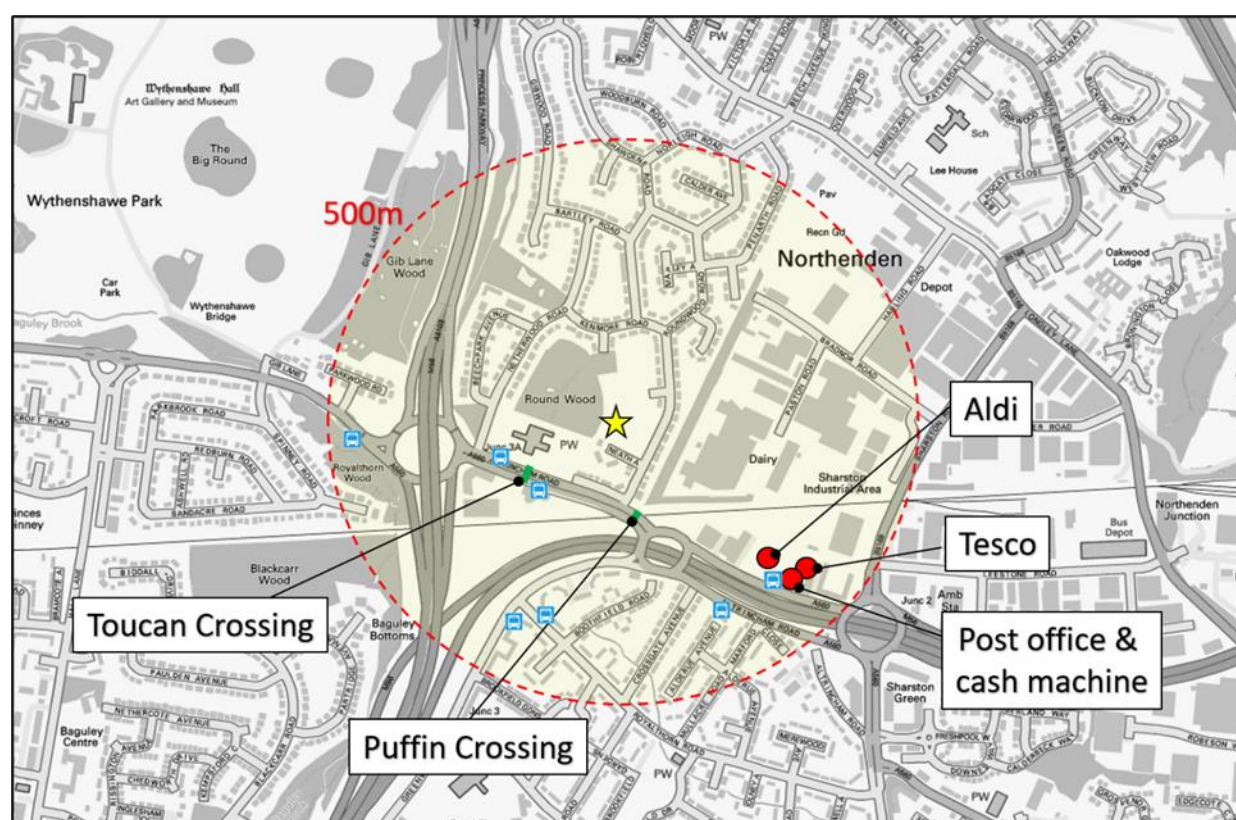

Figure 3.2: Facilities and Amenities within 500m of the Site

3.14 Figure 3.2 also shows that there are several bus stops within a short walk of the site.

3.15 The cycleway along Altrincham Road provides a link to Sharston Road to the east, which is largely an off-road route. To the west, the cycle route extends to run alongside Princess Parkway providing a connection north. Roundwood Road itself is identified as an on-road cycle route in the TfGM Greater Manchester Cycle Map (see **Figure 3.3**).

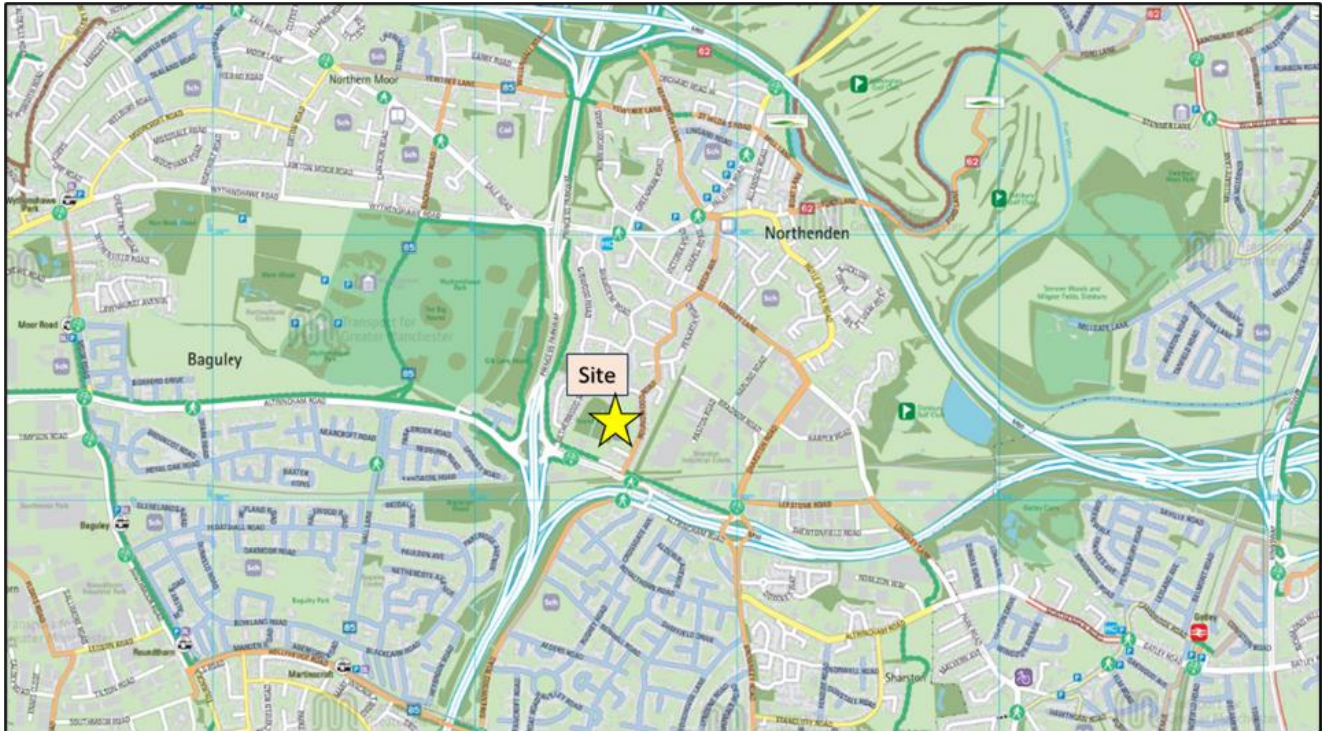

Figure 3.3: Cycle Routes (Extract from TfGM Manchester Cycle Map)

- 3.16 It is generally accepted that the bicycle is an effective mode for short trips of up to 3 to 5 miles (5 – 8km). A 5km cycle catchment from the site would equate to a journey of around 25 minutes at a leisurely cycle speed of 12km per hour, and this catchment represents the lower threshold of the potential cycle catchment of the site.
- 3.17 With this guidance in mind, **Figure 3.4** shows an illustrative 5km catchment from the site. This 5km catchment includes large parts of South Manchester such as Wythenshawe, Didsbury and Withington.

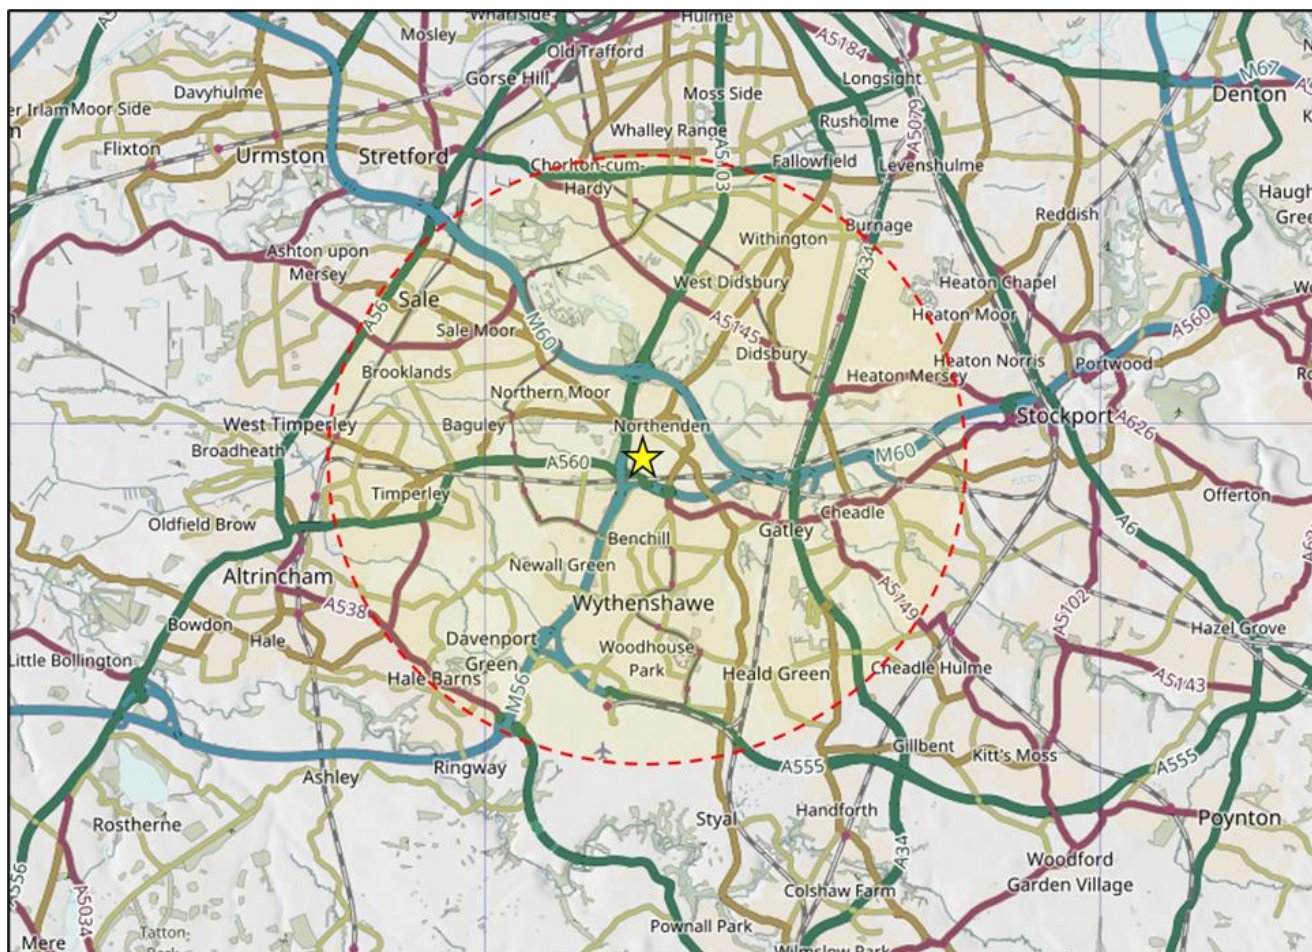

Figure 3.4: Illustrative 5km Catchment from the Site

- 3.18 The site is therefore well located in relation to existing cycle and pedestrian infrastructure, which has been shown to provide good connectivity to the surrounding areas, facilitating the opportunity for safe journeys on foot and by cycle.

Public Transport

- 3.19 There are bus stops along Altrincham Road within around 600m of the site, which are served by the 44 and 101 services as detailed in **Table 3.2**. These bus stops are located to the west of the A5103 Princess Parkway / A560 Altrincham Road junction,
- 3.20 The Princess Parkway bus stops A and B on Altrincham Road provide shelter with seating and there are two controlled crossing facilities on Altrincham Road to facilitate pedestrian movements between Roundwood Road and the westbound bus stop on the southern side of Altrincham Road. There is a subway at the north of the A5103 Princess Parkway / A560 Altrincham Road junction and uncontrolled crossings (dropped kerbs and tactile paving) are provided at the south facing slip roads to cater for pedestrians accessing the bus stops.
- 3.21 There are also bus stops along Longley Lane just beyond 400m from the site that could provide a viable means of travel for some staff, with regular connections to Altrincham and Stockport available along this route.

Table 3.2: Bus Services Operating on Altrincham Road (West of Roundabout)

Number	Route	Approximate Frequency (services per hour)			
		AM Peak	Midday	PM Peak	Evening
44	Piccadilly Gardens to Wythenshawe Hospital (via Withington and Didsbury)	1	1	1	1
101	Piccadilly Gardens to Wythenshawe (via Moss Side and Northenden)	4	4	5	3

- 3.22 The site is therefore well located in relation to the existing bus network and there is potential for some staff to access the site by this mode.

4 TRAVEL SURVEY

Introduction

4.1 A Staff Travel Survey was distributed to those who work in the new school. This survey has identified the following:

- The current mode of travel for journeys to work;
- The reasons for use of current mode; and
- The potential opportunities to encourage the use of sustainable modes.

4.2 The survey was completed in February 2022. Out of the 58 staff who work in the new school, 28 completed the survey which equates to a response rate of 48%. The Staff Travel Survey results are contained in **Appendix A**.

Survey Analysis

Type of Employment

4.3 The travel survey asked staff to specify whether they worked on a full-time or part-time basis. The proportion of employment types amongst surveyed staff at the store is shown in **Figure 4.1**.

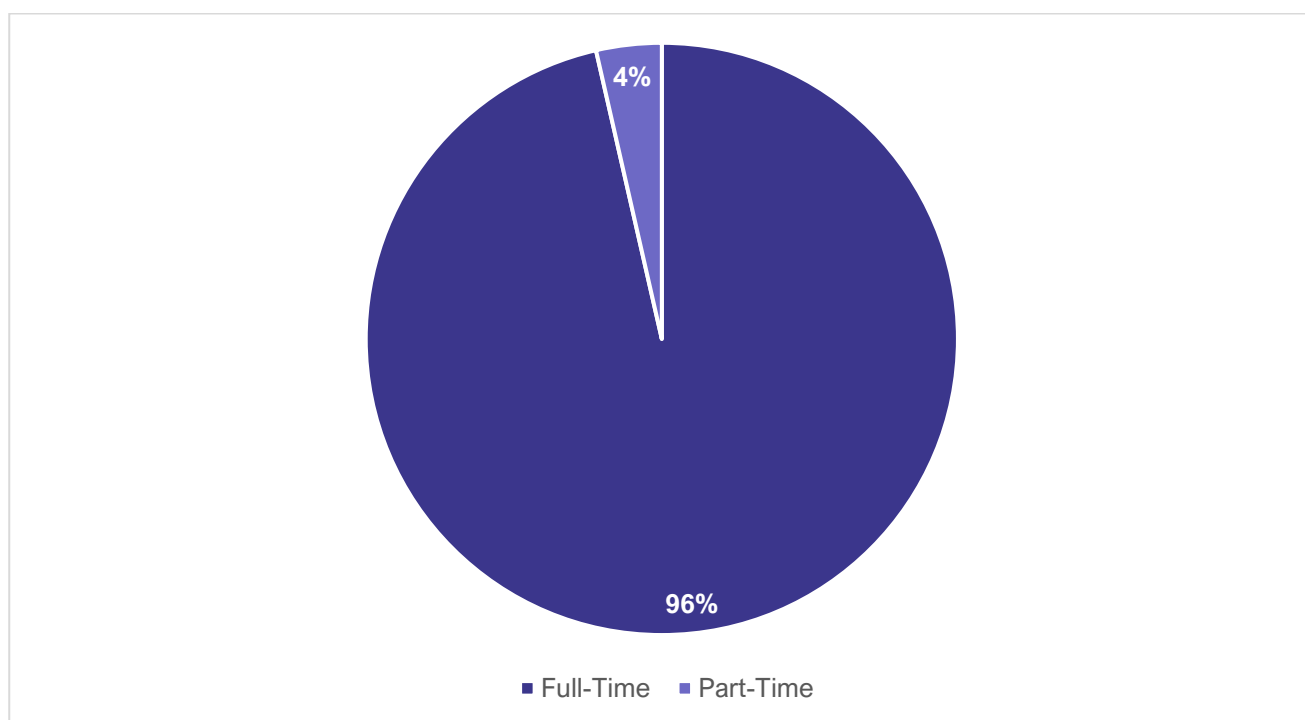

Figure 4.1: Full-Time and Part-Time Split

4.4 As shown in **Figure 4.1**, the majority of staff work on a full-time basis.

Staff Mode Share

- 4.5 One of the most important questions included in the travel survey asked how staff travel to the school on a typical day. This question was asked in order to decipher existing staff mode share, with the results shown in **Figure 4.2**.

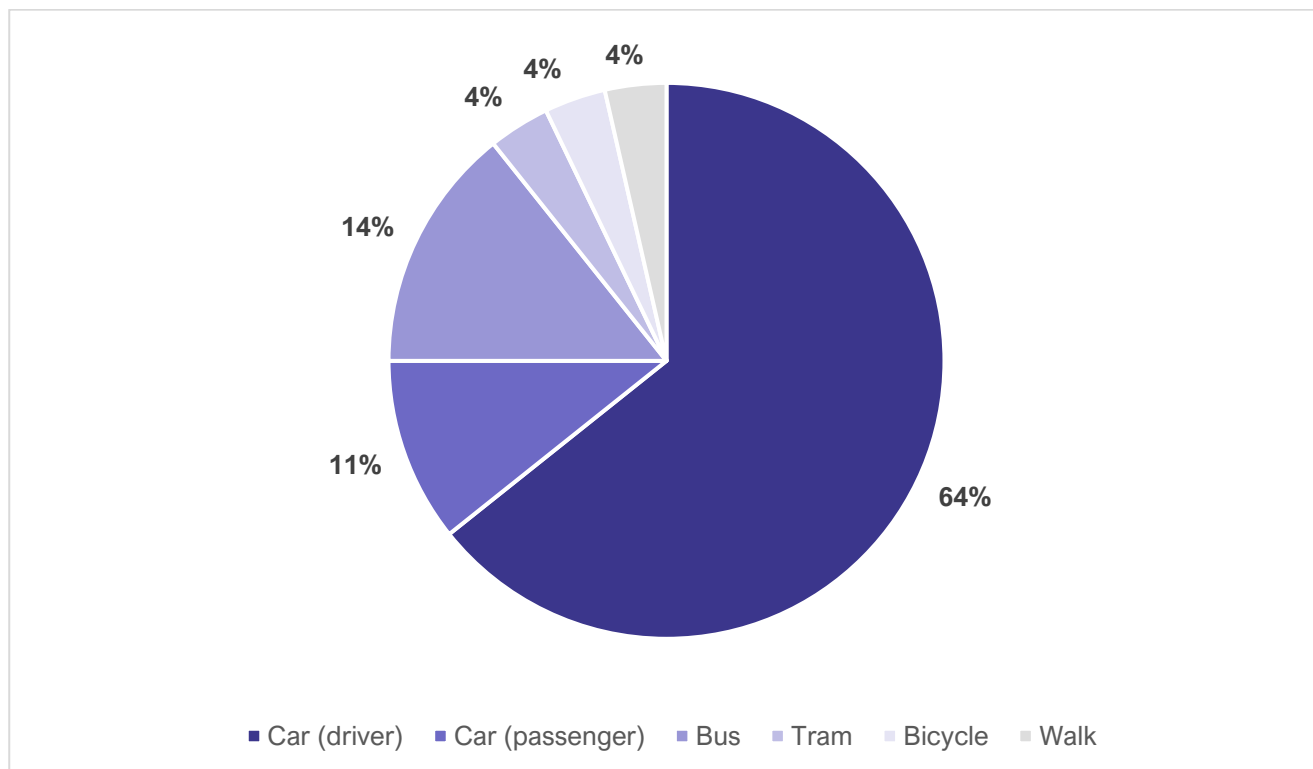

Figure 4.2: Staff Transport Mode Share

- 4.6 As can be seen, 64% of staff travel to and from the site by car as a driver. Staff travelling to the school by bus represent 14% of the overall mode share, and 11% of staff travel by car as a passenger. Furthermore, staff travelling by tram, by bicycle or on foot represent 4% of the overall mode share respectively. No staff currently travel to the school by train or by motorcycle.

Why Do Most Staff Travel by Car?

- 4.7 As outlined, the majority of staff travel by car as a driver. In order to reduce this, staff were asked to select the main reason why they typically choose to travel to the school by car at present,
- 4.8 With all survey responses analysed, the top three responses are;
- 1) More convenient than alternative;
 - 2) Faster than other modes of transport; and,
 - 3) No alternative.
- 4.9 As can be seen, many staff believe that travelling by car is both more convenient and faster than other modes of transport. It is also noted that some staff feel there is no alternative which would work for their personal circumstances.

Would Staff Consider Car-Sharing?

- 4.10 At present, only 11% of staff travel to the school as a passenger. One question in the Staff Travel Survey asked whether they would consider car-sharing, and therefore whether promoting this scheme would be worthwhile in order to reduce single-occupancy car travel, with the results shown in **Figure 4.3**.

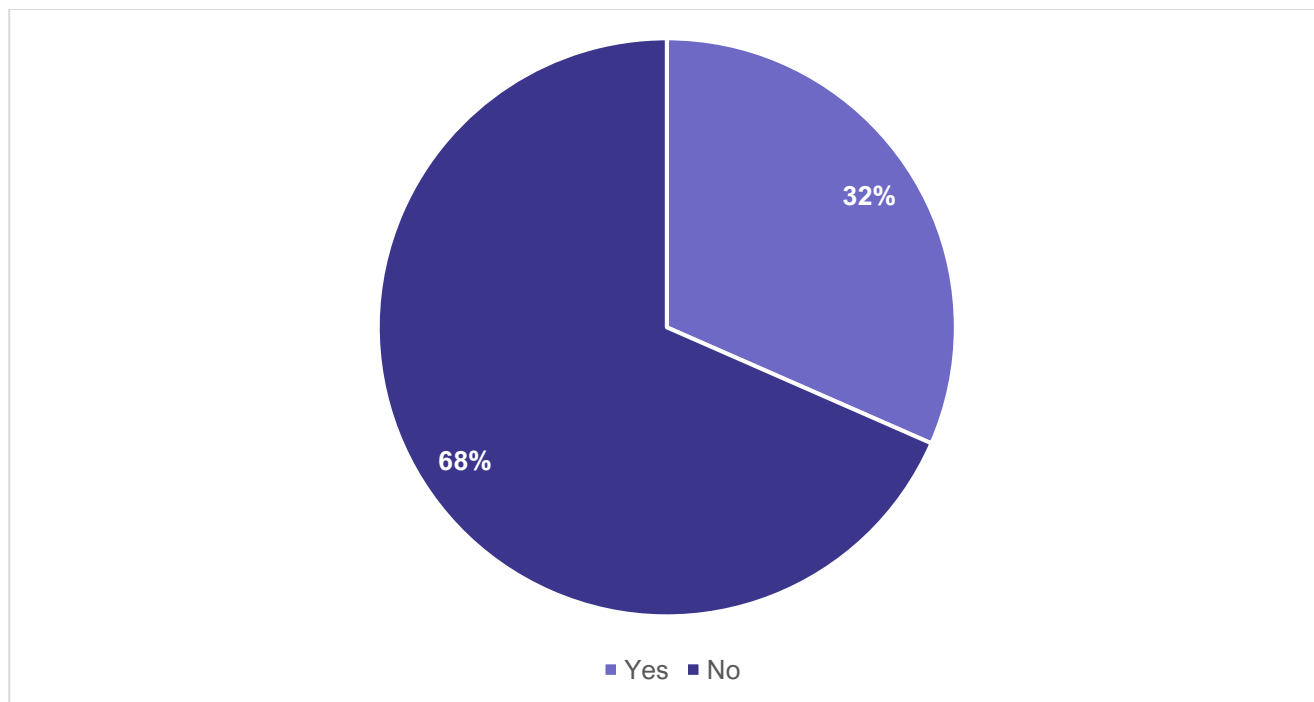

Figure 4.3: Willingness to Car Share

- 4.11 As shown in **Figure 4.3**, 32% of staff said that they would consider car-sharing while 68% stated they would not travel by this mode of travel. Despite this, it is considered that promoting this may encourage some staff to change their mode of travel.

What Could Encourage Sustainable Modes?

- 4.12 In order to reduce single-occupancy car travel, staff were asked which changes could be made to make them more likely to use sustainable modes of transport. As such, they were asked to select three reasons and rank them in order of importance, with 1 representing the most important factor and 3 representing the least important factor.
- 4.13 With all survey responses analysed, the top three responses are;
- 1) Financial help on the cost of tickets.
 - 2) More convenient bus service.
 - 3) Flexible working patterns.
- 4.14 The top three answers indicate that there are measures which the school could implement to encourage sustainable travel choices among staff at the school.

Summary

- 4.15 The results of the Staff Travel Survey outlined above have been used to inform the Travel Plan measures and sustainable travel targets discussed within Sections 5 and 6.

5 OBJECTIVES AND MEASURES

Objectives

5.1 The objectives of the Travel Plan include the following:

- To introduce a package of management measures that will encourage travel by modes of transport other than the private car;
- To regularly monitor the means of travel used by staff to encourage transfer to the most sustainable modes, as achieved through the implementation of the Travel Plan;
- To reduce the environmental impact of the site activities, and promote a commitment to environmental values; and
- To increase the awareness of staff as to the advantages and potential for travel by more environmentally friendly modes.

Measures

5.2 It is necessary to implement a number of “hard” and “soft” measures in order to achieve the objectives. The measures are part of an action plan with timescales for delivery and individuals responsible identified, and will include:

Travel Plan Co-ordinator

5.3 The Travel Plan should be implemented for the school under the control of the Travel Plan Co-ordinator (TPC). The TPC will work in conjunction with staff and other key stakeholders to ensure the continuing progression of the Travel Plan. The TPC for the Southern Cross School will be the Head Teacher as follows:

Name: Kate Burke
Position: Head Teacher - Southern Cross School
Phone Number: 0161 881 2695
Email: k.burke@southerncross.manchester.sch.uk

5.4 The role of the TPC is:

- To be the key decision maker on day-to-day matters of implementation of the Travel Plan;
- Liaison with users of the site as well as external organisations, stakeholders, MCC, TfGM and public transport operators;
- To provide a point of contact for staff in relation to travel advice;
- To promote the use of travel modes other than the car, including the distribution of publicity material and travel information;
- Ensuring that all relevant information is available to users and that up-to-date information is clearly displayed on the travel plan notice boards and online;
- To co-ordinate the implementation of Travel Plan measures; and
- Data collection, surveys, monitoring and report production.

5.5 Any changes to the TPC will be communicated to the Local Authority and all key stakeholders.

Travel Awareness

- 5.6 Staff will be made aware of the existence of the Travel Plan and a copy will be available via the school website. A copy of the Travel Plan will also be made available to MCC and TfGM.
- 5.7 There will be up-to-date information displayed on the travel plan notice board within the school.

Walking

- 5.8 Walking offers many health benefits and fits in well with the growing interest in a healthy lifestyle. As mentioned earlier in this report, the walking facilities surrounding the development site are of a good standard and should encourage travel on foot. In addition to the existing pedestrian provision, the following measures will be implemented by the TPC:
- Ensure adequate provision of footways and lighting along internal access routes;
 - Liaise with the local authority to ensure that external pedestrian routes surrounding the site are appropriately maintained;
 - Provide a pool of umbrellas for staff use;
 - Organise and promote “Walk to School” campaigns; and
 - Include information and advice concerning safe pedestrian routes on the Travel Plan notice board / school website.

Cycling

- 5.9 The following measures will be implemented to encourage staff to travel to the site by bicycle:
- Provision of 16 cycle parking spaces through 8 x hoops in a covered cycle shelter at the site, and monitoring of cycle parking with additional facilities provided should demand warrant it;
 - Investigating the potential to set up a Bicycle User Group (BUG) to encourage staff to cycle to work;
 - Staff will have access to changing facilities;
 - Liaising with the local authority to ensure that external cycle routes and facilities in the vicinity of the site are appropriately maintained;
 - Arrange cycle maintenance training for staff as appropriate;
 - The Travel Plan will facilitate information and advice concerning safe cycle routes;
 - The TPC will also launch poster campaigns such as “Cycle to School Week” and other national events like Bike Week to advertise cycling as a viable mode of travel to school / work;
 - Tax free cycle scheme for staff; and
 - Organising cycle training for staff in conjunction with the MCC / TfGM.

Public Transport

- 5.10 The following initiatives will be implemented to encourage uptake of travel by public transport:
- There will be up-to-date information displayed on the Travel Plan notice board within the school / staffroom, including route information and service frequencies, and links to live public transport online through the school website;

- The TPC will ensure that information remains valid;
- Liaise with TfGM / public transport operators to understand future network changes and seek improvements to services and facilities in the vicinity of the site;
- Staff will be made aware of the web sites administered by the public transport operators; and
- Negotiate discounted / free travel passes from public transport operators.

5.11 The responses to the Staff Travel Survey indicate that staff would be encouraged to shift to this mode of transport if financial help on the cost of tickets was provided and the bus services were improved. Therefore, the TPC will investigate how they can negotiate discounted / free travel passes from public transport operators or assist with the cost of public transport. The TPC will also investigate with TfGM and bus operators if there are options to increase the frequency of public transport provision near the site.

Car Sharing and Low Emission Vehicles

- 5.12 Car sharing offers significant benefits not just for the environment but also financially. It can allow members of staff to benefit from the convenience of the car whilst saving money by reducing mileage and petrol costs, alleviating parking problems, congestion and pollution.
- 5.13 The responses to the Staff Travel Survey indicate that 38% of staff would be willing to consider undertaking car sharing to travel to the school. The TPC will organise a car sharing scheme and providing relevant travel information that is specifically aimed at finding matches amongst staff who would be able to car share when travelling to and from their daily commutes.
- 5.14 Other measures to encourage car sharing will include the provision of free taxi vouchers home in case of an emergency or where the car sharing partner is unavailable for the trip home.
- 5.15 Provision of parking priority spaces will be introduced by the school for car sharers.
- 5.16 As an alternative, the Liftshare.com groups are completely free to join and use. More information on Liftshare can be accessed via the following link:- www.liftshare.com/uk
- 5.17 Ultra-low and zero emission vehicles are defined as sustainable transport modes in the NPPF, and the car park includes four spaces that are equipped with electric vehicle charging (EVC) points. The usage / provision will be monitored as part of the Travel Plan to identify any need for increasing the provision of EVC spaces at the site in the future.

Communication

- 5.18 It is considered that a successful Travel Plan is built upon effective consultation with the school and the local community.
- 5.19 It will be important to consult with staff and local stakeholders. This will be best achieved through conducting surveys, arranging staff meetings and regular publicity either through the school website and / or a school newsletter.
- 5.20 The TPC is responsible for the promotion of the Travel Plan and for the communication of its targets and objectives. The following measures will be undertaken to ensure that this is done:

- Provide information in communal areas around the school; and
- Promote and reinforce the aims of the Travel Plan to users on a regular basis.

6 TARGETS, MONITORING AND REVIEW

- 6.1 The monitoring and review programme to be undertaken by the TPC will be designed to generate information by which the Travel Plan can be evaluated, revised, developed, and improved.
- 6.2 The principal objective of the Travel Plan is to achieve a reduction in the use of private cars. In the first instance, a suitable indicator of the success of the plan will be a review of staff travel behaviour.

Staff Travel Targets

- 6.3 The success of the Travel Plan will be measured against a series of targets. These targets have been set using the mode split of the existing staff gathered from the Staff Travel Survey completed in February 2022. The responses to these surveys have informed where the measures of the Travel Plan will be focused with proposed increases in car sharing, cycling and public transport.
- 6.4 It is important that the targets are SMART (Specific, Measurable, Achievable, Relevant and Time-based) and meaningful to those who are subject to the Travel Plan.
- 6.5 In view of the Staff Travel Survey results a 10% reduction in single car occupancy trips is targeted over a 5-year period. This is considered a challenging but achievable target. Particular focus is placed upon increasing the use of those modes of travel which the survey suggested offered the greatest potential.
- 6.6 **Table 6.1** provides a summary of the existing mode split of staff and the targets for reductions in single car occupancy journeys.

Table 6.1: Staff Travel Targets

	Base 2022	2023	2024	2025	2026	2027
Car (driver)	64%	62% (-2%)	60% (-2%)	58% (-2%)	56% (-2%)	54% (-2%)
Car Share and Low Emission Vehicles	11%	12% (+1%)	13% (+1%)	13%	14% (+1%)	15% (+1%)
Walk	4%	4%	4%	5% (+1%)	5%	5%
Cycle	4%	5% (+1%)	5%	6% (+1%)	7% (+1%)	7%
Bus	14%	14%	15% (+1%)	15%	15%	16% (+1%)
Train	0%	0%	0%	0%	0%	0%
Tram	4%	4%	4%	4%	4%	4%
Motorbike	0%	0%	0%	0%	0%	0%

- 6.7 The collection and analysis of staff travel pattern data will form the basis of any revisions to the targets to be set and assist the annual monitoring process and inform future changes to the plan.

Student Travel Targets

- 6.8 Given the nature of student travel, with the majority relying upon organised home-school transport, there is little scope to achieve a change in travel mode amongst students. It is therefore not proposed to set any modal share targets for student travel.

Monitoring

- 6.9 There will be an on-going process of monitoring the Travel Plan. The Travel Plan will also be reviewed in consultation with the MCC Travel Plan Officer.
- 6.10 The TPC will co-ordinate further staff travel surveys for a 5-year period. These will be undertaken on the approximate anniversary of the first travel survey. The targets presented in this Travel Plan will then be reviewed in the light of each travel survey.

Review

- 6.11 If the review determines that the Travel Plan targets have not been met, then the TPC shall liaise with the Council's Travel Plan Officer on potential measures to mitigate and resolve this.
- 6.12 The TPC will also monitor the usage of the car park so as to ensure that staff use the spaces properly and parking problems of any significance do not occur on-street.

7 ACTION PLAN

7.1 The following list describes the proposed measures that are to be taken to help achieve the Travel Plan objectives. The measures can be developed in the form of an Action Plan as outlined in **Table 7.1**. The Action Plan includes:

- A time frame for each action so as to provide a clear approach for the implementation of the Travel Plan;
- Named person who is to be responsible for making sure the actions are accomplished; and
- A range of measures to promote increased travel to the site by different modes of sustainable transport.

Table 7.1: Action Plan

Measure	Target Date	Ownership
Appoint TPC	May 2022	The Endeavour Federation
Sharing of the Travel Plan to staff through school website and staff communal areas / display on notice board	May 2022	TPC
Provision of travel information in staff communal areas, including public transport timetables, information on local taxi firms and walking cycling maps	May 2022	TPC
Facilitate arrangements for purchase of discounted cycling equipment and public transport travel passes to encourage staff to travel by these modes	May 2022	TPC
Implement car sharing scheme	May 2022	TPC
Liaison with MCC, TfGM and bus operators to ensure walking and cycling facilities in the vicinity of the site are appropriately maintained and seek improvements to bus services / infrastructure	Ongoing	TPC
Monitoring of cycle parking facilities and EVC spaces. Consideration of additional cycle parking facilities and EVC points should demand warrant it	Ongoing	TPC
Conduct Staff Travel Surveys	Annually from February 2023 for a 5-year period	TPC
Ensure travel information is periodically kept up to date and made available for staff	On-going	TPC
Complete annual review of Travel Plan for Local Authority	Annually following completion of Staff Travel Survey	TPC

Appendix A

Staff Travel Survey Results

Travel Survey

Please complete this Survey by _____

- 1 **Name*** _____
Providing your name is not essential but it does help us target measures in the right areas.

- 2 **Home Postcode/Street name** _____

- 3 **Gender**
1 ☐ Male 2 ☒ Female

- 4 **Age**
1 ☐ Under 25 4 ☐ 45-54
2 ☒ 25-34 5 ☐ 55 or Over
3 ☐ 35-44

- 5 **Is your work?**
1 ☒ Full Time 2 ☐ Part Time

- 6 **What are your normal start/finish times?**

Days 5 Start Time 8.30
Finish Time 4.30

If you have other variable working hours please specify

- 7 **On your normal trip to work, which form of transport do you usually use?**

- 1 ☒ Car (as driver on my own)
2 ☐ Car (as passenger or as driver with passenger)
3 ☐ Bus
4 ☐ Train
5 ☐ Tram
6 ☐ Motorbike
7 ☐ Bicycle
8 ☐ Walk
9 ☐ Other (specify)
