Growth & Development

Delegated officer report for planning application

Application no. 130645/FH/2021

Date registered valid: 7 June 2021

Proposal: Part retrospective application for the installation of rear dormer extension to form additional living accommodation

Address: 2 Neale Road, Manchester, M21 9DQ

Ward(s): Chorlton Ward

Applicant: Mr Tom Lindsay, 2 Neale Road, Manchester, M21 9DQ

Agent (if any): John Smith, J.W.Smith, 29 Alderley Close, Stockport, SK7 6BS

Case officer: Melanie Tann
Tel: 0161 234 4538
Email: melanie.tann@manchester.gov.uk

Recommendation: Approve

Date of recommendation: 29th July 2021

Application details

Type of application: Full Householder Application

Development type: Householder

Standard consultations:

No consultations have been printed and sent.

Neighbour notifications

Printed: 14 June 2021 Expired: 5 July 2021

Site notice

No site notice has been produced

Press advert

No press advert had been published

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

The property is a two-storey end-terrace house

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

Description of area

The surrounding area is fairly residential in nature, however the area also includes commercial premises on Beech Road and areas of green space such as Beech Road Park.

Description of development

Part retrospective application for the installation of rear dormer extension to form additional living accommodation

Consultations & Notification Responses

Policies

Unitary Development Plan

Saved Policy DC1.1 states that in determining planning applications for extensions to residential properties, the Council will have regard to:

- a. The general character of the property;
- b. The effect upon the amenity of the neighbouring occupiers;

- c. The desirability of enabling people to adapt their houses in appropriate ways to meet changing household needs;
- d. The overall appearance of the proposal in the a street scene;
- e. The effect of the loss of any on-site car parking.

DC1.2 states that extensions to residential properties will be allowed subject to compliance with other relevant policies of the Plan and the following criteria:

- a. They are not excessively large or bulky (for example resulting in structures which are not subservient to original houses or project out too far in front of original buildings);
- b. They do not create undue loss of sunlight, daylight or privacy;
- c. They are not out of character with the style of development in the area or the surrounding scene by virtue of design, use of materials or construction details.

The Core Strategy Development Plan Document 2012 -2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012. It is the key document in Manchester's Local Development Framework. The Core Strategy replaces significant elements of the Unitary Development Plan (UDP) as the document that sets out the long term strategic planning policies for Manchester's future development. A number of UDP policies have been saved until replaced by further development plan documents to accompany the Core Strategy. Planning applications in Manchester must be decided in accordance with the Core Strategy, saved UDP policies and other Local Development Documents.

Policy SP1 identifies the City Council's Core Development Principles and states that development in all parts of the City should:-

Make a positive contribution to neighbourhoods of choice including:-

- Creating well designed places that enhance or create character
- Making a positive contribution to the health, safety and wellbeing of residents
- Considering the needs of all members of the community regardless of age, gender, disability, sexuality, religion, culture, ethnicity or income.
- Protect and enhance the built and natural environment

Minimise emissions, ensure efficient use of natural resources and reuse previously developed land wherever possible.

Improve access to jobs, services, education and open space by being located to reduce the need to travel and provide good access to sustainable transport provision.

Policy DM1 states that all development should have regard to the following specific issues for which more detailed guidance may be given within a supplementary planning document:-

- Appropriate siting, layout, scale, form, massing, materials and detail.
- Impact on the surrounding areas in terms of the design, scale and appearance of the proposed development. Development should have regard to the character of the surrounding area.
- Effects on amenity, including privacy, light, noise, vibration, air quality and road safety and traffic generation. This could also include proposals which would be sensitive to existing environmental conditions, such as noise.
- Accessibility: buildings and neighbourhoods fully accessible to disabled people, access to new development by sustainable transport modes.
- Community safety and crime prevention.
- Design for health.
- Adequacy of internal accommodation and external amenity space.
- Refuse storage and collection.
- Vehicular access and car parking.
- Effects relating to biodiversity, landscape, archaeological or built heritage.

- Green Infrastructure including open space, both public and private.
- Flood risk and drainage.
- Existing or proposed hazardous installations.

The National Planning Policy Framework 2021 sets out the Government's planning policies for England and how these should be applied. It provides a framework within which locally-prepared plans for housing and other development can be produced.

Planning law requires that applications for planning permission be determined in accordance with the development plan, unless material considerations indicate otherwise. The National Planning Policy Framework must be taken into account in preparing the development plan, and is a material consideration in planning decisions.

Achieving sustainable development means that the planning system has three overarching objectives, which are interdependent and need to be pursued in mutually supportive ways (so that opportunities can be taken to secure net gains across each of the different objectives):

a) an economic objective - to help build a strong, responsive and competitive economy, by ensuring that sufficient land of the right types is available in the right places and at the right time to support growth, innovation and improved productivity; and by identifying and coordinating the provision of infrastructure;

b) a social objective - to support strong, vibrant and healthy communities, by ensuring that a sufficient number and range of homes can be provided to meet the needs of present and future generations; and by fostering a well-designed and safe built environment, with accessible services and open spaces that reflect current and future needs and support communities' health, social and cultural well-being; and

c) an environmental objective - to contribute to protecting and enhancing our natural, built and historic environment; including making effective use of land, helping to improve biodiversity, using natural resources prudently, minimising waste and pollution, and mitigating and adapting to climate change, including moving to a low carbon economy.

Issues

Principle

As the proposal seeks to extend a residential property policy DM1 and saved policy DC1.1-1.6 are applicable.

Dormers can be constructed under what are known as permitted development rights as specified as per Schedule 2, Part 1 Class B of the Town and Country Planning (General Permitted Development) (England) Order 2015.

This dormer does not benefit from permitted development. A scheme was previously approved under planning application 128419/FH/2020.

Consideration has been given as to whether the scale, massing, design and appearance of the extension is acceptable. In addition, consideration has been given to any impact the proposed development may have on the residential and visual amenity of neighbouring occupiers and the residential area.

Scale and Massing

The development has been built. The dormer is set just below the main roof ridge, but above the outrigger roof, wraps around in an L shape to cover the main and outrigger roofs, is set up and in from the eaves.

The dormer is considered to be sympathetic to the character of the original house and has limited visibility within the Neale Road street scene although it can be seen from Crossland Road.

It is not considered that the development is overly dominant or bulky and the dormer is considered to be subservient to the main house.

The design and choice of materials for the development reflect the existing house and neighbouring properties. This is considered to be acceptable in this location and is not considered to be detrimental to the character of the property and would not form an incongruous feature within the street scene.

Loss of light/overshadowing

The property is south-east facing, therefore, the dormers are to the north-west. Given the limited height and rearward projection of the dormers it is not considered that the dormers would create any significant loss of light to neighbouring properties.

Residential amenity/visual amenity

It is not considered that the dormers would give rise to any significant loss of privacy or overlooking to neighbouring properties.

The development is visible within the street scene from the side street, however, the dormers are considered to be subservient to the main house and do not form overly dominant or bulky features within the street scene. Therefore, the development is considered to be acceptable in this location and would not create any undue loss of visual or residential amenity to neighbouring occupiers.

Regard has also been had to the scheme previously approved.

Conclusion

It is therefore considered that the proposals are in accordance with City Council saved policies DC1.1, DC1.2 of the Unitary Development Plan and policies DM1, SP1 of the Core Strategy.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the

planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: APPROVE

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development hereby approved shall be carried out in accordance with the following drawings and documents:

Proposed plans and elevations stamped as received 7th June 2021.

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy.

2) The materials to be used on the external surfaces of the extension hereby permitted shall match those of the existing building in type, size, colour and texture.

Reason - In order to ensure a satisfactory appearance in the interests of visual amenity in accordance with saved policies DC1 of the Unitary Development Plan for the City of Manchester and policy DM1 of the Manchester Core Strategy, and the requirements of the National Planning Policy Framework.
