John,

67 Clyde Road Manchester M20 2WW - 130436/TCA/2021

I have viewed the photos and comments provided by the applicant and I comment as follow:

The trees are not worthy of TPO status and therefore we would be unable to stop the removal of this group of self-set trees, however, would the applicant considerer selecting the best two trees out of the group of 6 and pruning them to promote good form?

If the applicant does not want to retain any of the trees, another option would be to remove the self-set trees and replace them with more suitable specimens further away from the wall.

- Cherry species
- Magnolia species
- Birch species

There above tree species would all suit this location.

Kind regards

Rudi Farghaly
