5. Description of Proposed Works, Impacts and Risks

Please describe the proposed development, including (from 1 August 2020) details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

The last previous use was a hairdresser salon beauty use. Intend to apply for change of use to 1 bed flat and 2 bed flat. Existing access to first floor will be used and new windows to side elevation for improved provision of natural light.

Are any associated building works or other operations required to make this change?

Note that such works are restricted to those reasonably necessary to convert the building for use as a dwellinghouse (including partial demolition).

☒ Yes ☐ No

If yes, please provide details of the design and external appearance of the building(s) in regard to these building works or other operations (including partial demolition):

The external wall to be rendered to match front first floor wall finish. Existing windows to be removed and new windows to be installed to meet regulations

Erection of internal non load bearing partitions to make rooms.

What will be the net increase in dwellinghouses?

This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses on the site immediately prior to the development.

2

Please provide details of any transport and highways impacts and how these will be mitigated:

There will be minimal impact to transport and highways

Please provide details of any contamination risks and how these will be mitigated:

The proposal doesn't pose any risk of contamination

Please provide details of any flooding risks and how these will be mitigated.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

Check if your site location is in Flood Zone 2 or 3 online.

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

Not applicable

Please provide details of the impact on the adequate provision of services based on the loss of the building's current use.

For example:

- Would there be a reasonable prospect of the building being used under its current use class going forward?
- Would a unique shop, takeaway, launderette, professional or financial service be lost from the area if the use is changed?

The site is in the centre of Cheetham Hill's business commercial district. The current use is ideally suited on ground floor with shopfront and not first floor.

There is a demand for residential units and the site is suitable for this use, with transport and businesses in close proximity.

Where the building is located in a key shopping area, please provide details of any undesirable impact on the sustainability of that shopping area:

The site is firmly located within a key shopping area given its strong retail character.
