Dear Sir/Madam

Please see attached canopy design, specification and noise report to support the above planning application.

The documents attached are to discharge condition 4 and 5.

The original approval was for a single external duct to the rear however 2 ducts have been installed as this is a requirement as detailed in the specialist documents as one is for fresh air intake and one for extract.

Please find details of fan and silencers below and as shown in the attached documents

Extract fan TCBTX2 500
Supply Fan TCBTX2450
Silencer information attached on pages 16+17

Regards

G Siddique
