

Refuse Collection Strategy

1. Waste recepticles placed within each office and brew point as detailed on the waste management strategy proforma (issued as part of the submission package) are emptied daily outside of office working hours by Sodexo cleaning contractors.
2. The cleared recycling bins, pulpable and general waste is stored within the disposal hold area as indicated. The room is equipped with hygenic wall cladding and vinyl flooring for cleanliness and the mechanical ventilation adheres to all HBN guidance.
3. All refuse sacks will be taken via an easily accessible route directly from the disposal hold to the collection locations along the North Road.
4. These collections will be scheduled to align with the wider sitewide refuse strategy as operated by Sodexo. There is no external store area proposed as part of these works.

Proposed Site Plan - Refuse Strategy
1 : 200

GENERAL NOTES:

DAY Architectural Ltd accepts no responsibility for any costs, losses or claims whatsoever arising from these drawings, specifications and related documents unless there is full compliance with the Client or any unauthorised user of the following:

1 All boundaries, dimensions and levels are to be checked on site before construction and any discrepancies reported to the Architect / Designer.
2 Partial Service: Any discrepancies with site or other information is to be advised to the Architect / Designer and direction and / or approval is to be sought before the implementation of the detail.
3 Block and site plans are reproduced under license from the Ordnance Survey.
4 Do not scale this drawing.
5 For the purpose of coordination, all relevant parties must check this information prior to implementation and report any discrepancies to the Architect / Designer.
