## A bit about us

Studiotech are specialists in delivering architectural lighting and dynamic control solutions to projects across the UK and beyond. Our in-house team deliver all aspects of a project from detailed design, supply, installation and project management right through to commissioning and maintenance.

Working with renowned architects, lighting designers, specifiers, main contractors and electrical contractors, we utilise a network of leading manufacturers to deliver the highest quality solutions.

# Tootal - Concept Visuals - Entrance Underpass

Wall mounted bracketed luminaires allow a defined beam of light to emit down column and continue along paved ground

Linear wall wash fittings to illuminate ceiling from centre line of beam outwards

Current Image

Uniform arrangement of fittings effectively frame the underpass area

## Developed Option

Parallel arrangement of bracketed fittings to columns creates symmetry across underpass area

# Tootal - Concept Visuals - Entrance Arches

## Developed Option

Bracketed fittings mounted to arch sides frame the two gated entrances with a defined line of light

## Current Image

Linear fittings to illuminate up and down imposts to create additional visual interest and further highlight architectural details

Wall mounted bracketed luminaires allow a defined beam of light to emit down column up entrance arch effectively framing the space

Illumination in the form of reflected light provides a glow to the entrance gates further emphasising the intricacies of the ironworks

# Tootal - Concept Visuals - Courtyard Space

Current Visual

Catenary mounted festoon fittings to help create a warm and inviting space encouraging footflow to the area  
Soft glow from the fittings to contribute to amenity lighting levels within the central space

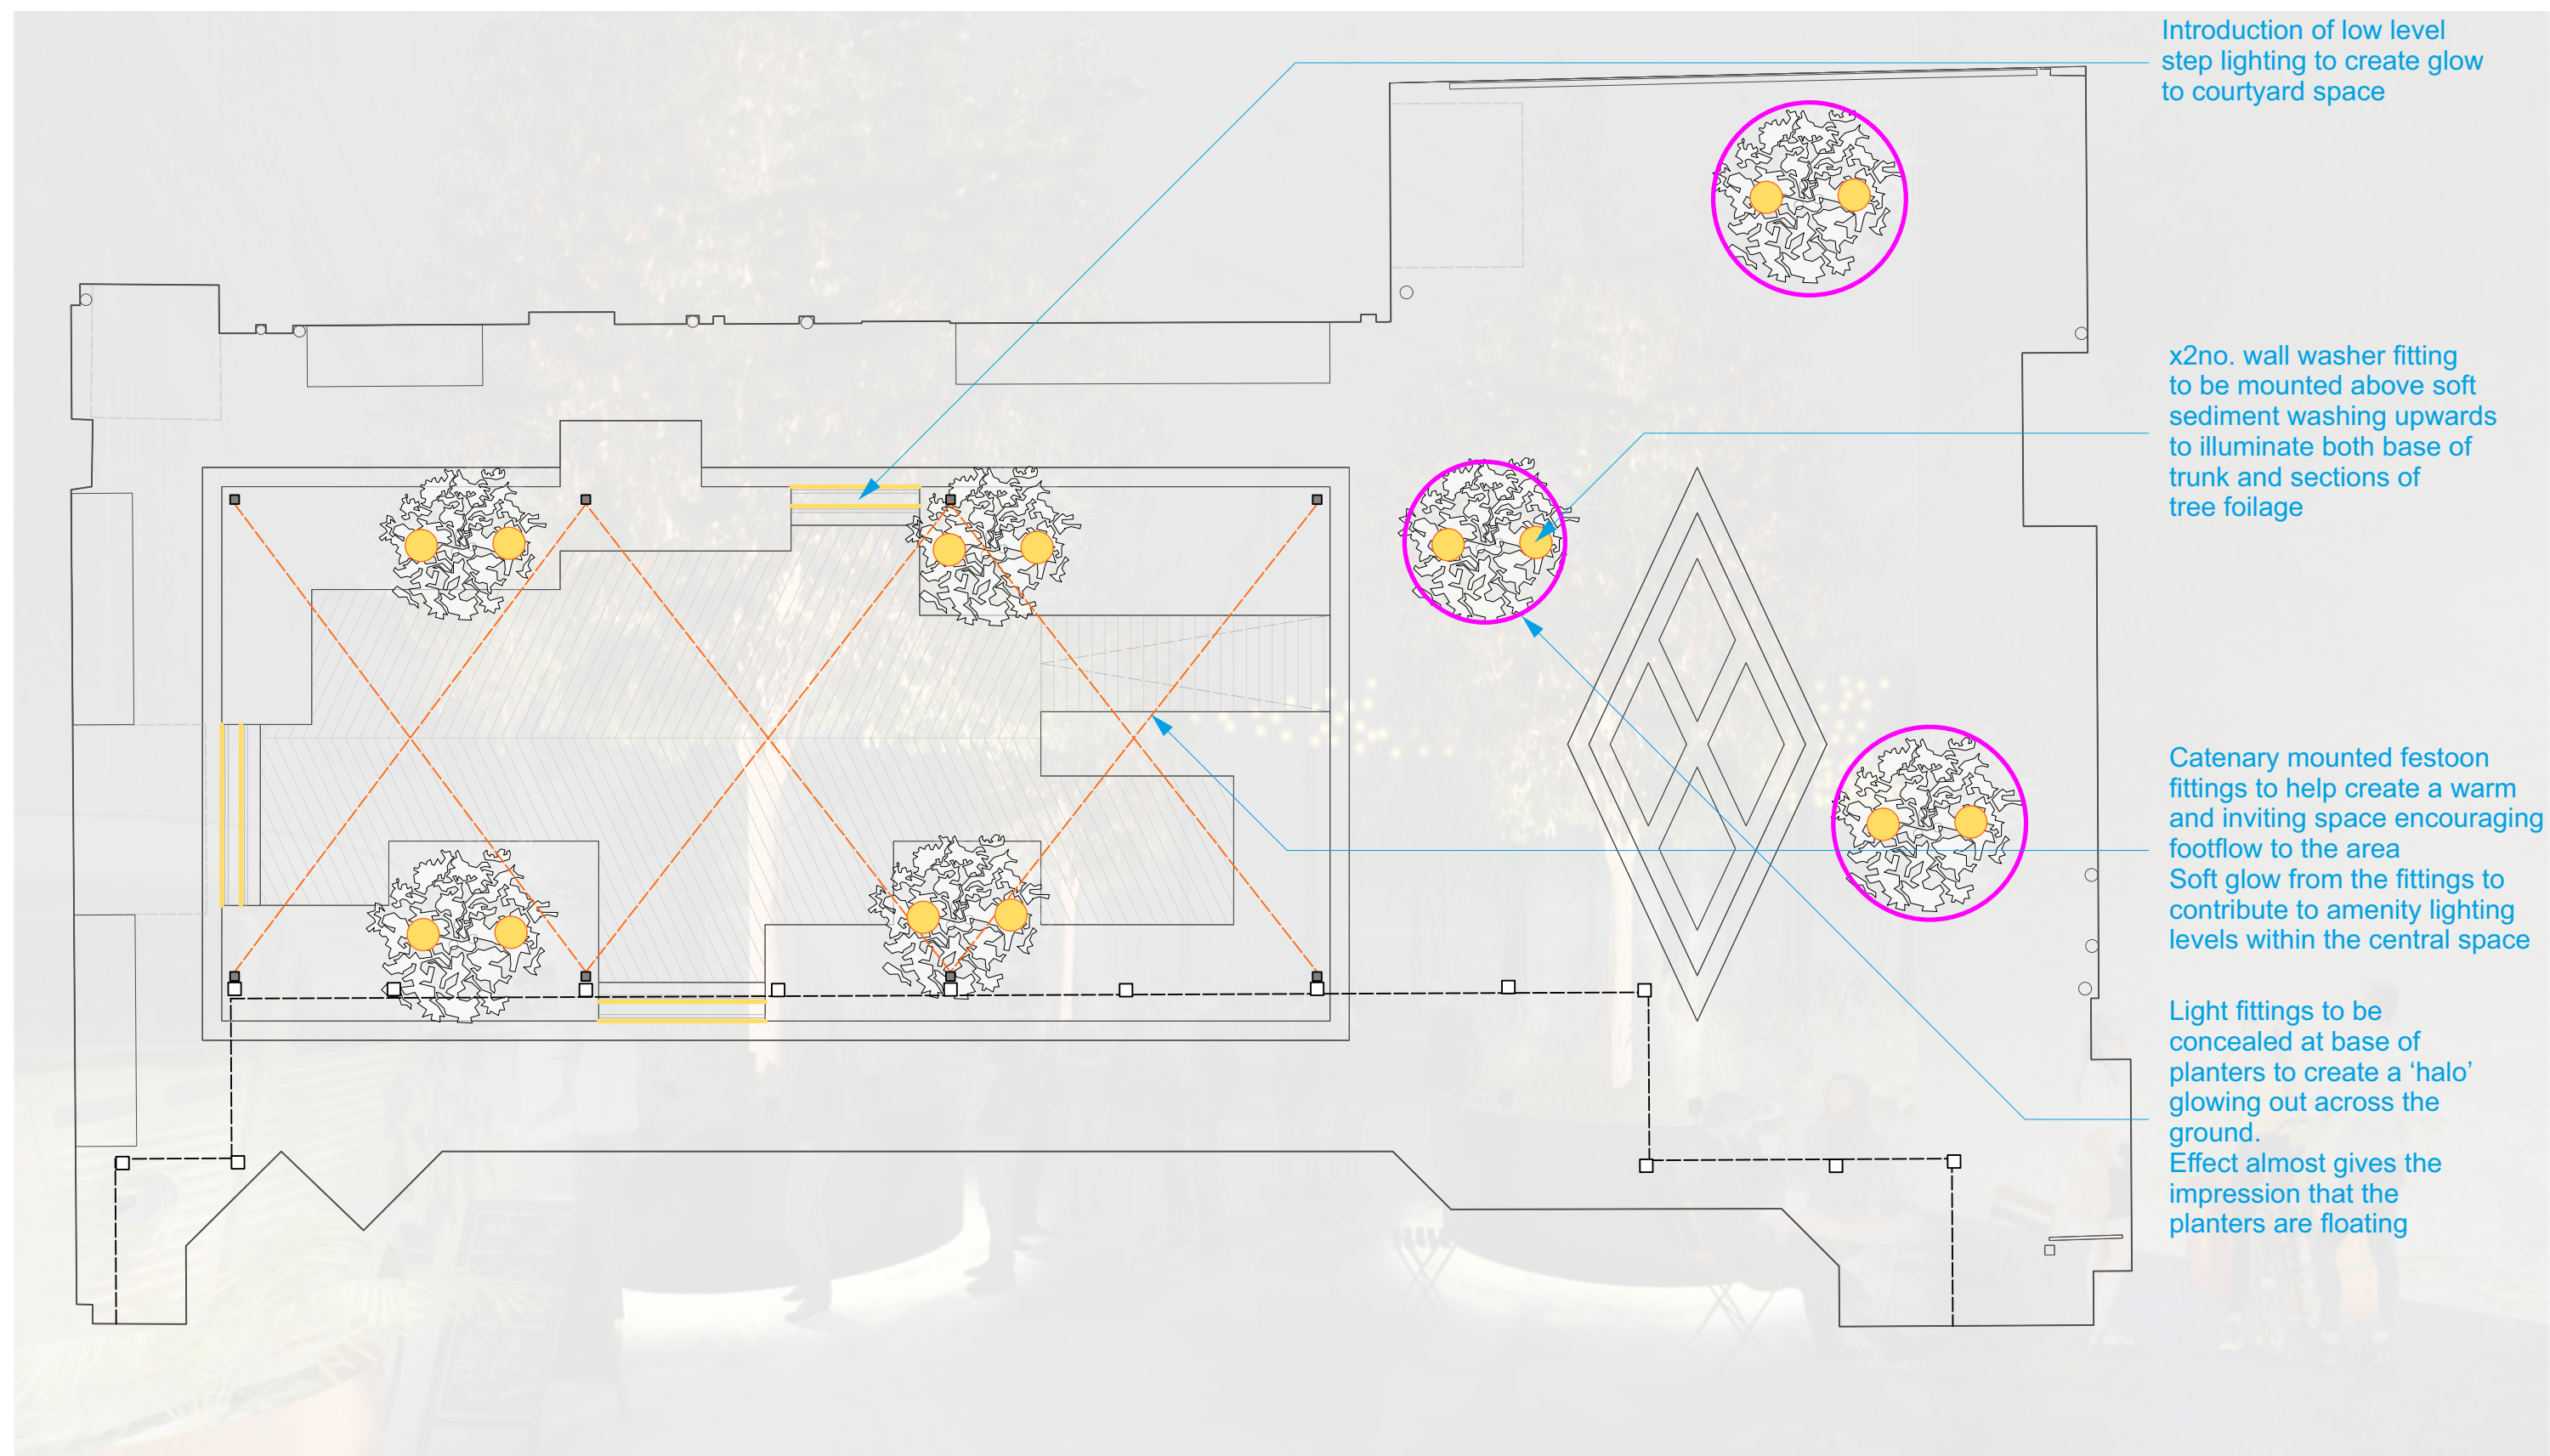

Wall washer fittings to be mounted above soft sediment washing upwards to illuminate both base of trunk and sections of tree foilage

Light fittings to be concealed at base of planters to create a 'halo' glowing out across the ground.  
Effect almost gives the impression that the planters are floating

## Developed Option

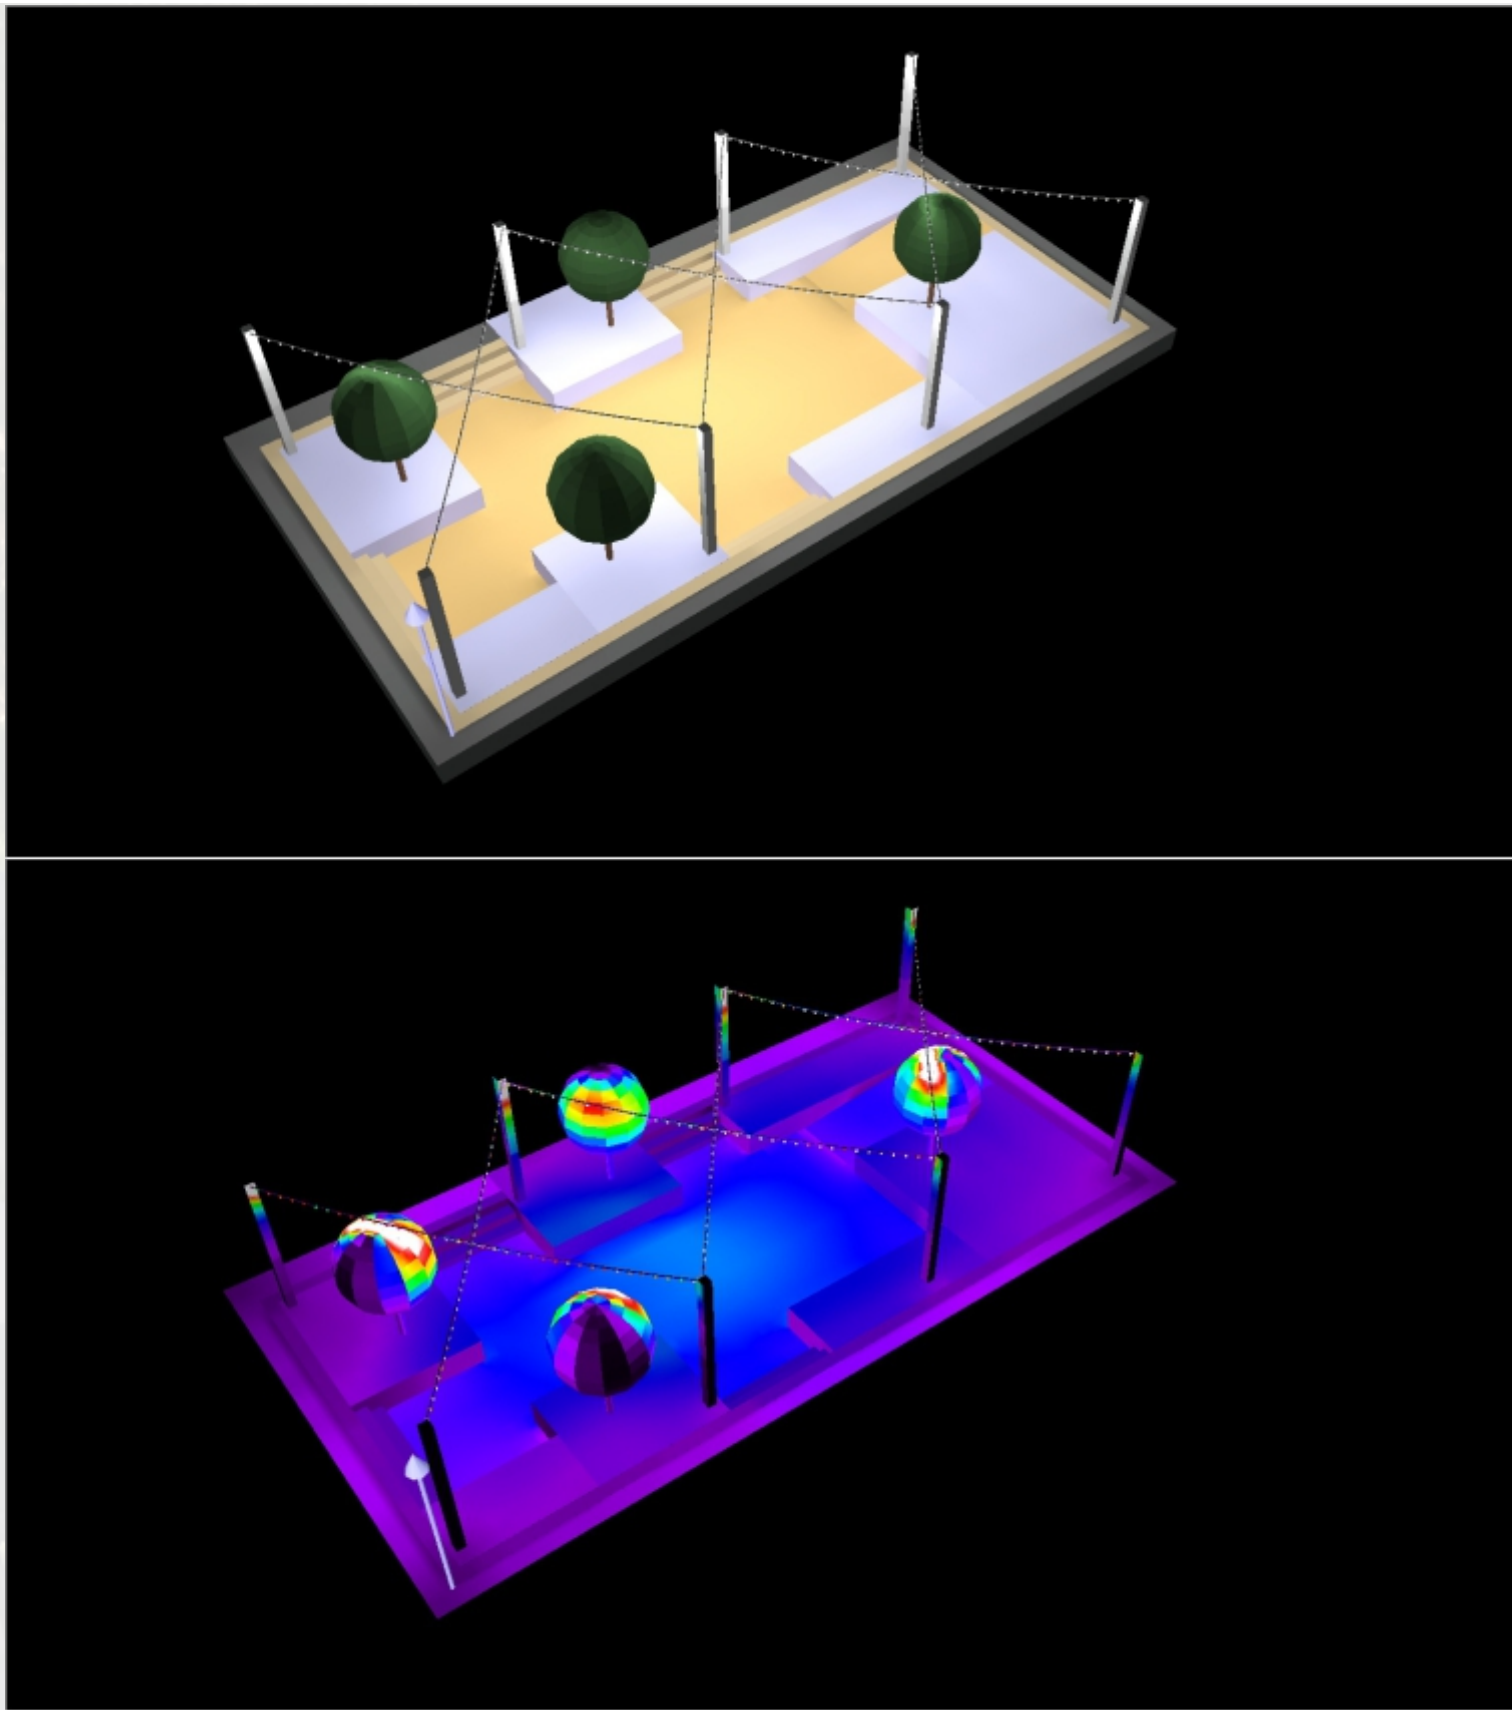

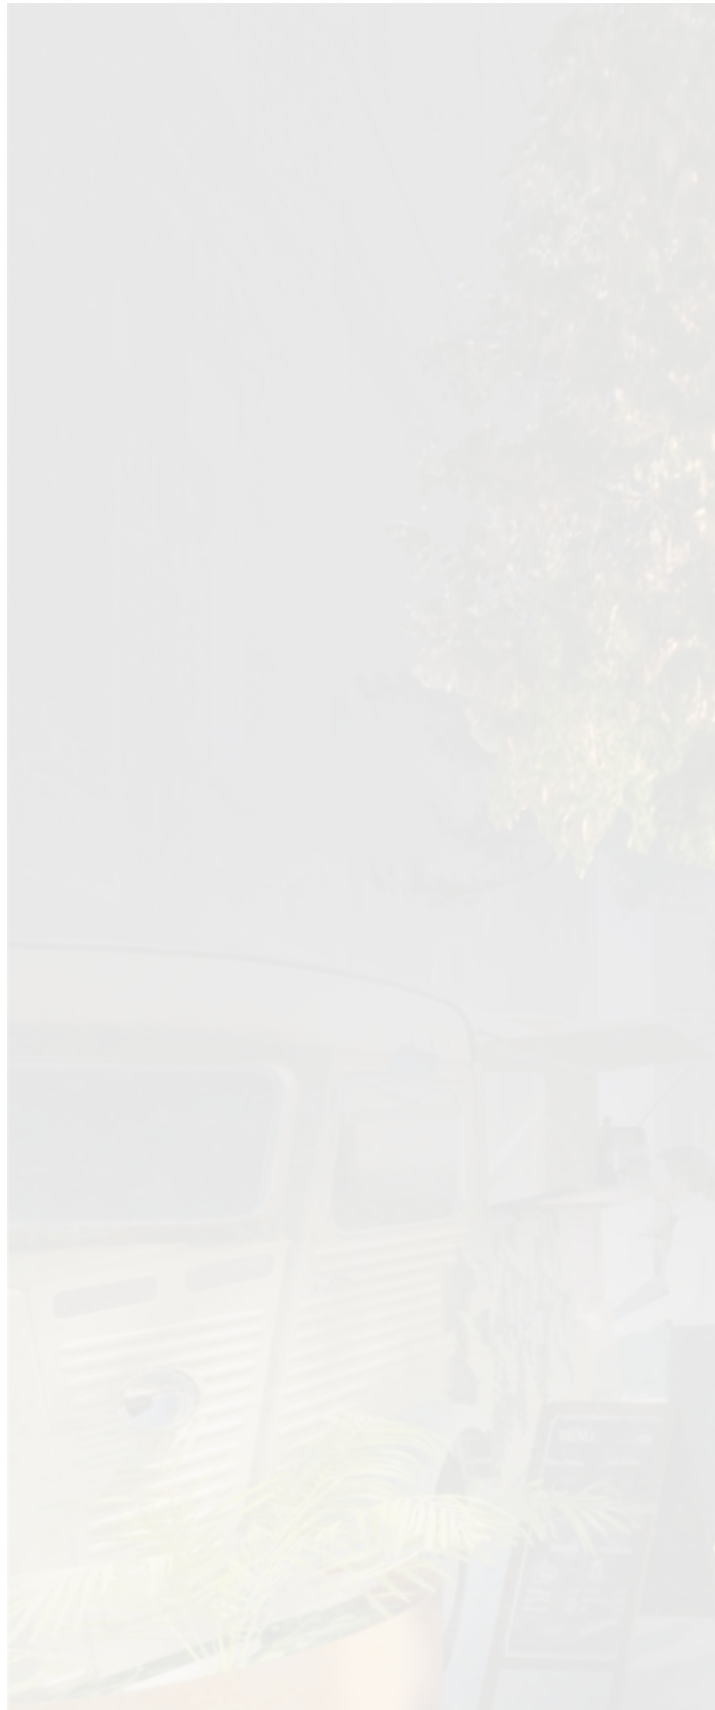

Wall washer fittings to create prominent focal feature through uplighting the tree foliage, in addition to festoon lighting which brings the area to life
