Product Description

Thermoguard Timbercoat Intumescent Paint Overview

Thermoguard Timbercoat is a white Intumescent, fire retardant paint for bare or previously painted timber, wood & timber derivative surfaces where surface spread of flame and fire propagation need to be upgraded to Class 1 & Class 0 and or/ EN Class B.

Thermoguard Timbercoat can also achieve 30 & 60 minutes Fire Resistance.

Thermoguard Timbercoat provides Low Smoke Emission and can be used inside and out, is low-odour and water-based, making it user and environmentally friendly.

To achieve Class O/EN Class B, prepare according to manufacturer's instructions and apply -

2 coats of Timbercoat @ 7m2 per litre followed by;

1 coat of Flame Retardant Paint @ 8m2 per litre. (Apply 2 coats on external or damp locations)

For 30 minutes or 60 minutes Fire Resistance, contact the our Technical Department on 0845 838 2225.

Tested to :

- BS 476 Parts 7; Class 1 surface spread of flame.

Due to high demand, bespoke colours will be dispatched within 7-10 working days. (Excluding weekends & Bank Holidays) News

System is designated Class C in accordance with UK Building Regulations - European EN Class B

Once your project is complete, use our simple online process to get your [FREE Fire Certificate](#). Most of our customers need a Fire Certificate to show that the work has been done correctly and the correct product used.

These certificates are most often referred to as a "Fire Certificate" but in fact are really a certificate of supply. They indicate the amount of product supplied and the fire rating that this quantity of product would achieve over an agreed specified surface area/substrate. After your application is approved: Thermoguard will then supply the certificate Free of Charge by email. All that remains is for the contractor to confirm by signature that the product was applied correctly in accordance with the relevant instructions and data sheets. There are many people who may need this certification: Building Managers, Insurance Companies, Building Control Departments etc. Thermoguard quickly issue a certificate of supply that is universally recognised and accepted.

Not only is it easy to apply for the certificate, it also [free of charge](#) and normally supplied to you by email within five days.
