Noise Statement

Proposed Click and Collect Canopy

07.00 to 23.00 Collection Hours

Client:	Asda Stores Ltd
Project	Asda Store Ashton New Road Manchester M11 4BD
Our Ref:	11586
Revision:	0
Report Prepared By	S. Fowler M.I.O.A.
Date:	28 th May 2021

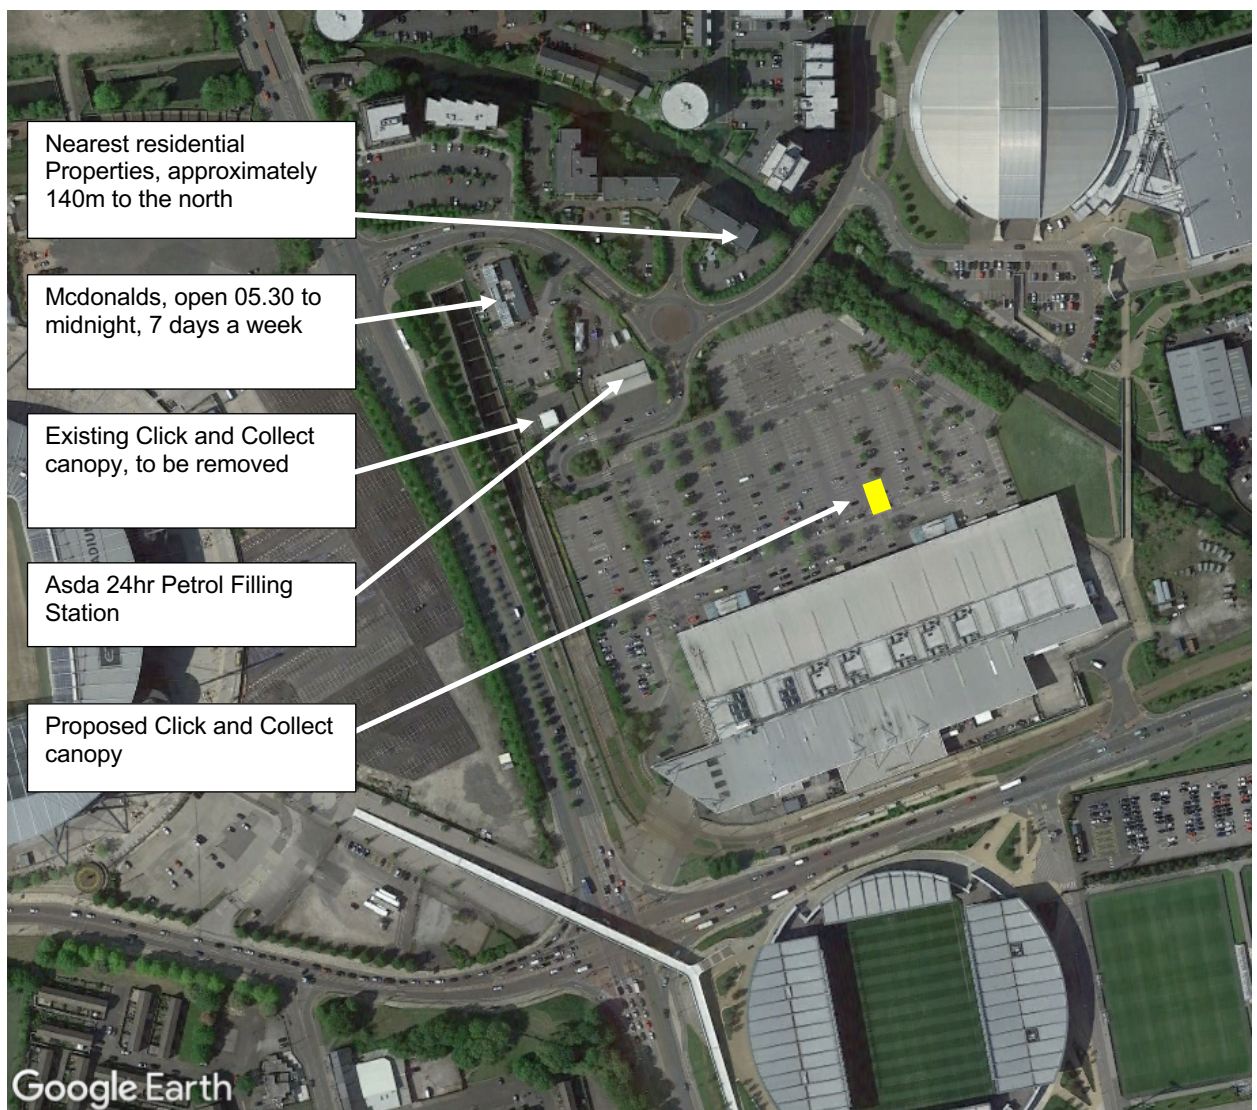

1.0 Introduction

Acoustic Consultancy Partnership Ltd have been instructed by Asda Stores Ltd to undertake a review of the proposed Click and Collect canopy at the Asda Eastlands store.

This statement considers revised collection hours for the canopy, between 07.00 to 23.00 hrs, 7 days a week

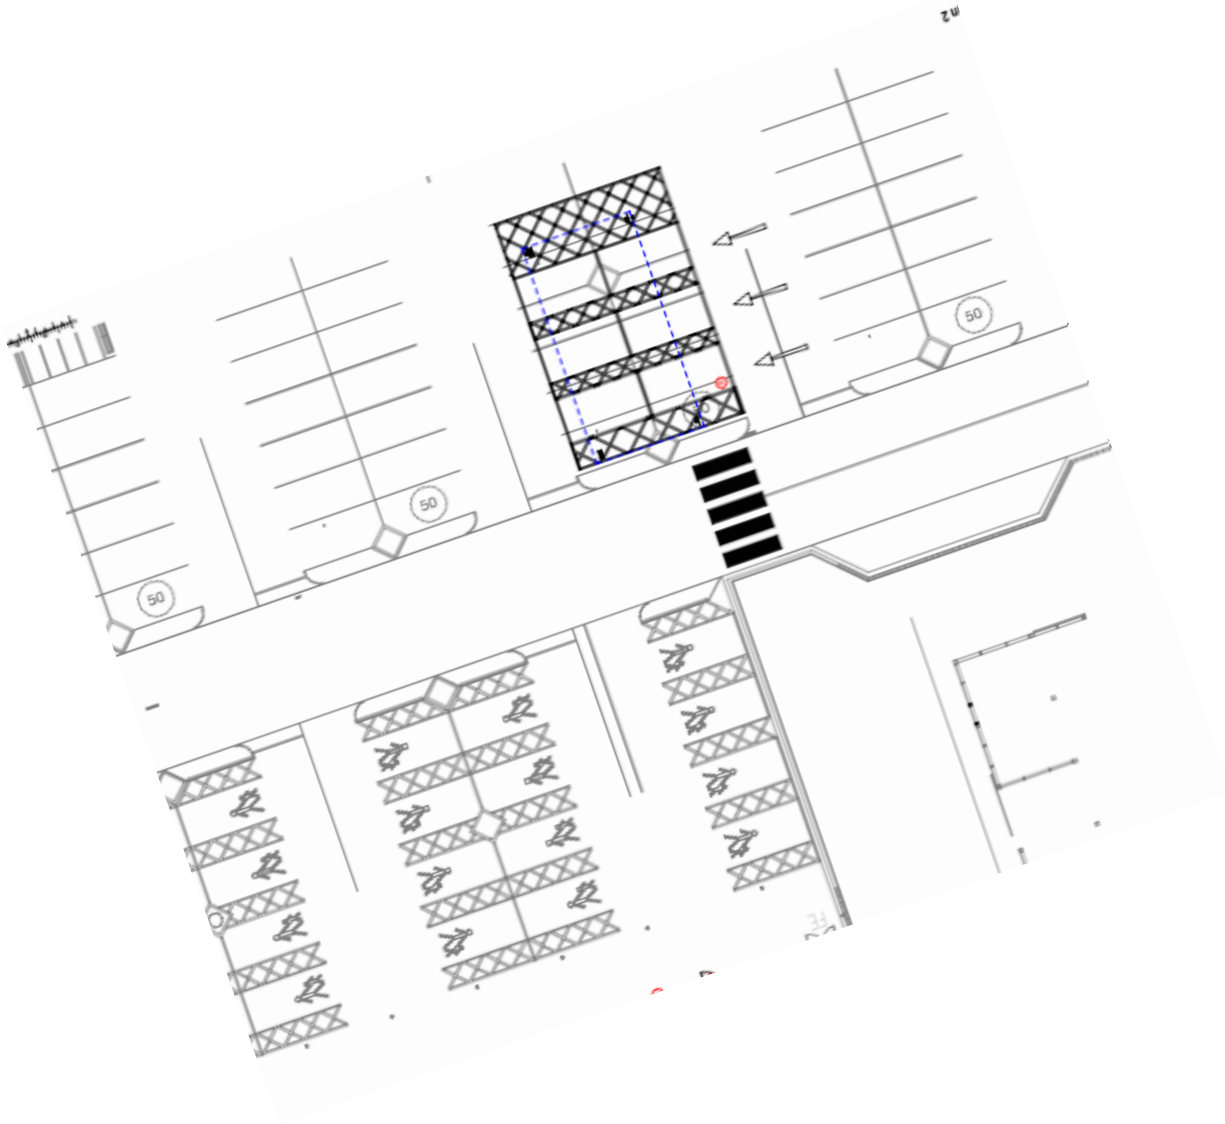

This noise statement provides information on design features and key points relating to the operation of the canopy.

2.0 Proposed Location

3.0 Proposed Design

The Click and Collect canopy would be a three lane drive through format, as indicated on the drawing below.

4.0 Activity Noise in Relation to Existing Noise Climate

The activity associated with the Click and Collect canopy would involve customer vehicles arriving, parking and departing from the dedicated parking bays. In noise terms this would essentially be the same as customer vehicles using store car park spaces. It is therefore appropriate to consider the Click and Collect canopy in relation to existing store car park use and other activity in the area.

The Click and Collect Canopy would be located within the existing store car park area. The purpose of the canopy is to identify the collection point for Click and Collect customers and to provide covered parking spaces.

Customers register their arrival using the Asda Mobile Check-in Service app, or by responding to a link on their confirmation email, or by ringing a phone number provided for store Click and Collect colleagues. Buzzers and intercoms have been eliminated from the collection process.

There would be no fixed plant associated with the new Click and Collect canopy.

The hours of operation of the canopy would be 07.00 to 23.00 hrs, 7 days a week, in contrast to the 24 hour trading of the Asda store.

The 07.00 to 23.00 hrs on a Sunday would be outside the trading hours of the store, but it is important to consider this in relation to other activity in the area. A McDonalds is located in Gibbon Street – this is considerably closer to the residential properties and operates 05.30 to midnight, 7 Days a week, with the associated customer and vehicle activity. A 24hr Asda petrol filling station is also located on the northern side of the site.

Based on the 140m distance to the nearest dwellings and the limited activity and noise sources associated with the Click and Collect canopy in relation to the existing activity in the area, we confirm the proposed Click and Collect canopy would have no adverse influence on the existing noise climate at the nearest dwellings.
