To whom it may concern

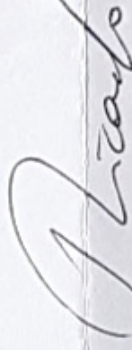

We are the owner occupiers of 36 White Moss Avenue, Chorlton, Manchester. Our immediate neighbour, Kevin Pocock at 38 White Moss Avenue, has explained to us his plan to extend his house - so that he and his partner have a designated, improved space to work from home. We understand this plan would involve:

- building an extension on the roof that would be stepped back from the existing street facade
- this extension will extend to the existing rear and sides of the house
- be accessed by a new stair at the side of the house
- be designed with our privacy in mind

We are fine in principle with this plan, but understand that more detailed design plans will be submitted to us in due course after planning permission has been applied for - and that we are able to raise any issues from this that may arise.

Yours faithfully

Katie Moore
