Details of the pre-application advice received

The original scheme was for a double dormer extension which was prominent from the street. Following consultation with the planners this was withdrawn. A revised scheme was presented in February 2021 to the planners for a pre-application opinion. It was redesigned to put the bulk of the second storey extension to the rear of the building so that it was less prominent from the street. The comments received back from that second scheme were that the scheme was still prominent. This further revised scheme has a redesigned roofscape which softens the lines of the roof as viewed from the street by removing the vertical wall facing the street. In addition the render has been removed following negative comments from the council on the first application.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
