To whom it may concern,

124456/JO/2019 Manchester Museum Oxford Road Entrance Variation to Condition Application

Please find the enclosed the completed application form associated with the Application to Vary Condition 2 of the planning and listed building consent at Manchester Museum.

Description of Proposed Changes

The application form and associated drawings detail the full proposed changes which can be summarised as;

- The extension of the new entrance slope/stairs to the building line to fully infill the moat.
- Removal of the previously proposed glass guarding along the building line as this is no longer required.
- Introduction of zinc skirting along building line to conceal the waterproofing detail.
- The reduction in height of the feature wall and introduction of handrail/guarding on top.

The above revisions respond to a desire to simplify the design and a Client request to improve visibility of the main entrance to assist with visitor wayfinding and security.

For clarity, drawing 901 has been submitted to provide a comparison of the approved plan/elevation and the proposed plan/elevation.

Schedule of Drawings

Please refer to the schedule overleaf for a list of the drawings submitted to support this application (highlighted in yellow) and a list of drawings previously submitted alongside earlier applications.

I confirm that the drawings submitted are the only approved drawings affected by the proposed changes.

Summary of Discharge of Conditions

Please also refer to the schedule overleaf which lists all conditions associated with the approved scheme and their current status. Where the condition has been discharged we have included the associated reference number.

This application is in reference to Condition 2.
