We were advised to submit for consideration the Coal Mining Report as supporting information to discharge this condition, specifically with reference to paragraph 6.6 which states:

6.6 Although it has not been possible to prove conclusively that the proposed plant room area is not affected by shallow coal seams/shallow coal workings, as the desk-based evidence suggests that the risk of the proposed plant room area being affected by future coal mining related ground subsidence is low, further investigative and or proof drilling/grouting works are not considered necessary prior to development works proceeding.

Declaration

I / We hereby apply for Approval of details reserved by a condition (discharge) as described in this form and accompanying plans/drawings and additional information. I / We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine options of the persons giving them. I / We also accept that: Once submitted, this information will be transmitted to the Local Planning Authority and, once validated by them, be made available as part of a public register and on the authority's website; our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration
