Overview

This document is intended to highlight and prove the actual usage of the site located at:

78-88 High St,
Manchester
M4 1ES

The site is located over two floors and for over 10 years has operated as a cocktail bar on the ground floor and nightclub in the basement. The bar initially opened in 2009 as “Walrus & Tusk” and was later rebranded to “The Man With The Fish” in 2021.

This document has been broken down into sections for each type of evidence. Each evidence group provides links/sources over a 10 year period where applicable. Where screenshots are used (for example of emails or file screenshots), originals can be provided if required.

Usage

Walrus

When Walrus opened in 2009 it was a psychedelic themed Cocktail bar with some Asian style ancillary food services, with a nightclub/bar in the basement.

By 2012, the bar had been completely redesigned and was more of a traditional Cocktail bar with some basic bar food options, still with the basement bar/nightclub operating on a weekly basis with frequent DJ events and live events.

Food has always been served as an ancillary service on the ground floor but the basement has always been exclusively a bar/nightclub with no food options at all.

Man With The Fish

After the Covid Pandemic, the bar was rebranded to The Man With The Fish. The layout was similar to Walrus (Cocktail bar upstairs and nightclub in the basement). However, there were no food options at all. Ancillary food options were introduced briefly in 2021 but then discontinued after 6 months and presently still have no food options.

Testimonies

Andrew Blackburn

The following is a testimony from Andrew Blackburn, the Managing Director of the company currently operating from the bar unit. He was also previously Director of finance for the previous tennant company.

Witness Statement of: Andrew Stewart Blackburn
18 May 2022
on behalf of Northern Hospitality (MCR) Limited

OPERATING HISTORY – 78-88 High Street, Manchester M4 1DB

WITNESS STATEMENT OF ANDREW STEWART BLACKBURN

I, Andrew Stewart Blackburn of Northern Hospitality MCR Ltd (reg office: Egan Roberts, Unit 46, Manor Court, Salesbury Hall Road, Ribchester, Preston, Lancashire, United Kingdom, PR3 3XR) do hereby state as follows:

1. I am the Managing Director of Northern Hospitality (MCR) Limited ("NHML"). I have worked for NHML since its incorporation in November 2018.
2. NHML currently operates four bars and restaurants in Manchester, one of which is MAN WITH THE FISH (previously "WALRUS"), located at 78-88 High Street, Manchester, M4 1DB. I manage all strategic decisions for the business including those for this site.
3. I have been a Director at NHML since its incorporation and was previously the Finance Director at Mark Andrew Developments Limited ("MAD Limited"), the company that operated WALRUS between 2007-2018.
4. I am authorised to make this Witness Statement on behalf of NHML and the facts in this Witness Statement come from my own personal knowledge, the records of NHML to which I have full access, and in part from MAD Limited's records.
5. I make this statement to support evidencing that WALRUS operated primarily as a late-night cocktail bar for fifteen years since opening in 2007. Food was served in the site in the daytime from 2007 to 2018 and then for six months in 2020.
6. The site operates a basement bar and a ground floor bar opening at 12.00pm midday. Closure times are 12.00am Sunday to Wednesday, 01.00am on Thursday and 03.00am on Friday and Saturday. When offered, food is served until 07.00pm each day.
7. The basement bar has operated as a nightclub venue with DJ events on most nights and every Friday and Saturday since 2007. Food has never been served in this area.
8. I have been a Director at NHML since November 2018 and was previously employed by MAD Limited from March 2017 to October 2018. From my time working for previous operator MAD Limited, I am also familiar with the way in which the site operated from 2007 onwards. This early operation was consistent with the way in which MAN WITH THE FISH operates now.

Statement of Truth

I believe that the facts in this witness statement are true.

Signed.....
Andrew Stewart Blackburn

Sales Figures

The following sales figures were provided by Andrew Blackburn, the director of the company currently leasing the bar unit (and the Director of Finance since 2007 the company who operated the bar under the name of "Walrus")

This clearly shows that the bar has operated primarily as a drinking establishment with ancillary food services, as food sales have never exceeded over 10% of the net sales split.

Great Place, Fab Cocktails and Amazing Drag Act

We went to Walrus as my daughter had told me about the drag act and said the cocktails were on 30% off!

It was a Tuesday night.

We had a lovely night, great atmosphere, the drag acts were both amazing and the cocktails delicious.

We sat in a booth which was cosy and comfortable.

We parked in the Arndale over the road and all in all we had a lovely night.

Go and see the drag act ❤️

Party party

Love a night out in the Northern Quarter, and Walrus would be my top place of choice. It's got a nice chilled vibe with options of different music upstairs and downstairs, plus seating for when your legs are wobbly from all the dancing. The staff are very friendly and they do some good cocktails. I was also here last year during the day for food with friends and enjoyed it.

Awful don't go there

I visited here with a group of friends. When we entered the only table available wasn't cleared. A waitress said she would clean it and didn't bother to return. We waited for around 20 minutes for anyone to come to us with a menu or to clean the table. This was then with a very dirty looking cloth with no spray used. Staff were rude and just couldn't be bothered. It was as if we were a problem for them. When we ordered the waitress got our order wrong and missed off an item. Instead of coming back to tell us she brought the side at the end of our meal.

The atmosphere is unfriendly and it is pretty unclean. More like a nightclub than a nice restaurant. When we went to pay the bill they had added on alcohol that we hadn't had. When challenged the waitress knew this but didn't pre warn us. Not at one point did anyone make friendly contact with us, ask us if our meal was ok or were attentive in any way. I don't know how they keep in business.

Keep away at all costs. Spend your money elsewhere! I am appalled and really despise that I spent £50 on here.

I'd been in Walrus a few times but always just for a quick pint. This past weekend I got the chance to spend a longer period of time in there and I really enjoyed myself.

Drinks are reasonably priced and bar staff were great - never keeping you waiting to long for a drink, which is a nice change as I was starting to debate whether or not as invisible to certain bartenders and certain bars.

Upstairs you have a nice bar area with some high top tables and booths for you to sit in and grab some food, whilst downstairs, at least when I arrived, was a more of a dance floor/nightclub setting.

The owners have done a good job here, and I believe it's not their only venture in NQ, so I guess I'll have to go out for another drink soon, sigh.

If you want a night out in Manchester's Northern Quarter, you really don't need to walk much farther than the crossroad of High St and Thomas St. There are so many bars and clubs that you can safely party the whole night long, popping in and out of different places within a very small urban ground.

Walrus oozes freshness and space, and their lower ground dance pool is always cool, no matter how many people there are. Upstairs they served a very tasty Chinese lunch, complete with stylish black dishes. It is hardly a place for a business meeting (unless your partners have a good sense of humour), but for a friendly crowd Walrus is a great choice for lunch.

Website

Below are some examples of how the bars official website has looked over the last 10 years and are categorised by when major changes were made.

All archive links are to the capture taken by The Internet Archive (aka The Wayback Machine). The Internet Archive crawls websites is considered the most reputable source for archiving web pages, with over 650 billion web page snapshots. These are considered the most trustworthy source of information on how these websites looked on these dates.

The current iteration of the website (As of 23/05/2022) is quite limited but markets itself as a drinking establishment with a basement club. There is no mention of food at all on their current website.

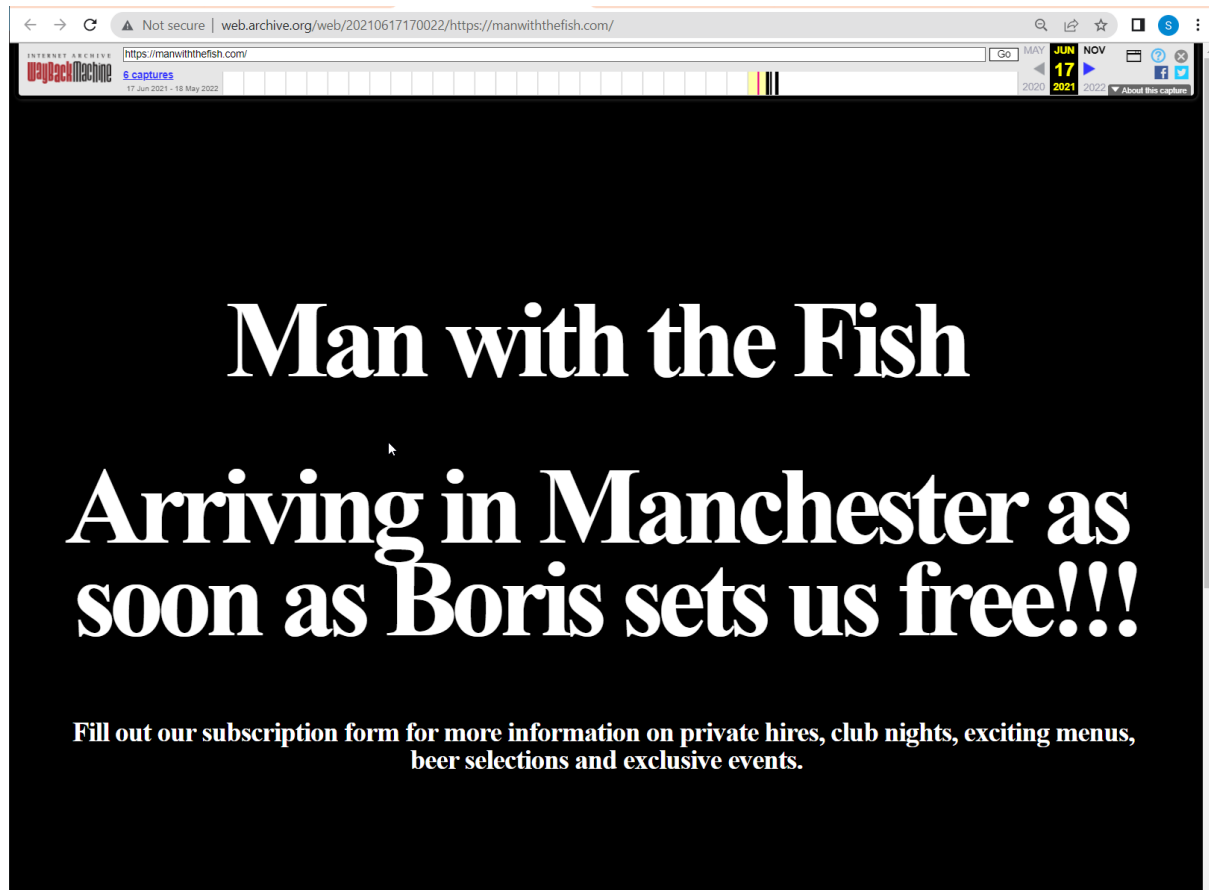

2021

Archive Link (June 17 2022):

<http://web.archive.org/web/20210617170022/https://manwiththefish.com/>

The previous iteration of the website was during the Covid Pandemic when the bar transitioned from being Walrus and became The Man With The Fish. There is not much information provided here but it's clear that they are marketing themselves as a bar/club and not a restaurant.

2018

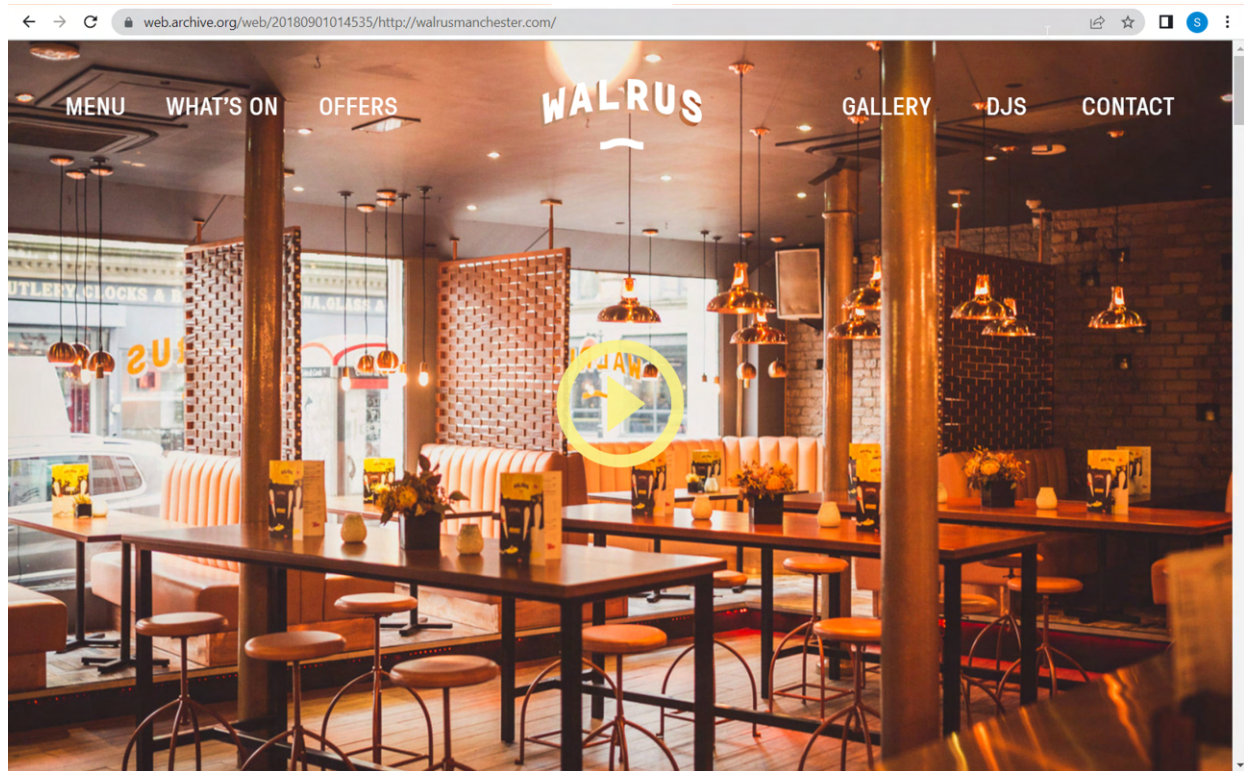

Archive Link (July 31 2022):

<https://web.archive.org/web/20180901014535/http://walrusmanchester.com/>

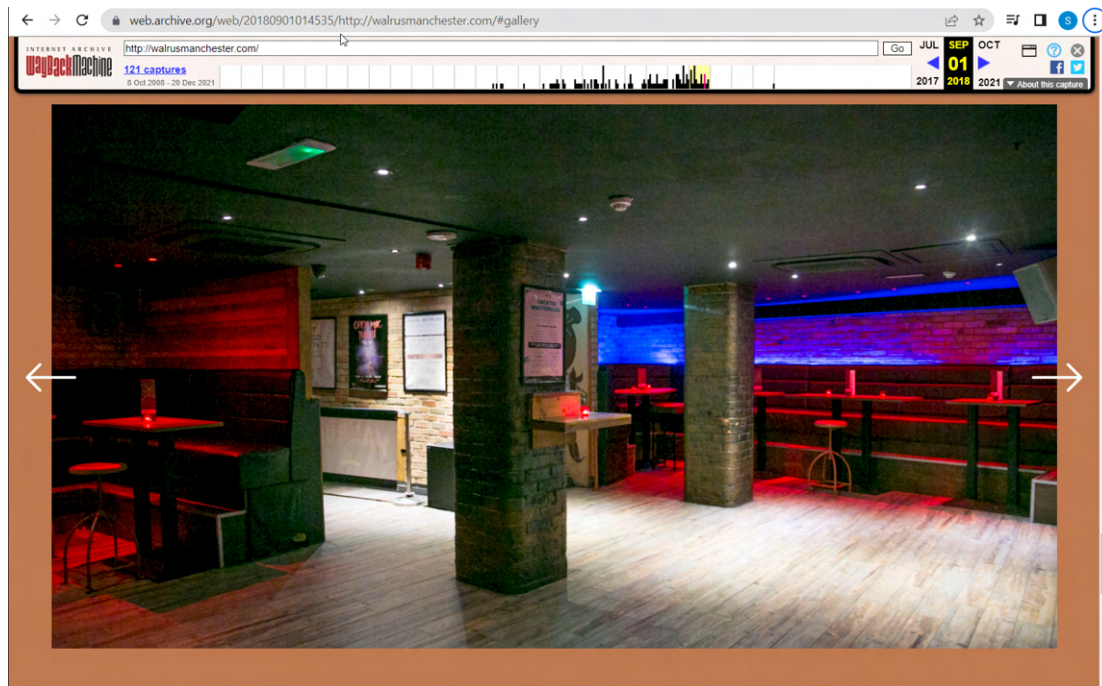

The 2018 iteration of the website features a splash screen with a video that clearly markets the venue as a drinking establishment with some ancillary food services. Scrolling down, the “About Us” section of the website refers to the venue as a place where “Music lovers can party hard”. There is a section dedicated to the DJ biographies and the gallery primarily consists of photos of the cocktails and the downstairs nightclub. The video that plays automatically can be found here:

The 2017 iteration of the website is the same as 2018, however the DJ's section is slightly different. This indicates that the bar is operated in the same way but the DJs were changed in the following year. This also suggests that the website was still accurate and being regularly updated at the time and was indeed operating as a bar/club.

The 2016 iteration of the site is very similar to the years following, however some of the content is different and gives us a better understanding on what events were taking place at this time.

The “About us” section has a mention of food but primarily revolves around cocktails and drinks. The “What’s on” section has multiple recurring weekly club nights every Thursday, Friday and Saturday. Mention of the food is very minimal and it's clear that the venue considered itself as a drinking establishment.

The 2015 website is limited on information though it does still clearly demonstrate that the bar was a drinking establishment even in 2016. The 'About' section suggests that the bar was still doing club nights and live music at this time and the hire section clearly shows that it still had the basement bar/night club.

This iteration also has a link to the bar's older Twitter account which has been referenced in the Social media section.

The 2013 iteration of the website is very similar to the 2014 version. However the menu is slightly different which suggests that the website is still being actively maintained during this period so the information is likely to be up to date.

The text is hard to read on this version (white text on white background) so I have highlighted the text to make it legible. The 'staging' link suggests that this archived snapshot was taken during the development of this iteration of the website.

The 2012 version of the website (and before, going back to 2009) remains the same. However we can see the website was still actively maintained and kept up to date because the blog section has had new posts over the years.

The landing page of the oldest iteration shows that the venue describes itself as a “canteen and bar” and scrolling down the page makes reference to “Downstairs bar and nightclub”. Based on this we can see that the basement bar/nightclub has been in operation for at least 10 years. The primary product pushed on the website is the cocktails, showing that the venue views itself as more of a cocktail bar than a restaurant.
