

YORKSHIRE BUILDING
SOCIETY HANGING
SIGNAGE

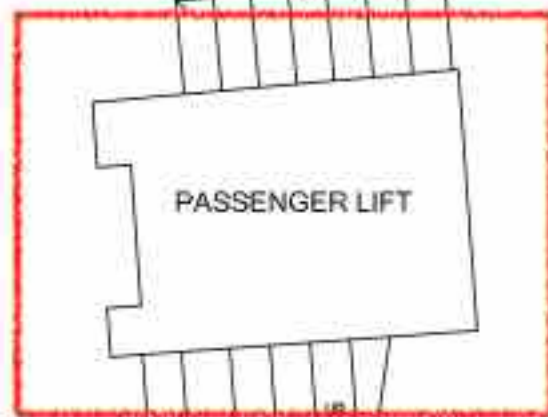

This architectural drawing shows a section of a building facade. At the top, there are several windows with decorative, fluted mullions. Below them, a horizontal line indicates a ledge or cornice. To the left, a small, dark, bottle-shaped object is mounted on the wall. Further left, a hanging light fixture is shown. The central focus is a doorway with a wooden door featuring horizontal slats. Above the door is a rectangular transom window. To the right of the door is a large glass panel containing an ATM. A red dashed rectangle encloses the doorway and the ATM area. The ground level is indicated by a dark horizontal line at the bottom.
