

Dear Sir/Madam

I am writing to you due to recent application for an annex via 64 Shawbury Road Manchester, due to various circumstances.

I live approximately 28 miles away from family and friends who I dearly miss. Due to a severe accident causing facial and long term back injury I require support with daily activities at it's worst dressing. As I becoming older, I am finding that I require family support more, at times requiring hospitalisation.

Long term shall surely make life easier for both myself and family and remove stressors from family in the event of long term care for me of which I endeavour shall need. On a positive note I shall be able to spend quality time with family and not isolated.

Yours sincerely

Julie Wingfield
