

5.0 Waste Management & Service Strategy

Refuse Strategy

This diagram illustrates the proposed Waste Management and Service Strategy.

The refuse has been organised in such a way to achieve BREEAM compliance.

Both the refuse store and Service / Loading Bay are located at the North of the building, centrally located close to the lift and stair core with good access to the upper office floors and ground floor retail units.

The refuse collection point is found directly outside the refuse store on Mulberry Street.

Ground Floor

Key

- 1. Refuse Store
- 2. Refuse Collection Point
- 3. Service / Loading Bay
- 4. Service Routes
