

red line indicates approved roof line/height
EWA propose 1000mm reduction in height

This architectural elevation drawing shows a long, low-profile building complex. The left side features a series of tall, slender light poles. The main building has a large section with vertical slats or louvers. A red line is drawn across the top of this section, with an arrow pointing to it from the text above. The right side of the building has a lower, more industrial appearance with large windows and doors. The foreground is a dark, flat area representing the ground or parking lot.
