

WASTE MANAGEMENT PLAN

Proposal: CHANGE OF USE FROM A1 SHOPS TO TWO NO. ONE BEDROOM DWELLING HOUSES

Address: 64 WOODLAND ROAD, MANCHESTER, M18 7JE

Date: 12/02/2021

Waste management

The building is a mid-terraced house and forms part of, what appears to be, a group waste management plan. All the houses on the terrace use a set of bins supplied by the council. No property has their separate bins. One of the residents was stated that all the houses (together) use those bins. The bin truck has an access via the side alleyway and through a gate where the bins are kept for the resident's use. Please see pictures below.

However, dedicated bins can be added to the backyard of **64 WOODLAND ROAD** if recommended by the council.
