	Area	Scheme
1	Semi-elliptical beds in the communal planting area	Southmost bed: wildflower turf https://turf.co.uk/wildflower-turf Northmost bed: evergreen shrubs and perennials 1 x Brachyglottis 'Walberton's Silver Dormouse' 1 x Choisya ternata 'Sundance' 1 x Hypericum 'Hidcote' 7 x Hakonechloa macra 'All Gold' 3 x Bergenia cordifolia 'Purpurea' 3 x Hemerocallis 'Anzac' 3 x Persicaria affinis 'Darjeeling Red' 50mm layer of composted bark on bare soil
2	Tree for tree-pit in communal planting area	<i>Gleditsia Triacanthos 'Sunburst'</i> (Honey locust 'Sunburst' tree) Full standard tree This is a hardy, deciduous tree. It is generally disease free and grown for its foliage which is yellow in spring, pale green in summer and yellow in autumn. It will enjoy the sunny spot provided the tree pit is well-drained. It does not need pruning but can take hard pruning. It reaches maturity in 20 to 50 years reaching a height of 8 to 12m and spread 5 to 8m. A tree with trunk height 1.8m and trunk girth 16 to 18cm should generally be available for around £200 Younger specimens (6 to 7 years old, trunk 1.5m) are generally available for £50
3	Planting schemes for smaller planter beds	2 south facing beds: Evergreen shrub and perennials. For each bed 1 x Hebe 'red edge' 1 x Phlox paniculata 'White Admiral' 1 x Geranium 'Blue Cloud' 2 west facing beds: Evergreen shrub and perennials. For each bed 1 x Hebe 'red edge' 2 x Liriope muscari
4	Suggested low maintenance	Add evergreen ground cover plants, that cope with shade, between the existing shrubs such as: <u>Pachysandra terminalis 'Variegata'</u>

	additions to existing planting by path to the communal patio area	Liriope 'muscari' Euonymus japonicus 'silver queen'
