| <b>General Notes:</b>                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Discovery Caveat:</b>                | This schedule records the building assets as at the end of the Soft Strip of the building . However, as the perimeter boxing and other coverings are removed during the MEP strip and other genral alterations further assets of heritage significance will be discovered and will be recorded on later revisions of this schedule which will be issued under the EWN and change control procedures of the contract and will be managed in LBC terms by the Watching Brief Discovery Protocols and Heritage Surgery Review System as already agreed with the LPA.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Protection in situ:</b>              | This schedule records the building assets that are to be kept in situ and protected in the building . The fixed and unfixed assets listed will be protected in the same ways as the rest of the building fabric. There is an agreed provision of physical protection measures for the primary routes and vulnerable areas which remains in place throughout the duration of the works (refer to protection provision drawings and specifications issued by Lendlease). In addition to this there is a system of monitoring environmental and vibration conditions in the building to protect against damage. The Work Package Contractors will be responsible for bespoke and proportionate protection (both in terms of working methods, controls and physical guarding) of the building fabric and assets related to mitigation of the risks of particular operations in specific locations and this will be managed in LBC terms by the Heritage/Technical Submittal Approval Protocols and Heritage Surgery Review System as already agreed with the LPA. If it is found that an asset cannot remain insitu, due to unacceptable risk of damage or an unavoidable clash with new installations, a proposal will be put to the Heritage Surgery Team as a heritage/technical submittal for it to be catalogued, carefully removed and taken to MCC store for a later decision to be made about its end use (refer to the accepted approach to the items already on the schedule for reinstatement once the works are complete, re-location in the final scheme, storage in perpetuity as part of the acquisitioned collection or other disposal according to the MCC disposal policy). |
| <b>KEY:</b>                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
