

Fire Evacuation Plan For Cloudwater Brew Co

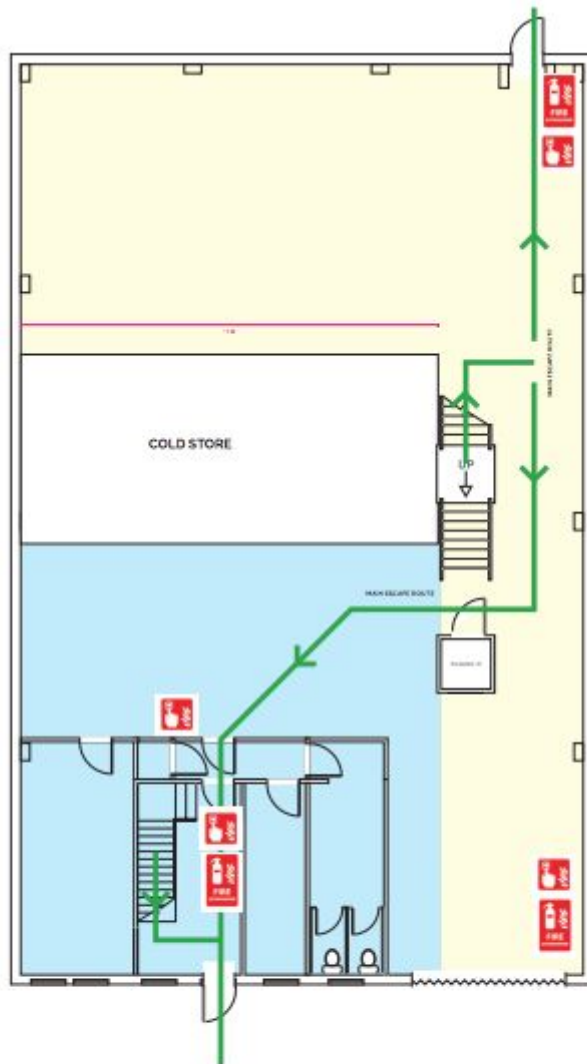

Emergency Evacuation Plan for :	Employees, Visitors & Contractors at Cloudwater Brew Co
Premises address and contact no:	Unit 9, Piccadilly Trading Estate, M1 2NP 0161 278 9029
Plan date	17/01/2020
Review date	17/01/2021
Sound of the alarm	
The sound of the alarm is : A continuously ringing bell.	
Raising the alarm	
If the fire is discovered by a staff member, or a visitor notifies a staff member of a fire, the alarm will be raised by hitting the Break Points. These are located in the following areas; • Front Door (fire exit) • Back Door (fire exit) • Entrance to the bar • At the top of the stairs by the entrance to the bar The designated Fire Marshall will then conduct a full evacuation, overseeing all customers and supported by other staff to ensure noise is kept to a minimum and dispersal does not result in public nuisance, crime or disorder. If fire is detected by automatic detectors, this will trigger the fire alarm.	
Action staff should take on hearing the alarm :	
Exit the building at the closest fire escape, do not stop to collect your belongings or make any attempt to contain the fire. Meeting Point is Unit 16 Car Park where a head count will be carried out by the designated Fire Marshall. Dial 999 and request attendance by the fire service. Staff members must give their name, name of building, building address (as detailed above). Ensure nobody re-enters the building until confirmed safe to do so by the fire service	

Meet at the assembly point and ensure all contractors, customers and staff members are accounted for.
Escape routes
The escape routes from the building are: (detail designated fire escape routes) • Rear of Unit 9 • Entrance of Unit 9
Fire assembly point
The assembly point is: Unit 16 Car Park.
Fighting fires – Extinguisher use : Should only be used by staff trained and who understand which extinguishers should be used dependent on the fire, their proximity & availability.
Fire extinguishers will only be used where: • Staff have received training and feel confident in their use • Where it is deemed safe to do so i.e. there is a clear means of escape, fire is small Personal safety always takes priority and, if in any doubt, staff should not attempt to extinguish a fire.
Location of key safety hazards or other fire related equipment
• Gas supply shut off: Main Shutter • Mains fuse box: Main Shutter • Mains water inlet: Main Shutter • Gas/oxygen cylinders: Cold Store • Location of fire alarm panel: Front Door

Alternative arrangements will be made to cover staff absences/ leave etc to ensure there are always a sufficient number of trained staff available on site
