 Paint and Sundries

Paladin® FX Panel Fencing System

A new addition to the Paladin family retaining its innovative appearance whilst combining a more rigid panel with the universal fixing bracket system.

SPECIFICATIONS:

Mesh Pattern	Varies to 50 x 50mm max, welded at each intersection
Horizontal Wires	5mm dia at 150mm centres with additional wires at 50mm centres in the 'V' beams
Vertical Wires	4mm dia at 50mm and 15mm centres
Finish	Polyester coated with a galvanised substrate
Presentation	Panels are flush edged all round and have additional reinforcing wires at the top, bottom and beam profiles. Post centres at approximately 3.050m
Post System	Twilfix 2000

Fence Height	Panel Size H x W	Weight per Panel	Number of Beams	Product Code
0.9 m	925 x 3023 mm	16.9 kg	2	56PALFX09
1.2 m	1240 x 3023 mm	21.4 kg	2	56PALFX12
1.8 m	1850 x 3023 mm	30.0 kg	2	56PALFX18
2.0 m	2000 x 3023 mm	34.8 kg	3	56PALFX20
2.4 m	2440 x 3023 mm	41.0 kg	3	56PALFX24

When ordering, please add **B** for black or **G** for green to Product Code

To achieve fence heights in excess of 2.4m the panels are designed for multi-lift erection. ie one or more panels placed above the bottom panel.
