

Schedule to be read in conjunction with the Alterations & Demolitions Drawing series: 0363 to 0392 and Alterations & Demolitions Specification OTH-PUR-TH-ZZ-SPE-A-0332

Refer to Ramboll information for methodologies and details of BWIC, and Purcell details for setting out principles

Refer to Ramboll information for location and proposed works to loadbearing walls. For costing/health and safety purposes, some of the unknown walls assumed loadbearing until site investigations can be undertaken.

Level LG Alterations were separated from the other Levels for the construction issue at request of Lendlease for management between different contractors.

Refer to Limecrete drawings for the floor alterations on LG level

Alteration Number	Fabric Altered	Alteration Type	Alteration Description	Material Age	Material Type	Significance of Altered Material	Assumed Loadbearing (based on Ramboll lintel design)	Interface with Decorative Finishes	Alteration height (from FFL)	Alteration Width (mm)	Alteration Notes	Revision Details
