RISK CONTROL MEASURES AND PROCEDURES FOR IDENTIFIED HAZARDS	
Emergency contact details	
Specialist training required (PASMA etc). Include who needs this training.	

Description of safe method of work

Ensure all signs and barriers are put in place before the works starts.

Move all materials and tools safely to the working area.

Ensure all work is safe to do so before you start.

Identify redundant and damaged service cables, wiring, any piping and aerials fixed to the exterior of the building.

Check that there is no power or connection to live services with these redundant items.

Carefully remove items so not disturb existing brickwork or mortar. Use hand tools, screw drivers, to remove clips into the fabric of the building.

Make good any spoiled bricks and missing mortar with proposed and approved samples to make good.

Ensure all areas are clean and tidy before you leave site

Tools/plant to be used:	
Have all tools/equipment been tested/inspected as safe to use?	

Are 'Permits To Work' required (for high hazard work)?		**Identify permit type:**		**Person responsible for this permit:**	

Are hazardous materials to be used?		**Are COSHH/ risk assessments/data sheets available?**	

Will the work create harmful noise?		**If yes, what tools/plant will be used?**	
Noise categories:	**Select from here (click)**		
Control measures:			

(Attach sketches/drawings/photos here as appropriate)
