

Planning Application 126114/LO/2020

Public Realm & CCTV, Highways, Manchester City Council

Heritage Statement

The Corn Exchange is a Grade II Listed Structure. Aviva undertook renovations to the building in 2014 to enable it to operate as a restaurant-led destination. Further renovations were subsequently undertaken from 2015 to change the use of the part lower ground floor, part ground floor and second to fifth floors of the building from offices to hotel accommodation.

There are three public spaces CCTV cameras owned and operated by Manchester City Council currently sited on the building on the front elevation, side elevation and roof.

Overall plan showing 3 x camera locations marked in blue.

The existing cameras have come to the end of their economic life and are no longer performing to the standard required.

The locations of the cameras are key locations within the City Centre for achieving the Council's objectives in using CCTV cameras:

- To increase safety for those people who live, work, trade within and visit Manchester including monitoring for security and safety purposes of Council staff and visitors in Council premises.
- To assist in the deterrence and detection of crime (including environmental crime), disorder and anti-social behaviour in Manchester; and in the upholding of legal rights. This will include:
 - Helping to identify, apprehend and prosecute offenders

- Providing evidence for criminal and civil action in the courts including preliminary investigation of claims
- Countering terrorism
- To help reduce the fear of crime and provide reassurance to the public
- To increase safety for those people who live, work, trade within and visit Manchester including monitoring for security and safety purposes of Council staff and visitors in Council premises
- To assist in the overall management of public places
- To assist in developing the economic wellbeing of the Manchester area and encourage greater use of the City Centre
- To assist the Council in carrying out its regulatory functions in relation to environmental health and protection, pollution control, contaminated land, health and safety, food safety, animal welfare, consumer protection, weights and measures and licensing.
- To provide traffic management support and enforce bus lane and parking restrictions
- To provide assistance and direction in the event of a major emergency in Manchester

Camera 26 Triangle Shopping Centre above Exchange Square Entrance

Older Dome type camera approx. 14 inches in diameter excluding bracket. Weight approx. 18Kg.

Camera 27 Triangle Shopping Centre corner of Exchange Square and Cathedral Street Corner.
