[illegible]

This architectural section drawing illustrates a restaurant interior with a long, low booth seating area. The booth is composed of several rectangular sections, each with a small table and two chairs. The seating is labeled 'Low Booth seating - see 3017'. Above the booth, there are large windows with various treatments: 'Powder Coated Window / Glazed Door installed as part of Landford shell works no works required', 'Existing Louvre Panel', and 'Existing Stonework window reveals to be protected during the fit out works due to its listed status and washed down at completion of the works - Note : nothing to be fixed to it.'. The ceiling features 'Bronze Pendant lights' and 'Lamp - see 3025'. The walls are labeled 'Ash hardwood wall paneling See 3019', 'Artwork by others', and 'Existing Plaster Wall with painted finish'. The floor is labeled 'One vertical Stone Mullion to be left visible'. Dimensions are provided for the booth height (475) and the window height (3600). Notes at the top of the drawing specify protection and treatment requirements for the stonework and window reveals.

Existing Stonework window reveals to be protected during the fit out works due to its listed status and washed down at completion of the works - Note : nothing to be fixed to it.

Existing Stonework window reveals to be protected during the fit out works due to its listed status and washed down at completion of the works - Note : nothing to be fixed to it.

Existing Stonework window reveals to be protected during the fit out works due to its listed status and washed down at completion of the works - Note : nothing to be fixed to it.

Existing Stonework window reveals to be protected during the fit out works due to its listed status and washed down at completion of the works - Note : nothing to be fixed to it.
