

1. Existing Facility

General waste bin – emptied bi-weekly (the bins are left outside the main entrance for general collection
Bosworth Street M11 3AW)
Recycling waste – paper
Recycling waste – plastic

2. Waste Removal

Most of the waste is removed by the committee and the club currently don't have a contract with BIFFA. One of the members works for BIFFA and has a gate key to the club gates for removal of any larger waste when required eg after events etc.

3. General

Self-management of the removal of waste at the boxing club works well as the Club don't have a lot of waste and the Club committee manage the recycling and removal of waste themselves. This also provides a good discipline to the younger members of the Club.
