

Application number: 127534/FO/2020

Proposal: Site investigation and remediation works including trial piling, grouting of coal seams and mineshaft capping and other associated works

Location: Site South Of Sportcity Way, East Of Joe Mercer Way, West Of Alan Turing Way And North Of The Ashton Canal At The Etihad Campus, Manchester,

Applicant: OVG Manchester Limited

Flood Risk Management Team Comments (06 August 2020)

Condition:

The proposed site investigation and remediation works should be undertaken in accordance with the approved Project Management Plan, Bam, 10th July 2020 and Method Statement, Cementation Skanska Ltd, 3rd July 2020 to manage surface water runoff and risk of contamination of groundwater and surface water.

Reason:

To prevent the increased risk of flooding, improve and protect water quality pursuant to policy EN17 of the Core Strategy.
